CONVEYANCES

Whenever the letters Q. C., C. & G. and B. & S. occur, preceded by the name of the grantee, the mean as follows:

1st.—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed wherein all the right, title and interest of the grantor is conveyed, omitting all covenants and warranty.

2d.—C. & G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or encumbered.

3d.—B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no expressed consideration, and thus impliedly claims to be the owner of it. The street or avenue numbers given in these lists are, in all cases, taken from the insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made of them by the Department of Public Works.

4th.—The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given.

5th.—The figures in each conveyance, thus, 2:482—10, denote that the property mentioned is in section 2, block 482, lot 10.

6th.—It should also be noted in section and block numbers that the instrument as filed is strictly followed.

7th.—A \$20,000—\$30,000 indicates the assessed value of the property, the first figures being for the lot only, and the second figures representing both lot and building. Letter P before 2d figures indicates that the property is assessed as in course of construction.

## MORTGAGES

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given and the amount. The general dates used as headlines are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

The first date is the date the mortgage was drawn, the second the date of filing; when both dates are the same, only one is given.

Subscribers will find mortgages in this list with the wrong block number attached. The block number we give is taken from the instrument as filed.

Mortgages against Bronx property will be found altogether at the foot of this list.

## YOUR SYSTEM OF RECORDS?

BETTER USE OURS

It costs a dollar a mile to go to Chicago in a Special Train, but only a few cents a mile on the Empire State Express. The same is true of the RECORD AND GUIDE QUARTERLY. Each subscriber receives for Twenty Dollars a year a service that would cost him thousands of dollars.

A system of records is as necessary to a real estate broker as the "ticker" to a stock broker. Conceivably a man might get along without either, but he would suffer immensely both in person and estate.

By means of the RECORD AND GUIDE QUARTERLY, which occupies only a few square inches on a shelf or a desk, the real estate man is put in possession of a system of records in which he could find any particular transaction, be it conveyance, mortgage, auction sale or lease, as easily as he can find the name of one of his clients in the telephone book. It is permanent in form, ever ready and available. It does not go "out" like the office boy, or make mistakes like the stenographer.

The annual number of the RECORD AND GUIDE QUARTERLY contains ALL the legal records for the past year concerning real estate and projected buildings, arranged alphabetically and numerically, with invaluable annotations.

These are supplemented by tables of important transactions, with typical prices, covering the past quarter of a century or more, accompanied by expert comments.

JUDGMENTS

In these lists of Judgments the names alpha-  
betically arranged and which are first on each  
line, are those of the judgment debtor. The let-  
ter (D) means judgment for deficiency. (\*)  
means not summoned. (f) signifies that the first  
name is fictitious, real name being unknown.  
Judgments entered during the week and satisfied  
before day of publication, do not appear in this  
column, but in list of Satisfied Judgments.  
The Judgments filed against corporations, etc.,  
will be found at the end of the list.

MAYOR McCLELLAN has undoubtedly "scored" not only with his friends but also with a great number of his critics by the excellent letter that he addressed to the City Club relating to the Elsberg bill. It is a long time since any official in the Mayor's position has spoken so clearly and courageously upon a matter of high public importance. A person must be strangely biased who does not frankly acknowledge that no mere politician could have penned that document. It strikes very boldly at a certain trend of our municipal affairs apparently quite popular at the present moment. This trend is popular largely because it is to-day almost entirely an affair of promises, and these promises are just now being shrieked into the popular ear by a parade of blatant demagogues. Municipal ownership is a serious matter. It merits every sort of careful consideration, but to make a popular tune of it and then play it on a political hand-organ is not the proper method of securing for the principle involved any sort of careful consideration. We doubt not that municipal ownership has to be reckoned with much in the future, but no man of sane sense is at all likely to take the doctrine from the mouth of persons like Hearst. Methods and motives of his sort would almost damn the ten commandments. No one can take seriously a propaganda of brass bands and rant. Municipal ownership is in the main an economic question. In speaking common sense to the city at large, the Mayor has distinctly befriended the cause which just now suffers more at the hands of its friends, so-called, than it is ever likely to suffer from the acts of its enemies. Mayor McClellan can well afford to let his opponents play to the galleries so long as he addresses the common-sense of the community so directly as he did in his letter to the City Club.

THERE is something of irony in the fact that the architect who has been most opposed to the extremely tall skyscraper should be called upon professionally to design an office building that outtops even the Washington Monument. The architect of the new Singer Building is in that position, but even those who have most admired his undoubted artistic ability and have sympathized in the past with his moderate views will not charge him with inconsistency. It is not the business of the architect to limit his problems, but to meet them, and the demand for higher and higher structures in this city is not the result of conditions that are at all to be controlled by professional ideas or practice. The jump that is to be made in the case of the Singer Building, however, is almost a leap out of sight, and it distinctly marks a new era in the history of the skyscraper. Many plans have been talked of in the past for the erection of extremely high buildings. They were paper plans, however. The new Singer Building is of another category. The firm that proposes to erect the building is financially "capable," and the architect who has planned it possesses all the skill necessary for the task he has undertaken. The successful completion of the structure is sure to provoke emulation, and the question naturally arises—whether a city of Babel towers will be in all respects a sanitary and habitable living place? Buildings of such magnitude involve unparalleled concentration

of population, and obviously concentration begets very serious problems. Transportation is one of these. The disposal of sewage is another. The provision for sufficient air and light are others. Clearly, if we are to greatly increase the height of our buildings, the municipality should take steps to meet the problems inherent in the new conditions that will prevail. European theory and practice are dead against the results which our architects and builders are producing. It doesn't follow, of course, that Europe is right. The question has two sides and should be approached scientifically. A vast number of our people live and work to-day in buildings from which sunlight is almost completely excluded. Is the electric light a healthy substitute for the solar rays? From time to time warnings have been given that our sewer system is becoming inadequate for the service imposed upon it. The Rapid Transit problem in spite of the Subway is again reaching an acute state. Pneumonia and consumption are claiming an increasing number of victims. Clearly, there are many matters that deserve serious consideration. It is foolish to stare approaching facts in the face and sit inactive.

## The Financial Outlook.

WHILE the money situation is not as satisfactory as could be wished—mainly for technical reasons—or in homely phrase, because there is not enough money to go round—prosperity generally prevails, and there is every prospect of its continuance. Real estate is naturally favorably affected and the year 1906 in that business promises to be unprecedented in its numerous transactions and its appreciation in values. Wall Street, which is the real business pulse of the country, may be said for the moment to be "suffering a recovery" and the immediate outlook must be characterized as reassuring. While prices are higher than in 1904, they are still in the main much lower than in 1901. It seems not widely understood, and many people may be surprised to learn, that about three out of four stocks are lower than they were last spring and summer. The popular notion is that we have had an unreasonable boom in the past six months which it will be seen is fallacious.

This impression of an inordinate advance has arisen from the fact that several groups of securities have risen greatly during the last winter, notably the metal stocks and the Hill issues—and sympathetically Union Pacific. As a matter of fact the remainder of the list has been selling for much less than when last year's bumper crops were in doubt and when the war between Japan and Russia was still being waged with all the possibilities of a general war in which the principal and most powerful of the great commercial nations of the world would be involved. It is not, therefore, unreasonable to suppose that the prices attained a year ago and which were not then considered high with the then earnings and other favorable conditions may very well be reached again or surpassed this spring with the greatly increased earnings being constantly shown and with the world at peace.

Five years ago the steel production of this country was only about fifteen million tons, and then the United States Steel Common sold above 50. This year the steel production will approximate twenty-five million tons and yet Steel Common sells a little above 40. The gross earnings of many roads have increased since 1901 about seventy per cent., and consequently the prices of shares should reflect this increase. Notwithstanding large numbers are selling for much less than five years ago.

Each man knows in his own line of business that efficient labor is so fully employed that additional help is either difficult or impossible to obtain; that every spindle, forge and furnace of the country is being worked to its utmost capacity, and that people have money to spend as they never had before. That this has been going on for a long time has certainly been manifest in the real estate field and in the construction and building trades. During the entire period it has been a matter of constant mention that there has been little public participation in Wall Street speculation, such as has hitherto accompanied all like periods in the past. The shrewdest and most conservative observers are of opinion that such participation is yet to come and that it will be followed as it always has been by greater speculation and activity in realty and building. Stock speculation invariably precedes a period of brisk advance in all departments of commercial activity, and there is no reason why such should not be the case in the immediate future. Thus the outlook in every respect is decidedly favorable.

In spite of some setbacks the stock market has shown no real sign of doubt or apprehension. With a striking absence of reckless speculation the underlying strength has manifested itself in many ways and there is repeated evidence of the absorption of good investment stocks by powerful interests.

**E**IGHTY CENTS is no doubt a "popular" price for gas, but why should gas be the only commodity on the new State-made price list? Shoes at a dollar a pair would be equally popular. Five-cent whiskey might arouse an even greater excitement, and in the building trades how much rejoicing there would be over bricks at four dollars a thousand! If a thing is good, why not have a good deal of it? It cannot possibly be that gas is the only article of popular consumption the price of which should be regulated by the State. To denounce eighty-cent gas may seem like yelling in the face of public clamor, but it isn't the price of the gas that is of so much consequence as the principle involved. Cheap gas may be obtained like anything else by a very expensive method. It is supposable that the gas company can take care of itself. The malicious tell us that if the corporation cannot put pressure upon the Legislature, it can at least put pressure upon the mains, and the end, therefore, will be about the same. The danger does not lie, however, in this direction. The obnoxious element is the demagogic and tyrannical principle that underlies the proceeding. Legislation of this sort must inevitably result in abuses of a very dangerous character. The eighty-cent gas measure is essentially punitive. It announces to the world of capital that in New York State hereafter the price of commodities may be fixed not by commercial conditions, but by legislative spleen and popular clamor. Now that this business has been commenced, who shall say where it shall be stopped? Are our Legislators any better than our corporations? Are they any more sensitive to the moral code than our corporations are to public requirements? After gas, what next? Blackmail and graft is bound to arise around the working of the arbitrary principle just put into operation in so signal and significant a manner. The public will pay the bills ultimately.

**B**UT it may be said the gas companies enjoy a franchise; therefore they should be regulated. Very good! But we hold that the proper thing to regulate is not the price of gas, but the franchise. We are playing with the wrong end of the gun. The manner in which our franchises have been bestowed in the past has been a disgrace to the community. They have been given away with a total disregard of their value. Why should the companies place any value on privileges upon which the public apparently have placed no value? The community has shown a criminal indifference to its own rights and now when things go wrong, it wants to punish "the other fellow." The courts of the land put a great deal of stress upon "contributory negligence," and surely in the case of corporations enjoying public franchises there has been much contributory negligence on the part of the community. Undoubtedly, corporations are becoming more tyrannical, but public despotism is not, we hold, the proper redress in the premises.

### The Elsberg Bill.

STATEMENT OF LAWRENCE VEILLER, SECRETARY OF THE CITY CLUB, WITH REGARD TO THE ATTITUDE OF THE CLUB ON THE BILL.

To the Editor of the Record and Guide:

There have been so many misstatements made as to the attitude of the City Club with regard to the Elsberg Rapid Transit Bill that it has seemed appropriate to the officers of the club that its position should be clearly and definitely stated.

The club last year favored the so-called Elsberg Rapid Transit Bill as it was then introduced. It did so because it understood that the bill was a permissive measure only, and that it permitted the Rapid Transit Commission to let separately contracts for the construction and operation of future subways or in any other way that the public interests might require. This year, however, upon a more careful examination of the measure, in the light of statements made as to its purpose, it developed that there was grave doubt as to whether the Elsberg bill in the form in which it was introduced this year and last year was a permissive or a mandatory measure. Eminent counsel have declared that it is a mandatory bill, while equally prominent lawyers have declared that the bill is permissive. It seemed to the trustees of the City Club that the subject was of such great importance that no legislation should be passed which left it in doubt, and that the purpose and effect of the bill should be stated in clear, unequivocal language whose meaning could not be misinterpreted. For that reason the trustees of the club have given their approval to a bill which was originally drawn by Mr. Fred W. Hinrichs, the chairman of the Citizens' Union Franchise Committee, in cooperation with Mr. George L. Rives, one of the counsel to the Rapid Transit Commission, and which bill had the approval, as late as Feb. 5, of this year, of Mr. Hinrichs, Mr. Huntington and Mr. R. Fulton Cutting, of the Citizens' Union, and also the approval of a special sub-committee of the City Club, consisting of Mr. Chase Mellen, Mr. Albert S.

Bard, Mr. James R. Burnet, Mr. William C. Redfield and Mr. Lawrence Veiller. This bill was drawn as a substitute for the Elsberg bill and for the sole purpose of making it perfectly clear and apparent that the power to separate contracts for construction and operation was permissive and not mandatory.

The bill, however, differed in substance from the Elsberg bill in the fact that the maximum term for which a new franchise should be granted was nearly fifty years, the present term, instead of twenty years, as proposed by the Elsberg measure. This provision also was agreed to by the special committee of the Citizens' Union and the City Club. The amendments to sections 32 and 32a of the Rapid Transit Act which deal with the grants of franchises in perpetuity to what may be called "extra-urban" and existing elevated systems, and which were contained in the Elsberg bill were omitted from the substitute bill solely for the reason that the trustees of the City Club had not, at that time, been able to determine their policy and attitude with regard to these sections having the matter still under consideration at the time when the substitute bill was agreed to. They have recently reached a determination with regard to these provisions and legislation is now being drawn on behalf of the club to carry out the trustees' ideas with regard to these sections so as to protect the city's interests from the granting of perpetual franchises.

The charge that the City Club is urging the granting of any special privileges or concessions to the so-called merger of the Interborough or Ryan interests is untrue; that it is connected in any way with these interests, has affiliations with them or has special regard for them is equally untrue. On the contrary, the City Club has within one month protested in the public prints to the Mayor of the city in the strongest possible language against the action of the Interborough Company in constructing the so-called Steinway tunnel, and also a third track on the 3d av elevated road, and has forced the city authorities to take legal action looking toward the prevention of the continuance of this work. The attempts that have been made by some irresponsible persons in the community who have their own interests to serve, in trying to confuse the present issue and make the City Club appear to be advocating the interests of the traction merger, needs no further comment.

What the City Club is seeking to accomplish is to make absolutely clear and plain, in whatever rapid transit legislation is passed at this session, that the powers of the Rapid Transit Commission with regard to the letting of contracts shall be permissive and not mandatory; that the principle of home rule shall be observed, and that the hands of the local authorities shall not be tied so that they cannot make the best terms for the city's interests. The provisions in the so-called substitute bill relating to the length of term of the contracts are not ones which the trustees of the club are especially solicitous about. They are, however, determined that so far as the club is concerned, it will advocate, and with all its power, the enactment of legislation which will give the local authorities the power to separate contracts for construction and operation and, if necessary, to municipally operate the road themselves, and that such power shall be stated in language about whose meaning there can be no doubt.

Statements have been made in some of the newspapers to the effect that the city club is divided and that there is a great dissension in that body because of the action taken by its board of trustees in this matter. Such statements are absolutely without basis. It would be odd if there were not some degree of difference of individual opinion in a body so large, but, so far as I know, up to the present time but two of the club's 1,284 members have taken exception to the club's action.

The club's attitude this year with regard to the Elsberg Rapid Transit bill is in no sense different from its attitude of last year. It advocated the measure then solely because it understood that it was permissive; it is now advocating a permissive measure. It has no interest in pushing its so-called substitute bill provided the Elsberg bill is amended so as to make clear that it is permissive. If it is not so amended it will oppose the Elsberg Bill through every stage of its passage until it is so amended.

### His Signature Unauthorized.

To the Editor of the Record and Guide:

I notice in your issue of to-day a communication in regard to 3-family 3-sty houses, apparently signed by Thomas Graham and others, and to which my name is also appended in a somewhat florid style. I desire to say that the use of my signature is entirely unauthorized, without my knowledge or consent, and I sincerely regret that the Record and Guide did not take the precaution of first obtaining confirmation from me direct. I request that you will give this disavowal the same publicity that you have to the original notice.

### Obituary.

Samuel Thomas, founder of the Thomas Iron Co., of 95 Liberty st, New York, died at his home in Catasauqua, Pa. Mr. Thomas was born in Ynescedwyn, South Wales, on March 13, 1827. From 1864 to 1887 he was president of the company, resigning then to become a director. He is survived by a widow, a son and a daughter.

## Eastward, the Course of Empire.

### QUEENS BOROUGH NOW THE BOOM SECTION OF THE GREAT CITY—SOME OF THE BIG INVESTORS.

**H**ERETOFORE the principal direction of real estate expansion has been toward the north. But as growth in population, and consequently of real estate interests, in Greater New York, is always along the line of least resistance, and as that line depends in part on quick transit and in part on inviting and economical living accommodations, it would seem that a change in the principal direction of this movement is about to be made. A remarkable number of operating syndicates, holding to this opinion, are acting upon it. The case is like this: Five new routes for quick travel are being built eastward, three westward and only one northward. Or, in other words, there are eight times as many roads being built to facilitate movement east and west as are being built to encourage the northward movement.

Of the five routes to the eastward now under construction, three are going to Queens Borough, namely, the Pennsylvania tunnel lines, the Belmont tunnel lines and the Blackwell's Island Bridge. In addition to these a municipal tunnel is planned to be built through Thirty-fourth street (Manhattan) to Queens Borough, and also a municipal tunnel under Fifty-ninth street, from Eleventh avenue, Manhattan, to Woodside in Queens. The only new route of rapid transit now under construction to the north is the Kingsbridge extension of the Subway. Whatever may be the deficiencies in the means of getting to Queens in the present, it is evident that they will be ample and expeditious in due time.

High expectations are entertained in some quarters for the future of Queens, which may not all be realized; but confining attention to the things of the present, it is plain from the records that it is now the "boom" section of the city, and is certain to receive this summer great attention from home-seekers. The syndicates and individual capitalists who anticipate the completion of transportation improvements and invest in advance of the masses are already thick in Queens.

Within five years it is estimated that twenty-five million dollars have been invested in undeveloped real estate in Queens and sections of Nassau county adjacent. According to local report, there are two groups of investors who together have investments now appraised at five millions. The first is stated to be a syndicate composed of officers of the Pennsylvania Railroad and their friends, who began investing here before the Pennsylvania Railroad secured control of the Long Island road. This syndicate holds nearly 2,000 acres along the line of the old Stewart road in the former town of Flushing, at Queens and Creedmoor, along the Rocky Hill road and at Floral Park. They will spend hundreds of thousands of dollars in improving the land, and will also profit largely by the reconstruction of the old Stewart railroad, which is one of the certainties of the future. The second syndicate of capitalists is that headed by Stuart Hirschman, formerly an officer of a large Manhattan realty and building company, who, with his associates, sees more quick money in Queens than elsewhere at present, and they have invested in over 2,000 acres in Long Island City, Corona, Flushing, Bayside, Great Neck and St. Albans.

The largest individual holder of Long Island real estate is L. J. Busby, a member of the New York Produce Exchange. He began investing on Long Island before the tide set in, and now has holdings representing more than \$1,000,000. He owns land in Flushing, along the old Stewart railroad, and at Creedmoor. Henry Morgenthau, who made a fortune in Bronx real estate, has recently purchased over 500 lots at Flushing. Frank Tilford, of the New Amsterdam Bank of Manhattan, owns over \$500,000 worth of land near Flushing. Joseph Cassidy, the former Borough President of Queens, has heavily invested at Flushing, in Long Island City and in the Rockaways. He is also in several syndicates that hold land in Long Island City and Jamaica.

J. Calvin McKnight, the private secretary of ex-Governor Odell, is at the head of the McKnight Realty Company, which owns about eight hundred lots at Bayside, on Crocheron avenue, and on the shores of Little Neck Bay, near Willets Point. Mr. McKnight and those interested with him recently organized the Lawrence Manor Company, which is to develop about five hundred and sixty lots formerly belonging to the Lawrence estate at Bayside. The Queenborough Development Company is composed of up-State politicians who have for several years been holding valuable tracts about Jamaica. In this syndicate are Congressman James S. Sherman, former State Comptroller Roberts, ex-Governor Frank S. Black, William M. Griffiths and others.

Woodside, a village just outside of Long Island City, and where several new lines of transit will converge, has seen some remarkable operations. The Woodside Heights Land Corporation, headed by the firm of Paris & MacDougall, have acquired about fourteen hundred lots, comprising the Sherwood, Stevens, Fetterer, and Rapelyea farms. Beyond the holdings of the Woodside Heights Land Corporation are those of Judge Dugro and the Bankers' Land and Mortgage Company. The latter company bought from Paris & MacDougall the Wurshung farm at Winfield, consisting of twenty-four acres and subdivided it

into lots. Adjoining the Winfield property on the east the same corporation has bought from Paris & MacDougall seventy-five acres known as the Penfold property, which it intends developing as a high-class residential section to be called Colonial Heights. These three holdings have absorbed all of the acreage property lying between Long Island City and Elmhurst that is available to transportation. Elmhurst is a beautiful suburb laid out by the Cord Meyer Company several years ago, and several capitalists and syndicates have invested in the vicinity. Southward in the Whitepot section the Cord Meyer interests have about five hundred acres to place on the market.

## Water Meters Might Cause Friction.

Alfred R. Conkling, President of the Realty League, being asked for his views concerning the proposed ordinance to authorize the Commissioner of Water, Gas and Electricity, in his discretion, to order property owners to install water meters in private dwellings, department houses and tenement houses, Mr. Conkling said:

"At a special meeting of the Realty League called to oppose this proposed ordinance, I was authorized to object strenuously to giving the commissioner any discretion concerning the installation of water meters. The ordinance, if passed, should be mandatory. There are about eight styles of water meters in use, and under the recent amendment of the City Charter, competition would be necessary among the various manufacturers, and it would be illegal for any one dealer in water meters to persuade the Commissioner to recommend one particular meter at a fancy price. Water meters in dwelling houses are, I think, satisfactory in small towns where the rates are low, and there are few, if any, bath-tubs or laundry-tubs in those houses. But in a large city like New York the use of water meters would be unsanitary. Citizens would economize too much in the use of water; and the laundry establishments might use the same water two or three times in washing clothing.

"Water meters would cause much friction between landlords and tenants. In apartment houses and tenement houses the landlord would raise the rents on account of the increased cost by meter. A landlord would put water meters on each floor of apartment houses and charge the tenant for the extra water used, as the tenant now pays for gas. It should be stated that tenants sometimes tamper with water meters and prevent a correct registry of the water used. It would cost millions of dollars to install water meters in private dwellings, apartments and tenements throughout the city, and would take, according to one of the engineers of the department, from three to four years.

"Inasmuch as a large majority of the people of the Borough of Manhattan live in apartment and tenement houses, the expense of water meters in them would fall upon those least able to bear the burden of increased rents, or with the water meter bills added to their present rent. The Realty League, representing property worth over two hundred million dollars, chiefly in the County of New York, and consisting of all classes of freeholders and householders, wishes to go on record as opposed to the ordinance now pending before the Board of Aldermen concerning the use of water meters in dwellings, apartments and tenement houses."

## I legislative Digest.

More than thirteen hundred bills have been introduced thus far, of which number 400 affect this city. A rough classification follows: Affecting New York City, about 400; affecting Buffalo, 35; affecting other cities, towns and villages, 120; other local and special bills, 115; amending railroad law or relating to railroads, 70; amending civil, penal and criminal codes, 100; relating to election law and corrupt practices, 35; forest, fish and game amendments, 75; constitutional amendments, 21; Escheat bills, 13; conferring jurisdiction on court of claims, 20; total, 1,004. The remaining 300 bills are appropriation bills or proposed general laws or amendments to general laws.

The excuse is frequently heard that up-State legislators are responsible for the constant legislative interference with the city. A glance at bills affecting New York City and the names of their introducers and of their political parties will show that all of the bills, except three or four of little importance, have been introduced by members from the city of all political parties. In other words, the city has its own representatives and no one else to thank for the annual tinkering with its charter and powers.

Aside from the large number of these bills, another matter is of high importance, and that is the expense they would impose upon the city. The Degroot Volunteer Firemen's payment bill, the Young bill for subway damages, the various pension bills, the bills requiring the construction of recreation piers, the bills increasing salaries and places and providing for back pay would of themselves, to name no others, impose at least \$10,000,000 additional expense upon the city.

Mr. Bernstein, Member of Assembly, has introduced a bill, No. 603, to repeal Chapter 128 of the Laws of 1901, entitled, "An act to amend the penal code, in relation to unauthorized offers for sale of and unauthorized applications for loans upon real property." The bill was referred to the Committee on Codes.

# Citizens Appeal to Governor

## To Repeal the Mortgage Tax Hearing Before Joint Committee

**T**HE Joint Committees on Taxation and Retrenchment of the Senate and Assembly of this State held in the Senate Chamber of the Capitol on Thursday, March 1, a hearing on the proposed repeal of the Mortgage Tax law. A delegation of citizens from various cities of the State was in attendance to urge the substitution of a recording tax of one-half of one per cent., with exemption from any further local taxation. Representatives were present from Buffalo, Rochester, Jamestown, Little Valley, Medina, Dunkirk, Ithaca, Oneida, Albany, Amsterdam and Syracuse.

Attending from New York in a special train were representatives of the following organizations:

The Chamber of Commerce: Represented by Clarence H. Kelsey, Clarence W. Bowen, James B. Hague. Republican County Committee: Charles H. Strong, Charles F. Bostwick, James Byrnes. The Merchants' Association: H. V. Dumont. The Allied Real Estate Interests of the State of New York: B. Aymar Sands, Alfred E. Marling, Lawrence Veiller, Allan Robinson. The Board of Aldermen of the City of New York: B. W. B. Brown, Reginald S. Doull, Jacob Bartscherer. New York Maritime Exchange: C. B. Parsons, president. United Real Estate Owners' Association: James L. Conway, H. A. C. Anderson. Real Estate Board of Brokers: Francis E. Ward, David A. Clarkson. Architectural League: T. W. Aiken, James E. Ware. New York Tax Reform Association: Lawson Purdy. Fourth, Sixth and Fourteenth Wards Real Estate Association: D. Gausea. Builders' Mutual Protective Association: Jacob M. Wimpie. West Side Real Estate Dealers' Association: A. J. Haffner. Washington Heights Taxpayers' Association: William Seligsberg. Tenth, Eleventh and Seventh Wards Taxpayers' Association: Charles Lutz. Twenty-third Ward Property Owners' Association: Charles Baxter. Flatbush Taxpayers' Association: Robert B. Austin. West Side Taxpayers' Association: Frank Demuth. Real Estate Owners' Protective Association of the Twelfth and Twenty-second Wards: Ira J. Ettinger. Builders' Association of Brooklyn: Frederick W. Rowe. House and Real Estate Association: John Kehlaszar. Central Brooklyn Transit League: H. D. Wilson. Queens County Board of Trade: Lucien Knapp. Plasterers' Association of Brooklyn: John Kilcourse. Dyckman Taxpayers' Association: Minutrn Post Collins. City Investing Company: Robert E. Dowling. Fort Amsterdam Realty Company: Mark G. Holstein. Building Trades Club: S. M. Randall. Hungarian Republican Club: Ira I. Dittler. Stuyvesant Heights Republican Club: E. H. Bishop.

Immediately upon their arrival at Albany the delegates were received by Governor Higgins in the Executive Chamber, where Mr. Lawrence Veiller, vice-president of the Allied Real Estate Interests, acting as spokesman, presented the respects of the delegation to the State's executive, and urged his favorable consideration of the bill repealing the Mortgage Tax law when it should come to him for approval.

Replying to Mr. Veiller, Mr. Higgins said in part: "While I am pleased to have citizens come to the Executive Chamber to express their views on matters of pending legislation, I have neither the authority nor the desire to dictate to the Legislature what measures it shall send to me for my approval or to communicate with it except by message. If I were a political boss I might take your views at this time for the purpose of determining whether or not I should issue orders to carry them into effect; but as a constitutional officer I shall ask you to defer argument until some bill comes before me for official action on my part. . . . If any amendment to the tax law reaches me, I can assure you that it will have my open and unprejudiced consideration."

Mr. Veiller opened the hearing at about 2.30 o'clock. He described the Allied Interests as composed of real estate men, money lenders, borrowers and property owners, and emphatically denied that it was a body of tax-dodgers, a class he strongly denounced. After designating the borrower as the one on whom the burden fell, instead of the lender, as intended by the Legislature, and calling attention to the fact that building operations had been checked and the interest rate on mortgages had gone up as a result of this law, Mr. Veiller said:

"While undoubtedly the majority of our members and the majority of the persons whose interests are represented believe that there should be no tax whatever on mortgages, we appreciate the necessity which exists on the part of the State of finding sources of revenue for the support of government, and we appreciate that the responsibility for finding this revenue rests on the Legislature. For these reasons we appear before you to-day to urge the 'perfecting of the present law' as recommended by Governor Higgins in his annual message, along the

lines of requiring a recording tax of one-half of one per cent. on all mortgages recorded in the State, with exemption from all other local taxation. We know that such a tax will furnish all the revenue which the State needs—more than it needs at the present time. We believe that such a tax may be regarded, not improperly, as a fee charged by the State for affording to certain interests special guarantee or protection with regard to their mortgages. We know that the interests which are to-day in hostile opposition to the present law will be satisfied with such a change. We know that if such change is made the rate of interest on mortgage loans will be decreased by one-half of one per cent. back to the rate which prevailed prior to July 1, 1905. We know that if such change is made there will be a vast increase in building operations."

Hon. Wm. N. Cohen, ex-Judge of the Supreme Court of the State of New York, in a most able speech condemned all the existing tax measures and suggested that a commission be appointed to review the whole subject and devise a proper and just system. Speaking specifically of the Mortgage Tax law, ex-Judge Cohen said:

"Laying aside the question as to whether the lender or the borrower or the tenant pays the tax, there can be no question that the tax comes out of the land. That more of the expense of government should be squeezed out of the land than is now yielded is palpably unjust. This process is inequitable and breeds a spirit of discontent. It is shocking to a sense of fair play that a citizen who is conservative and puts his earnings in real estate already excessively taxed should be taxed further, while the man who is less cautious and puts his savings into personality, often with an eye to escaping taxation, should succeed in that contemptible effort.

"As long as public conscience is not educated to the fact that it is the duty of every citizen to pay his ratable share of the expense of government, so long should it be the aim of the Legislature not to make easier a means of escape to those too ready to seize upon it. The government must not lightly throw up its hands and say we cannot reach one class of property, and therefore we add unjustly to the burdens of another class that can be reached."

Mr. Lawson Purdy, of the New York Tax Reform Association, before making his remarks, passed around to the members of the committees diagrams comparing the proportions of money loaned on mortgages at five per cent. and at greater and less rates in several New York counties for the last six months of 1904 (under the old law) and for the last six months of 1905 (under the annual Mortgage Tax law). These diagrams show in a graphic way that the effect of the Mortgage Tax is to increase the interest rate, by more than the amount of the tax, over what it would be if the mortgage were exempt.

Others who added their disapproval of the present law were:

Henry W. Sprague, representing the Buffalo Chamber of Commerce and other organizations in that city, and also the Catholic Bishop of Buffalo; Charles H. Strong, chairman of the sub-committee of the New York County Republican Committee; Joseph L. Bittenweiser, of New York; Charles L. Stone, Syracuse, representing the Chamber of Commerce of Syracuse and other organizations in that city; B. W. B. Brown, representing the Board of Aldermen of New York City; Mr. Adams, of Rochester, representing the Rochester Chamber of Commerce and other organizations; A. E. Darrow, of Little Valley, representing real estate interests in that section of the State; J. P. Mericle, representing the Jamestown Business Men, the Dunkirk Board of Trade and several Granges in Chautauqua County.

Senator Lewis, of Rochester, and Assemblyman Wade, of Jamestown, were the principal inquisitors for their respective committees, and no speaker was allowed to retire without first being plied with questions from these gentlemen. Argument between the committees and the delegation rose to a high pitch several times.

The delegates came away confident that a thorough investigation of the effects of the Mortgage Tax law will result from the efforts of the allied real estate interests of the State, and that the substitution of a recording tax is inevitable, with the almost unanimous sentiment of the State in favor of it. Eventually the exemption from taxation of mortgages must come, it is believed but as a temporary compromise, a recording tax seems to fill the requirement. Besides those already mentioned as connected with prominent New York organizations, the following individuals representing chiefly borrowers, builders and tenement house owners, were present: George Ranger, Jacob Axelrod, I. M. Bernstein, Thos. W. Folsom, George Seewagen, Max Rubinger, Osias Karp, Hall Halpin, H.

C. R. Stein, M. H. Gaillard, A. J. Robinson, J. W. Conray, B. Mordecai, Frank E. Smith, G. M. Riehle, Isidor H. Kempner, R. Clarence Dorsette, Jas. D. Hague, A. B. Jawerower, Chas. Rubinger, T. B. Ackerson, L. H. Slawson, W. D. Morgan, A. W. McLaughlin, W. I. Bachrach, Geo. Eisenbach, Chas. G. Reynolds, John Wilson, Edward McGuire, William Henry Knox, John R. Foley, Robert M. ### A New Atlas of Manhattan.

Hyde's new Manhattan Atlas, complete in four volumes, is offered to real estate brokers as the best atlas of this city that has ever been published. The maps, besides giving all data contained in other publications, show also several new features not possessed by any other. In addition to the dimensions of lots and plots, the depth of all buildings is indicated; also the number of stories, of extensions as well as of the main portions of buildings. All store fronts are plainly marked, also all buildings occupied by liquor saloons. Another new feature is the indication of all buildings of modern fireproof construction. The publishers will issue all corrections monthly, and will, when desired, arrange to make the corrections in the books for a small fee. Further particulars and sample sheets can be had by sending to E. Belcher Hyde, 97 Liberty st, Brooklyn.

### Large Improvements.

The firm of J. B. King & Co. having disposed of their entire business and property to a corporation of the same name, which will have Mr. J. Berre King for its executive, have recently contracted for large and extensive improvements, such as the building of two large tug-boats, the duplicate of the late "Gypsum King," three steel barges of 5,000 tons capacity, and a concrete addition to their mills at Staten Island, 236x150 ft., five stories high, with additional calcining apparatus, making the capacity of the Staten Island plant 7,500 barrels a day, and 2,000 tons of mixed plaster. In addition to these improvements, they will erect on their property at Roslyn, on Hempstead Bay, Long Island, a complete plaster plant capable of making 2,400 tons of plaster and cement per day and 4,000 tons of mixed plaster. It will take about four years to complete the improvements. The same corporation have added about 20,000 acres of gypsum land to their already extensive gypsum holdings in Nova Scotia.

### The Bromley Co.

Statements have been made that the Bromley Company, 112-114 West 42d st, are likely to discontinue business. We are informed by the Bromley Company that this report is absolutely false and is quite without any foundation.

### Martindale's Law Directory.

The Martindale American Law Directory, giving names and addresses of lawyers all over the world, together with a mass of other valuable information, is a book that should be in the office of every lawyer and mercantile concern having occasion to do business with attorneys in cities other than their own. It is a book of over 1,000 pages, and in addition to its directory feature has many other valuable things.

# THE REALM OF BUILDING

## Proposed Singer Tower Building.

No contracts have yet been awarded for the construction of the new Singer skyscraper, at the northwest corner of Broadway and Liberty st, of which it is said the cost of the improvements will reach a figure estimated to be a million and a half of dollars. The building world will watch with great interest who the contractor will be to erect this the highest structure of its kind in the world. As already announced in these columns, Jan. 13, the plans provide for an addition to the present structure on Broadway of 74.10½ ft., giving a total Broadway frontage of

132 ft., and a similar annex to the Bourne Building, in Liberty st, of 52 ft., a frontage of 290 ft.

The tower will be 60 ft. square for twenty-nine stories from the roof, from the curb line a total height of 593 ft. The facades of the tower will be of ornamental brick and limestone, lighted by a central bay extending from the eleventh to the thirty-sixth story, with four rows of windows on each floor, and an additional double window on either side of this bay at each story. The interior of the main building will be highly ornamental, with a wide corridor of various marbles. There will be four tower elevators. Twelve thousand tons of steel will be used in the construction. The foundations will be of reinforced concrete. Ernest Flagg, 35 Wall st, the architect, states that he believes the tower will be completed within two years.

The project was first given in these columns Dec. 28, 1901. The officers of the Singer Company are: Douglass Alexander, president; Edwin H. Bennett, vice-president; and T. E. Hardenbergh, secretary.

## Prospective Building.

The following is a list of building enterprises for Manhattan that may be expected within the year 1906. For some, plans are now under way; for others, no architects have yet been selected; and in some cases the sites have not been secured. The first name is the owner's; the second, that of the architect; the third, the contractor's; the date is the date of announcement in the Record and Guide.

## Building Operations.

### "Temple Israel" Awards Contract.

**LENOX AV.**—Temple Israel, of Harlem, Daniel P. Hays, 141 Broadway, president, has awarded to The Fleischmann Realty & Construction Co., 170 Broadway, the general contract to erect its new edifice at Lenox av, the northwest corner, and 120th st, on a plot 100x100 ft., at an estimated cost of \$150,000. Arnold W. Brunner, of 33 Union sq, is architect.

### Contracts for New Telephone Exchange.

**HOUSTON ST.**—The P. J. Carlin Construction Co., of No. 1 Madison av, has obtained the general contract, and Eidlitz & Ross, of 1123 Broadway, the structural steel work, for the 6-sty fireproof telephone exchange building, 100x100 ft. in size, which the New York Telephone Co., 15 Dey st, will build at the northeast corner of Houston and Wooster sts. No other sub-contracts have been let.

### A. R. Whitney, Jr., & Co. Get Fifth Av. Contract.

**5TH AV.**—The general contract for the erection of the store and office building at 373 5th av, 8 stories, 25x100, for Joseph Fahys & Co., 54 Maiden lane, has just been awarded to A. R. Whitney, Jr., & Co., of 135 Broadway. The architects, Messrs. Hunt & Hunt, of No. 28 East 21st st, are preparing plans for the building, and the general contractors will probably commence demolishing the old building some time in March.

### Plans for a \$300,000 Stable.

**40TH ST.**—Messrs Radcliffe & Kelley, 3 West 29th st, have been selected as architects to prepare plans for a large stable building, to be of reinforced concrete construction, 8 stories in height, and cover a plot 100x125 ft. at No. 254 West 40th st. The estimated cost will be in the neighborhood of \$300,000. The New York Cab Co. will be the owners. No contracts have been let as yet. James Heffernan is the company's manager and has charge of the work.

### B. Altman & Co. to Build 5-Sty. Stable.

**36TH-37TH STS.**—Messrs Trowbridge & Livingston, 425 5th av, have been commissioned to design plans and specifications for a large fireproof stable building for the dry goods firm of B. Altman & Co., 6th av and 19th st, to be situated at Nos. 207 to 213 East 36th st, running through to 37th st. The building will contain five stories, and measure 100x100 ft. in size. All the very latest and improved stable equipment will be installed. No figures have yet been taken on the work.

### Large Bronx Improvement.

**BROOK AV.**—Plans are being prepared by James S. Maher, 1267 Broadway, for a row of market buildings, 259.6x233, at the northwest corner of Brook av and Rose st, in the Bronx, which are to be occupied by the wholesale meat houses now located on Westchester av. The centre of the block is to be occupied by a modern refrigerating plant and the buildings are to be of brick with concrete floors, large iron awnings, gravel roofs, electric lighting, steam heat, etc. The estimated cost is about \$325,000. Plans will be ready for estimates from sub-contractors in about two weeks.

### Particulars of McAdoo's Terminal Building Up-Town.

**6TH AV.**—The Record and Guide is informed that the Hudson and Manhattan Railroad Company, of which W. G. McAdoo, 113 Broadway, is president, will construct a terminal and office building, 15 stories in height, to measure 250x300 ft in size, at 6th av, 32d and 33d sts. Much speculation as to the height and just what kind of a terminal building would actually be built, since the project was first made public, can now be ended by a definite statement of particulars. The exterior will be of limestone and light brick. The upper stories will be equipped for offices. No contracts have yet been awarded. So little of reliable character has become public concerning prices in connection with the railroad buying in this block, that it has been difficult to form any adequate idea of the advances which have taken place within the last five years or of its present level of values. "Al" Adams is said to have received \$750,000 from the New York and Jersey Railroad for his property running through from Nos. 110 to 114 West 33d st to Nos. 117 to 123 West 32d st, in all six lots, at the rate of \$125,000 per lot; and it is a matter of some interest to know that the purchase last March by the Pennsylvania of the Smith properties

at Nos. 130 to 134½ West 33d st was made at the rate of \$112,000 a lot. This plot, which measures 75x82 ft, or about 2½ lots, was sold for \$278,500. Speculative interest in these blocks between Broadway and 7th av has already afforded some idea of what professional operators regard as their ultimate importance.

### Apartments, Flats and Tenements.

**40TH ST.**—Alexander Rosenberg, 235 East 60th st, will build at Nos. 219-223 East 40th st two 5-sty 23 family flats, 37.6x85, to cost \$70,000. Samuel Sass, 23 Park row, is architect.

**108TH ST.**—Seigler & Cohen, 349 Grand st, will build on the north side of 108th st, 95 ft. east of Manhattan av, two 6-sty flat buildings, 50x25x87.11, to cost \$85,000. Geo. Fred Pelham, 503 5th av, is architect.

**LENOX AV.**—Samuel Sass, 23 Park row, is making plans for two 6-sty flats, 49.11x87 and 50x90, for Meyer Frank, 19-21 West 115th st, to be erected at the northeast corner of Lenox av and 141st st, to cost \$110,000.

**7TH AV.**—On the southeast corner of 7th av and 129th st Greenbaum & Werner, 151 East 71st st, will erect a 6-sty 22-family apartment house, 75x86.11, to cost \$100,000. L. A. Goldstone, 110 West 34th st, is planning.

### Dwellings.

**5TH AV.**—Welch, Smith & Provot, 11 East 42d st, are preparing plans for a 5-sty residence, 25x100, for W. W. Hall, 159 East 38th st, to be erected at No. 1046 5th av. Estimated cost, \$100,000.

### Mercantile.

**125TH ST.**—Brill Bros., of 44 East 14th st, are reported to have purchased Nos. 216 to 220 West 125th st, running through to 209 and 217 West 124th st, on which they will erect a mercantile building for their own occupancy. Robert T. Lyons, 31 Union sq, has been architect for the firm in previous operations. No contract let.

### Alterations.

**7TH AV.**—Walter J. Salomon, 500 5th av, will make extensive alterations at the southwest corner of 7th av and 34th st.

**3D ST.**—M. Zipkes, 147 4th av, is making plans for \$7,500 worth of alterations to Nos. 212 and 216 East 3d st for St. John's Baptist Church, 3 Gramercy pl.

**10TH ST.**—Oscar Lowinson, 18 West 42d st, is making plans for alterations to No. 210 East 10th st for S. Baruch, on premises. Cost, \$5,000. No contract let.

**20TH ST.**—C. P. H. Gilbert, 1123 Broadway, has plans ready for extensive alterations to the 4-sty dwelling, No. 430 West 20th st, for G. W. Taber, on premises. No contract let.

**31ST.**—The Irving Improvement Co., 314 Madison av, will make \$15,000 worth of alterations to Nos. 119-121 East 31st st. Robins & Oakman, 27 East 22d st, are architects. No awards have been made.

**RIVERSIDE DRIVE.**—No contracts have yet been let for building a 1-sty extension, 25x58, new stairs, etc., to the 4-sty residence of Isaac L. Rice, at the southeast corner of Riverside Drive and 89th st; estimated cost, \$25,000. Messrs Herts & Tallant, 32 East 20th st, are the architects.

### Miscellaneous.

Wilson Potter, 1 and 3 Union sq, N. Y., is taking bids on general contract for the 4-sty school building at Cooperstown, N. Y. Bids will be opened March 15.

Van Vleck & Goldsmith, 111 5th av, are taking figures on separate contracts for a 2½-sty residence, 50x70, for S. Hirsh, 346 Broadway, to be erected at Montclair, N. J.

M. Houman, Central Building, Paterson, N. J., is taking figures on the general contract for a 4-sty plant, 45x200, to be erected at College Point, L. I., for the American Rubber Co., 9 Mercer st, Manhattan.

J. T. Rowland, Jr., and Frank Eurich, 15 Exchange pl, Jersey City, are preparing plans for a 4-sty fireproof warehouse, 100x100, to be erected on Railroad av, near Grove st, Jersey City, for J. W. Greene, 316 Grove st, that city. No contracts awarded.

**NEWARK, N. J.**—Hurd & Sutton, architects, Newark, will take figures soon for the erection of a school house on Parker st, three stories, 75x160.

**TRENTON, N. J.**—Harry A. Hill, architect, Trenton, is preparing plans for a 3-sty brick, stone and terra cotta school building on Tyler st, 158x124. Cost about \$100,000.

**WOODSTOWN, N. J.**—The board of freeholders of Salem County will have plans drawn shortly for an insane asylum at this place. Brick, stone and steel, fireproof, costing \$75,000.

The Mercer Construction Co., Perth Amboy, N. J., has received the general contract to build for the Citizens Electric Light, Heat & Power Co. a new power house at the northeast

**T**HIS illustrates the Power House of the Metropolitan Railway Company, at 96th Street and East River, New York City. It is considered, both from architectural and mechanical standpoints, one of the best examples of its class of building in this country. Among the several highly commendable features of this structure, the Ar-

chitectural Iron Work, including window frames and sashes, stairs, railings, etc., all manufactured and installed by the **Hecla Iron Works**, stands out boldly as a master specimen of mechanical handiwork.

**The Hecla Iron Works are recognized as the first and foremost concern in the manufacture of Architectural Metal Work in the World. The plant is the largest and most complete, and the quality of its work is considered the standard, the world over.**

North 10th, 11th and 12th Sts., from Wythe Ave. to Berry St., Brooklyn, N. Y.

corner of Pearl and Mechanic sts, Perth Amboy. No sub-contracts have been let.

The J. W. Bishop Co., 107 Foster st, Worcester, Mass., has received the contract for the erection of a new headquarters building at the U. S. Military Academy, West Point, N. Y. The building will be of stone, and cost about \$428,000. Cram, Goodhue & Ferguson, 15 Beacon st, Boston, are architects.

#### Estimates Receivable.

Gordon, Tracy & Swartwout, 244 5th av, Manhattan, are taking figures on the general contract for the fireproof bank building, to be erected at New Haven, Conn., for the Conn. Savings Bank.

**BROADWAY.**—The Richmond Realty Co., 56 Liberty st, are ready for figures on sub-contracts for the 12-sty loft building, 40x100, which they will erect at Broadway and 12th st. Samuel Sass, 23 Park Row, is architect.

**GATES AV.**—Helmle, Huberty & Hudswell, 44 Court st, Brooklyn, are taking bids on the general contract for the bank and office building for the Eastern District Savings Bank, at Gates av, north of Broadway, Brooklyn.

**72D ST.**—Lawlor & Haase, 69 Wall st, have plans ready for adding three stories to the 1-sty stable and bakery, Nos. 532-534 East 72d st, for the Knickerbocker Bread and Yeast Co., 538 East 72d st, to cost \$20,000. No contract awarded.

**BROADWAY.**—Thom & Wilson, 1123 Broadway, are taking figures on the general contract for the 3-sty office building, 60x65, which Thomas J. Healy, northeast corner of Columbus av and 66th st, will erect at the southeast corner of Broadway and 67th st.

**CENTRAL PARK WEST.**—R. N. Anderson, 65 5th av, is

again taking estimates on the proposed Red Cross Hospital buildings at Central Park West, about 25 ft. north of 100th st. There will be two buildings, each 4 stories, so arranged that three additional stories can be added later. Chas. H. Peckworth, 415 Hudson st, has the contract for excavation and foundations.

## BUILDING NOTES

There is always one job that you should put off until tomorrow, and that is a job of spite work.

Frank Straub, architect, has opened an office at No. 10 East 14th st, and would be pleased to receive latest catalogues, samples, etc.

Isaac A. Hopper, the former head of the Building Department in Manhattan, this week sent to each employee of the Bureau a basket of "Kumquats" (Chinese oranges) from his orange grove, Orlando, Fla.

The contract for the Royal Insurance Company's building at William st and Maiden lane, involving 1,700 tons of structural steel, has been taken by Post & McCord, and the American Bridge Company will furnish the fabricated steel.

The Babcock & Wilcox Company and the Stirling Consolidated Boiler Company, the two largest boiler manufacturers in the country, which have been keen competitors, have practically closed a deal to consolidate. Both companies make water-tube boilers.

Lampert & Horn, dealers in second-hand building materials, have removed their yards to the foot of East 107th st. They

## REAL ESTATE NOTES

Dessauer & Werdenschlag have removed their office to 200 Broadway.

T. Scott & Son were the brokers in the recent transaction at 111 East 91st st.

Charles Gulden is the buyer of 123 East 95th st, sold recently through John J. Kavanagh.

The purchaser of No. 249 West 38th st, recently reported as sold by S. B. Goodale & Son, is Milton E. Oppenheimer.

Next Monday evening the West End Association will meet at the Hotel St. Andrew (Broadway and 72d st) in monthly session.

J. Sterling Drake has opened a real estate office at 11 Broadway, New York, and another at Jewett av and Boulevard, West New Brighton, Staten Island.

J. Arthur Fischer has sold for Vittorio Bernardi his residence and grounds, situated at the corner of Chestnut Hill av and Orawampum st, White Plains, N. Y.

George W. Korn, who for some time has been connected with the Moss Realty Co., is now engaged in the real estate business for himself at 5 and 7 East 42d st.

John L. Parish, auctioneer, will sell at the Exchange Salesroom, 14 and 16 Vesey st, on March 15, at noon, eight choice lots and plots, situated on the upper west side, all of them being near subway stations of the Broadway line.

Eli C. C. Pescia has retired from the real estate and insurance firm of E. V. C. Pescia & Co., 188 Broome st, and a new partnership has been formed, with three members—Baron Emmanuele V. C. Pescia, David Rapp and Maier Isear—who will carry on the business as heretofore. David Rapp and Maier Isear are the well-known downtown real estate and mortgage brokers. The offices of the new firm will be at No. 206 Broadway, corner Fulton st, "Evening Post" building. On and after March 1, 1906, Baron Crovara-Pescia will attend strictly to the Italian clientele.

Mr. Meyer, the lessee of the Vesey st Salesroom for real estate auctions, has sold his interest to William F. Redmond, of Adrian H. Muller & Co., who will take possession on May 1st. The Real Estate Auctioneers' Association, of which both Mr. Redmond and Mr. Meyer are members, will continue to use the premises. The association was organized in 1891 by Jere Johnston, Jr., Adrian H. Muller, Morris Wilkins and Peter F. Meyer, the last named assuming the lease of the premises in Pine st,

adjoining the Sub-Treasury, that were first occupied by the new body. A year later the Salesroom was moved to 111 Broadway, and in 1905 it came to Vesey st.

Luis W. Mooney, of Mooney & Lawrence, has just purchased the membership of the late Louis Mesier in the Real Estate Auctioneers' Association. Mr. Mesier was the senior member of the firm of Adrian H. Muller & Son, and was one of the charter members of the association. There are only twenty-five memberships in the association, and one of these was bought in by the association itself, in order to reduce the membership. Mr. Mesier's seat was the only one that could be purchased at any price. The figure at which the membership changed hands was not stated.

**MORTGAGES**

NOTE—The arrangement of this list is as follows: The first name  
is that of the mortgagor, the next that of the mortgagee. The de-  
scription of the property then follows, then the date of the mort-

gage, the time for which it was given and the amount. The general  
dates used as headlines are the dates when the mortgage was handed  
into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a  
street, in these lists of mortgages, they mean that it is a Purchase  
Money Mortgage, and for fuller particulars see the list of transfers  
under the corresponding date.

The first date is the date the mortgage was drawn, the second  
the date of filing; when both dates are the same, only one is given.

Subscribers will find mortgages in this list with the wrong black  
number attached. The block number we give is taken from the in-  
strument as filed.

Mortgages against Bronx property will be found altogether at the  
foot of this list.

February 23, 24, 26, 27, 28 and March 1.

## The Private Branch Exchange System of supplying TELEPHONE SERVICE is particularly adapted to the requirements of LARGE HOTELS and APARTMENT HOUSES.

By means of a Private Branch Exchange the general telephone service, local, suburban and long distance, is available in every room and apartment. A complete interior service is also supplied, adding largely to the efficiency, and decreasing the cost of the hotel service proper. No modern Hotel or Apartment House should lack a

Building Notes.

(Continued from page 370.)

have on hand large quantities of brick, blue stone, new flooring timber, plumbing materials, iron piping, skylights, joists, etc., at prevailing prices.

Board of Estimate having decided definitely on the extension of Grand st, the widening of Roebling st, and the extension of Flatbush av, all in Brooklyn, the necessary property will be condemned immediately, and it is expected that the work of demolition will begin in June.

Unless something happens to prevent, the coming year will be exceptionally noted for large contracts. Two large building concerns whose contracts last year amounted, together, to thirty-five million dollars, expect to surpass that record this year. The lists of prospective work which have been printed in the Record and Guide recently tell the story.

Orders for structural steel, the manufacturers have decided, will be accepted for delivery up to the end of the year. Heretofore deliveries have been limited to July 1. It is prophesied

that this will be the biggest structural steel year in the history of the country, and that 400,000 tons will scarcely cover the year's total. These estimates include the Manhattan Bridge, with its 35,000 to 40,000 tons of steel, which is to be relet, and the Pennsylvania terminal, which will require about 30,000 tons.

The National Waterproofing & Cleaning Co., 42 East 23d st, New York, operating under the Farnham patents of Sand Blast Cleaning and Paraffine Waterproofing, report the following contracts closed: Sand blasting at St. Patrick's Cathedral, for M. C. Henry & Co.; sand blasting at 37 Maiden lane, for T. J. Reilly Co.; waterproofing new Audubon telephone station, for D. C. Weeks & Son; sand blasting three buildings, 40-44 West 135th st, for Philip A. Payton; waterproofing and sand blasting for New York Edison Co. at Horatio st and 121st st stations; waterproofing at United States immigrant station, Ellis Island, for the United States Government. Also similar work contracted for by Farnham, Ltd., No. 39 Victoria st, S. W. London. England: Colman's Mustard Building, Cannon st; Cook's Wholesale Warehouses, St. Paul's Church Yard; Admiralty Office Building, Horse Guards' Parade, for British Government.

PROJECTED BUILDINGS.

The first name is that of the ow'r; ar't, stands for architect; m'n for mason; c'r for carpenter, and b'r for builder.  
When character of roof is not mentioned, it is to be understood that the roof is to be of tin.

JUDGMENTS

In these lists of Judgments the names alphabetically arranged and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (\*) means not summoned. (†) signifies that the first name is fictitious, real name being unknown. Judgments entered during the week and satisfied before day of publication, do not appear in this column, but in list of Satisfied Judgments. The Judgments filed against corporations, etc., will be found at the end of the list.

THE construction of the new Pennsylvania Railroad station is making a great and radical change in the district about Thirty-fourth street and the North River. The appreciation of real estate in the vicinity is a matter of record, but the whole character of the region is undergoing a transformation. Tenement houses, decayed residences, rookeries, lumber yards, saloons, ramshackle shanties and nondescript structures of all kinds must give place to substantial buildings, some of them of an important and ornate character. The Thirty-fourth street thoroughfare must necessarily become a great highway. An indication of the future, there is the new Manhattan Opera House. The erection of the building was begun three years ago, and it is nearing completion. The structure will be devoted to grand opera at regular theatre prices. Should this fail, the house will then become the home of melodrama and spectacle. The theatre is nearly opposite the entrance to the new Pennsylvania Railway Station.

NO action, nor any action looking to action in the future, has been taken by the Architectural Profession, the Builders or the Real Estate Owners of this city in regard to the proposed revision of the Building Laws. This indifference to an important situation is scarcely wise. Our people ought to perceive that the method is almost too negligent to achieve a satisfactory result from a difficult and delicate problem. Our building laws, when newly formulated, have invariably been received in a spirit of profanity. Yet how can anyone take much stock in the lamentations of objectors who obstinately refuse to have any hand in the work of revision at the time when their influence and criticisms would be strictly in order, and might even be of some service. A piebald committee of odds and ends has the building code at present under treatment. These unfortunate persons cannot be held responsible personally for the illogical position in which they find themselves, for in accepting office they were of the opinion, no doubt, that the making of a building law for a city like New York is "easy." All it needs, according to the notion of the ordinary individual, is a little law, a bit of building construction, a dash or two of sanitary science, a word or two of medical advice and the benediction of the Tenement House Department, and—there's your perfect, thoroughly compounded Building Law. Hence the constituents of that Revision Committee! Isn't it time the persons really interested in the law came to the front—and did something?

A LEARNED professor of economics remarked the other day, "What a pity these trusts won't be half-way decent with the public! If they would only humor people a little, and not try to hog everything in sight, they could own the earth peaceably and the fullness thereof. Their present method seems to be to go for the last cent and at the same time insult and annoy the victims they are plundering." The present management of the subway illustrates the professor's remarks. The stations and the rolling plant are fixtures for which the operating company deserves no credit, but, apart from these items, how much is done and how much is left undone by the

Interborough people to make travel on the subway as disagreeable and as uncomfortable as possible? People are made to feel that the trust principle flaunts them in the face and kicks them in the rear. Accommodation is reduced to and maintained at a minimum, and the overcrowding of cars has become much more disgraceful than anything the city witnessed in the past, even on the elevated roads. The word decent, no doubt, has many meanings; but, dilute the term as much as you please, it would still be hard to apply it to anyone who can tolerate the scenes visible at certain hours at certain stations. Of course, necessity compels, and that is about the only excuse that can be made. But it ought to strike people as absurd to hear such fuss made in the newspapers over the ferocity of college football while the community tolerates the indecency and roughness of the daily subway shove. The "standing-room-only" principle is being worked by the Interborough for all it is worth. It is bound in time to make the company odious. Sooner or later, public tyranny will result from the irritation of the community, and then we shall hear a great deal of talk about injustice, the rights of capital, and the like. It is a fact that the air at times in the overcrowded cars, breathed and rebreathed as it is by three or four score of people, literally stinks; and yet there are signs in the cars forbidding spitting as a misdemeanor! It is disagreeable to talk about such things, but let the doctors tell us which is the more unwholesome.

UNLESS some evil influence intervenes to prevent, and there seems none which may not be charmed or dissolved away upon the entrance of Spring, the year 1906 should be greater in the annals and records of building construction in Manhattan, and throughout the city, than the preceding one. For all classes of work, including the largest forms as well as the smallest, the year promises to be very prolific; and particularly so in those constructions which employ the best grades of building materials, the specialized departments of production, and the services of the best mechanics. Should there be a declension in any marked degree of tenement construction—a department of activity for which the year 1905 was particularly distinguished—there will be recompense for this inequality in a considerable amount of skyscraper production, in which 1905 and the year preceding were both deficient, and also a compensation in the promised increase of municipal work, while the other usual forms of structural development would not correspond with the force and spirit of the times were they to command less attention than last year. As much work of a compulsory nature—that which springs from actual necessity in consequence of a long period of retardation—remains to be done as was offered in 1905, while the operations classified as voluntary improvements should even exceed in number and cost those carried on last year. These are the natural promises and expectations for a building season which may be said to be already opening. Even the weather is remarkably propitious, one building season having succeeded another with scarcely a line of demarcation; only a very few days throughout the whole period of winter have been unfavorable for wall building, and operations might have continued without cessation or diminution in every trade. Necessity and inclination being allied together to create business, and labor schedules being nearly all accounted for, one of the remaining contingencies is the course of prices for materials. Totals will unquestionably continue large, but, so far as can be estimated, the yearly average will not be very much higher. Full shipments of all kinds of materials, except possibly lumber, will keep quotations close to present marks even during the spring rush, and afterward we shall expect to see a level of values for fundamentals more moderate than obtains now. In every line of manufacture and production capacity is being enlarged, making certain an increased output in every field where there is free competition, and the exceptions under this head are in reality few. Cement quotations will be advanced in the spring; but the enormous domestic production, to say nothing of the imminence of foreign competition, will keep this material, notwithstanding its growing popularity, not far from the present marks. Brick, which has been an article very much discussed, and its career for two years has been sensational, will probably be characterized by quotations much more favorable to builders, at least after the new brick begin to run; and until then there is likely to be a diminishment of the amount of tenement work as compared with the spring months of last year. As to production, the net increase in the number of brick-making machines over last year is very authoritatively estimated at less than twenty in the Hudson River district, and new machines, or plants, are not expected during their first year to be half as effective as

old ones; but certain it is that the output of all the yards will be no less than last year. That lumber prices will be still higher is an easy prediction. Lumber is always higher. But with no alternative nor the expectation of any, the public has become resigned to paying whatever charge is imposed. It is argued that the larger or smaller cost of none of the fundamentals either retards or encourages buildings in New York; but we are inclined to the belief that, while the high cost of brick, or lumber, or iron alone, might not be a sufficient reason for postponing any given operation, the aggregate cost of all the materials needed for a building would, upon certain classes of construction, have that effect most decidedly.

### Money, Stocks and Wall Street.

IT is asserted by some experienced financiers that it is always well to beware of Wall Street's conclusions when there is complete unanimity. To a certain extent, there is unanimity now, namely, that the bull movement which started in March, 1904, is over, and that a dull, and therefore declining, market is ahead of us, at least for this spring and summer. It is true that the election of a new Congress in the autumn this year is almost as disquieting as a presidential election would be, as tariff revision is in the air and may become a burning question. Wall Street unanimity "lacks one vote, however," as one financier expressed it, adding that, in the opinion of many, a new bull movement was forming at this very time which might exceed the one just ending, and for cogent reasons, the first being that no wild nor dangerous speculation accompanied the recent rise. What really took place was a re-establishment of values as expressed in Stock Exchange quotations. This recovery took place with little or no public participation and help and without any appreciable increase in the loans of the Associated Banks of New York City. Indeed, they are now no greater than they were in March, 1904, when Union Pacific, for instance, was 70 and Reading under 40, other prices being equally low.

It is apparent, therefore, that the advance of the last two years has not caused any tug at the strings of credit. The great demand for money is caused by the activities outside of New York and Stock Exchange speculation. While loans have practically been stationary, bank clearings and railway earnings, the unfailing indices of human activity and movement of men and merchandise, have increased greatly, until each week's repetition has made the statistics stale by their unvarying iteration and indication of prosperity and progress.

Yet all this has taken place without the transcendent speculation which, reasoning from all past experience, should have accompanied it. It is incredible that such conditions which mark an epoch or period can come and go without results, and that when its history is written it will have to be recorded that all took place without attracting public notice to the only legalized gambling game in the world. Human nature certainly never changes, and people must surely be awakened to the fact that shares of old standard enterprises, both railroad and industrial, are selling for less than the properties they represent could now be bought for in the first instance. Take Tennessee Coal and Iron, for example. Having no larger capitalization than a quarter of a century ago, the capitalization then being considered conservative, is it not conceivable that it is better to-day to pay 150 for its shares than to try and find coal and ore lands at a price only 50 per cent. greater than twenty-five years ago? Where, indeed, could one find coal and ore lands for which one would not be forced to pay five or ten times as much as the prices that prevailed twenty-five or more years ago? About \$30,000 has been spent in ascertaining the exact quantity of coal and ore in the immense estate of the Tennessee Coal and Iron Company, and the figures are astounding—approximately 500,000,000 tons of iron ore and 1,500,000,000 tons of coal. In spite of this, Wall Street can be so dense that the shares of the Tennessee Coal and Iron Company three years ago were kicking about the street at 25 and as recently as May, 1904, at 31, in the meanwhile having sold at five times the price of May, 1904.

Now, the same lack of appreciation of true values may exist at this moment. There may be, and probably are, other sleeping T. C. & I.'s in Wall Street in the industrial world, just as there are still dormant Delaware-Lackawannas in the railway world. "Prices," said the financier referred to, "are very much below values, and he is foolish indeed who will invest in new enterprises while shares in the old ones can be bought for much less than the intrinsic value of the property they represent, to which one can add the history of earnings on one hand and the acknowledged value of a going concern on the other."

### The Mortgage Tax Situation.

IT must have become so self-evident during the operation of the new Mortgage Tax Law for the past year, to any fool or farmer voter up-State, that the borrower of money on mortgage loan always "pays the freight" that the Governor may readily save his face in signing the bill for a commuted recording tax, paid once for all by the borrower as part of the "expenses" of obtaining the loan.

Indeed, "Simple Simon" must have felt the shoe pinch by this time, and wondered at the paucity of money open to loan on mortgage on his farm during the year, or at the increased expenses suddenly developed for appraisals, commissions and the like. He may have considered the shortage of money to loan as a short crop, like corn or wheat, peculiar to the year's conditions only; but he must have gotten some hint as to the increased rate of expense being due to the new mortgage tax for which he had sighed.

We must realize that an increasing rate of interest could never occur with him to show him the change wrought by the new tax, as has been so apparent in the cities and larger towns; for he pays 6 per cent. always, tax or no tax, the price of money for country and farm loans being always at the maximum allowed by law.

At the present moment, whether from uncertainties of conditions attending the hoped-for change of the law, or from some sort of preconcert of financial powers—and a whisper to "hold hard" runs through the channels of capital like an electric current at times—very little money seems to be offering for mortgage loan, at any rate outside of the large cities. All the savings banks in one locality recently gave out that no more loans will be made at the moment. This, in connection with the long-existing withdrawal of the great life insurance companies of New York from the loaning of moneys everywhere throughout the State, as in times gone by, makes a significant item in the outlook for real estate, if conditions are not shortly settled. The savings banks of his district was the one mainstay left for the would-be borrower on country property after the withdrawal of the life insurance companies, and if that source is to likewise dry up the outlook for everyone wishing to borrow on real estate or build will become a sorry one indeed.

Long since we pointed out the folly of the Legislature in allowing first the insurance companies and later the savings banks, together the trustees of practically all the people's savings, to extend their field of investment from the ever safe and mutually helpful bond and mortgage upon real estate to the purchase instead of freshly-made stocks and bonds, ground out like grist from the ever-grinding mills of frenzied finance. What must the harvest be? And now, added to all this, has come the special mortgage tax to lay the last straw upon the over-weighted camel's back!

It is indeed time for the Legislature and the Governor to consider, and consider well. The life insurance company took one part of the annual surplus capital from each locality throughout the State, and the local savings bank took the balance, but both (as does the National Government, by re-deposit throughout the banks of the land of its overdrawing of ready money through taxes) had prevented the pinch of lack of money from becoming evident by a wise local restoration of that surplus to the channels of trade through loans back upon bond and mortgage in the various districts from which it was derived. Now all is changed, and even the individual capitalist is frightened off by a law which, say what you will, does in certain contingencies step in and confiscate by levy and sale the very bond and mortgage itself.

Small wonder that capital is withdrawing! Small wonder, too, if bad times should set in for the farmer and for the borrower of any kind upon mortgage with capital, the basis of all credit, in a state of distrust.

—One of the most remarkable features of the building operations in Chicago for the past year is the amount of apartment house or flat construction, which has been carried on on a scale of unprecedented magnitude. It had been thought that flat building in Chicago was overdone, and when in 1904 the total of the year's operations reached over \$14,000,000 compared with \$7,000,000 for 1903, it was expected by many that a slump would surely come and that the figures for 1905 would show a considerable falling off. So far, however, from that being the case, the figures show the remarkable total of nearly \$22,000,000, taking into account only building permits of \$5,000 and upwards. It is true that these figures include buildings of the combination character, containing both flats and stores, but these form only a small proportion of the total.

# Uncertain Titles of Old Roadbeds

## Principles of Law Enunciated Tending to Settle Disputed Questions— Apthorpe Lane Titles

OUR READERS are no doubt aware that there formerly existed a lane or highway extending from what is now Central Park toward Hudson River between the present Ninety-third and Ninety-fourth streets. Up to a few years ago it was possible for a person standing on Eighth avenue, now known as Central Park West, at the point where the line of the lane intersected the said avenue, to see the vacant strip indicating its course and extent, and stretching before him without interruption by any improvements. This condition was caused by the natural timidity of investors in real estate which prevented them from erecting improvements on land that was subject to hostile claims.

Toward the close of the eighteenth century, Charles Ward Apthorpe became seized of a large tract of land, which became known as "The Apthorpe Farm," and, through this farm, he laid out this lane or highway, which became variously known as "Apthorpe's Lane," the "Public Cross Road," "Jauncey's Lane," etc. He executed a mortgage covering that portion of his farm lying east of the Bloomingdale road, and this mortgage concededly covered the roadbed of the lane, which belonged to him. This mortgage was subsequently foreclosed, and the mortgaged premises were purchased by his son-in-law, Hugh Williamson, to whom the Sheriff delivered a deed, which also included the roadbed of the lane.

It appears from the original papers that, by consent of all parties, the consideration paid by Williamson, amounting to \$51,000, was directed to be paid to the administrator of Apthorpe (who had since died), to be by him paid over to the heirs of Apthorpe, after first deducting the amount due on the mortgage. The Sheriff's deed to Williamson was recorded in 1799, and appended thereto is the receipt by the Sheriff, for the consideration money paid by Williamson.

After Williamson had thus acquired ownership, the Apthorpe Farm was subdivided into lots, and various deeds were executed, in which Williamson joined, which subsequently became the foundation of a claim by the descendants of Charles Ward Apthorpe, that they were entitled to recover the possession of the roadbed of the lane. In some of these deeds by Williamson, he joined with the Apthorpe heirs upon a sale of certain of the lots to outsiders. In others he joined with the Apthorpe heirs in conveying, to individual Apthorpe heirs respectively, specific lots of the farm.

Because the Apthorpe heirs in these deeds to outsiders covenanted as to undivided interests, and because in the deeds to the Apthorpe heirs themselves there were recitals relating to a partition of the farm among them, in pursuance of an agreement to that effect, a twofold claim was made by the Apthorpe descendants: (1) either that Williamson must be presumed to have made his purchase in trust for the Apthorpe heirs, or, (2) that a conveyance from him to the Apthorpe heirs must be presumed. Assuming that either of these presumptions were allowed, the further point was claimed that the descriptions in the deeds referred to were not sufficient in law to include the roadbed of the lane, and that consequently the Apthorpe descendants were still entitled thereto. Lispenden notices were filed in various suits affecting the lane, in behalf of the Apthorpe descendants, and the fact that such claims were made, of itself raised such questions in regard to the title, that its marketability and the saleability of the real estate, included in said lane, were seriously affected. These questions have just been set at rest by the Court of Appeals, in the case of Van Winkle vs. Van Winkle, in which the decision was announced on Tuesday, March 6th, 1906, upholding the title derived through the deeds from Williamson, and rejecting the claim of the Apthorpe descendants. A brief history of this litigation may be of interest.

Edgar B. Van Winkle owned a plot of land on the northwest corner of Ninety-third street and Central Park West, extending about 250 feet on the street, by half the block in depth along the avenue, which included a portion of this old lane. He conveyed the roadbed of the lane to his two daughters, in undivided shares, reserving to himself the easements of light, air and access, which the Court of Appeals had declared would exist upon the conveyance of land abutting on highways (see *Holloway vs. Southmayd* and *Holloway vs. Delano*, 139 N. Y.) Thereupon one of the daughters instituted a suit for the partition of this portion of the roadbed of the lane, bringing in as defendants her sister, as co-tenant with her, and also the descendants of Apthorpe and the unknown descendants of Williamson, as possibly claiming an adverse interest. This suit was conducted by Messrs. Mitchell and Mitchell in behalf of the Van Winkles. The Lawyers' Title Insurance and Trust Company, being interested in the question involved, retained Mr. Henry

F. Miller, who had an expert knowledge of the title, and the legal points connected therewith, to co-operate, to the end that the title might be sustained and the question set at rest for the benefit of all concerned.

Upon the application of the Apthorpe descendants, certain issues were framed to be tried before a jury, relating to the subject of adverse possession, and to the point whether or not Williamson held or acquired his title as trustee for the Apthorpe heirs. By direction of the Court the jury rendered a verdict that Williamson was not a trustee. The action thereafter came up for trial at Special Term, where it was claimed by the Apthorpe descendants that, even if the verdict of the jury that Williamson was not a trustee, must be accepted, still that from the recitals in the deeds, in which he joined, it must be presumed that he had conveyed to the Apthorpe heirs, and that inasmuch as the deeds from him and them were claimed not to include the roadbed, it would follow that the Apthorpe descendants still retained the title to the roadbed. Ancient documents executed by Williamson were produced at the trial, in support of these claims, but Mr. Justice O'Gorman decided adversely to the claims of the Apthorpe descendants, rendering an opinion, which is reported in 39 Misc. 593.

The Apthorpe descendants appealed, but the Appellate Division affirmed the judgment of the Court below, its opinion being reported in 95 App. Div. 605. Judge O'Brien wrote a dissenting opinion, in which he, in substance, held that the descriptions in the deeds from Williamson limited the conveyances to the side of the roadway and included no part of the roadbed, but further held that this opinion would not of itself result in the conclusion that the Apthorpe descendants had title, but that that question depended upon the point whether Williamson held in his own right, or as trustees, and that the Trial Court should have permitted this question to have been decided by the jury without direction.

An appeal was thereupon taken to the Court of Appeals by the Apthorpe descendants. Mr. David B. Ogden, counsel for the Title Company, was associated as counsel upon this appeal, which was argued at the February term. The Court of Appeals has just rendered its decision sustaining the title of the Van Winkles and denying the claim of the Apthorpe descendants, thus upholding the position taken by The Lawyers' Title Company throughout on the questions involved.

This case brought under review the conveyances affecting three lots of the Apthorpe Farm, and sets at rest all questions relating to the title to the lane east of the Bloomingdale Road or Broadway. The portion of the lane which extended west of the Bloomingdale Road presents different questions, which were considered by the Court of Appeals in *Mott vs. Mott*, 68 N. Y. Confining ourselves to that portion of the lane east of Broadway, the Van Winkle case is decisive. The entire southerly half was directly involved in the deeds under review, and as to the northerly half, the principles governing the Court's decision, as to the deed of lot 6 there in question, are absolutely controlling as to the deeds of the remaining lots of the farm on the north side of the lane. The decision is of far reaching importance. Not only is the title to a large strip of land set at rest, but principles of law have been enunciated which will tend to make less uncertain questions arising as to the title of old roadbeds in the City of New York.

### Architectural Competitions.

The following opinions on competitions expressed at the recent annual convention of the American Institute of Architects by Mr. George P. Post and Mr. John M. Carrere, two of the best known architects in the city, will be of interest to readers:

Mr. Post said: "I think we must accept competition as a necessary evil, and then use our utmost exertions as individuals and as an Institute to see that competitions are properly inaugurated and conducted, and that the awards are made with fairness and propriety. Personally—and I speak with considerable experience in the matter of competitions, for I have during a rather long period of practice erected over \$50,000,000 worth of buildings, the greater part of which was gained in competition—I have not altogether a perfect reliance on the ordinary expert jury. Except in the matter of competition for a design like that of a great monument, which is purely artistic in character, the expert should always be a practicing architect or several practicing architects, who know the practical solution possible, and who can see, as the theorist cannot see, the whole problem as controlled by practical considerations."

Mr. Carrere said: "I have entered a great many competitions. I cannot tell you the exact number, but I think in my twenty-one years' of practice I have entered over forty. I have won five.

I cannot say that it has been a profitable investment. Neither do I feel that I would not have arrived at the same end without going into these competitions. \* \* \* The danger with a system of competitions for the Government work is that it establishes an official type of architecture, which would not be the case if the men would start their design without the idea of winning the prize. To particularize: I do not believe there is a successful example anywhere in the world of a monumental building in which an order is the main feature unless there are two stories. Now, the Government type requires four, five and six stories, and our architects are obliged to crowd innumerable stories into that order. But if I were invited into any such competition I would put in more than two stories, and I have myself decided that way because it seemed the best solution presented. As I look around me in this country and pick out the buildings which to me seem most successful, I do not believe that the great majority of those buildings would have won the prize in any competition."

#### The New Custom House.

The new Custom House, which is now approaching completion, is bounded by Bowling Green, Bridge st, Whitehall st and Battery Park. Many changes have taken place on the site on which this imposing building stands. In its immediate vicinity the real estate history of New York begins, and looking back nearly

hall on the main floor is 200 ft. long and 35 ft. high in the centre. There are four sets of elevators, and a branch U. S. Post Office will be located in the building. Although there are many sculptures distributed about the building, the general effect is decidedly practical, and is massive without being too prosaic. The granite used in the front walls of the structure is Penobscot. Some of the sculptures are in gray Tennessee marble. There are twelve columns in front close to the wall and the same number on both the eastern and western sides.

#### Hints to Small Investors.

A real estate expert, on being asked if small investors could with safety purchase the moderate-priced lots which are being so numerous offered in suburban districts, answered affirmatively as a general proposition, provided that the situation of the lots is in the line of development, and that the prices are not inflated. These lots should be in localities likely to be attractive in the future for residences of a good class of people, and close to improvements, such as water and sewers.

"There are some localities that should be avoided on account of character of surroundings," he added. "A well-selected lot in a good locality, at a reasonable price, is sure to increase in value. Lots on streets that will become business streets are always good investments. These grow in value each year, as

THE NEW CUSTOM HOUSE.

Cass Gilbert, Architect.

Bowling Green, New York City, N. Y.

three hundred years the progress and development are marvelous. Here not long after Hudson's discovery of Manhattan Island in 1609, Adrian Block, a fur trader, and his associates built huts for themselves. Then the United New Netherlands Co. erected here Fort Amsterdam. No one dreamt that the little wooden stockade was the commencement of a great city. What a contrast this section presents now in 1906, with its skyscrapers and the busy hum of commerce. The neighborhood teems with historic recollections. Howe and Clinton during the Revolution lived at No. 1 Broadway, then known as the Kennedy House, and it was here that Andre began his correspondence with Arnold. But why pursue the review further—the wonderful transformation is apparent.

The new Custom House is a 7-story building, with a frontage of about 200 ft. on Bowling Green and a depth of 300 ft. on Battery Park and Whitehall st. The rear is irregular on Bridge st; the south side has a length of 290 ft. In the middle of the building is a courtyard which has been made into a rotunda, oval shaped and glass covered, thus securing plenty of daylight. The rotunda is on the main floor, reached from the front by the grand staircase, and the southern facade on Bridge st rises in the centre no higher than the summit of the dome, which is built of terra cotta brick. The architect, Mr. Cass Gilbert, was chosen in a competition ordered by the Secretary of the Treasury. The supervising architect of the Treasury Department, Mr. J. Knox Taylor, has aided Mr. Gilbert in every way possible. There are six entrances to the building. The ground floor is 20 ft. in height. The matter of tides has been considered, for the basement floor is 3 ft. above high tide mark, and the cellar is of concrete and asphalt. The great

the surrounding districts improve. Suburban lots near the limits of the city are at times good purchases, but they must not be so far away from the business center in point of time as to be virtually inaccessible.

"New York City is not, like London, a constellation of business centers, each with its own atmosphere and its own residential district; but is rather one great comet of a city, with all the fire and energy of business massed at one point. It is not well for the small investor in selecting his lots to get so far away from the head of the comet that no transit line, built or building, will bring a man home from there in an hour's time. Remember, there are only twenty-four hours in a day, and no one cares to take out of his life unnecessarily much more than two hours a day and spend it in traveling. So I should advise getting within that zone, and also keeping within the city limits, unless one is content with slow developments.

"But there are other classes of investments for small investors besides lots. A small house or flat has its advantages. But the investor should not depend too much on rentals shown in making this investment. Sometimes very cheap and poorly constructed buildings will bring a large rental for awhile, but after a short time become in such poor condition that in most instances large expenditures have to be made, which add greatly to the cost of the building and reduce the percentage of income very materially. It is better to purchase a good building at a larger price and more moderate income than to select one of the other kind.

"A safe and sure investment is the small business building, especially in growing districts, because it generally brings in a

good income and has a chance of growth. This class does not always require a large cash payment, but can be bought on easy terms. It is well to get as near as possible to the great central district, where values are enhancing, so as to get the benefit of advances in the way of improvements in these localities.

"For the larger investor there is always an opportunity to purchase business property in the downtown districts, or adjacent thereto, or to pick up corners along the main east and west business streets, which will grow from year to year.

## Building Costs

Have Advanced Less in Manhattan Than Outside

**H**EMLOCK lumber has been raised to \$22 per M., base price. Ten years ago the schedule for hemlock was exactly one-half as much. One year ago it was on a \$17 base, and since the first of the year the base price has been raised by official promulgation \$2 per M. The announcement of the rise in Hemlock suggests a consideration of the changes in the cost of other materials in the course of a decade. Random cargoes of narrow spruce were obtainable for \$13 per M. in the spring of 1896, but to-day they command a minimum of \$24. White pine dressing boards sold for \$23 ten years ago, while at the present time they are quoted to dealers at a minimum of \$41.50. Yellow pine flooring sold for \$16 in 1896. Plain oak for \$35; No. 1 Whitewood (inch stock), \$30; common hard brick, \$5.50; lath, \$2; Rosendale cement, 80 cents; Atlas Portland, \$2.50. This present month typical prices are, for clear plain sawed white oak flooring, \$53, to dealers; whitewood (No. 1), \$48; common hard brick, \$11; and lath, \$5 @ \$5.50. Thus the cost of several fundamental materials, as well as hemlock, is either double what it was ten years ago, or very nearly so; and this is also true of some materials not here named.

Wages in 1896 were, for bricklayers, 50 cents per hour; for plasterers, \$4 per day; carpenters, \$3.50; plumbers, \$3.50 to \$4; painters, \$2.50 to \$3.50; and for stone setters, \$4.50. At this present time bricklayers receive 70 cents per hour, which is a 40 per cent. increase. Plasterers earn in 1906 \$5.50 per diem, which is an advance of 37.5 per cent. in ten years. Stone setters and cutters, receiving \$5 at the present time, have been raised 11 per cent. Plumbers now command \$4.50 for a day's work, which is 28 per cent. more than in 1906. Painters, \$4 to \$4.25, which is an advance of 50 to 60 per cent., and carpenters drawing \$4.40 are 28 per cent. better off than in 1906.

Therefore, for the trades here specified there has been an average increase in wages of 36 per cent. and after taking into account the shorter hours of labor in many trades it will probably be found that, apparently, the cost of the labor required for erecting a medium class Manhattan building totals about 35 per cent. more than in 1906; and in running up an elevator apartment house, which is a type which may be selected as representing an average construction, the item of labor will represent very nearly 35 per cent. of the cost of the building, exclusive of the land; and most of the remainder, but not all, will go for building material.

In the year 1903 the results of an extended investigation of the cost of labor and materials were given at length in the Record and Guide, and showed an apparent increase in the cost of construction in Greater New York in five years of 30 per cent. This final result was not arrived at entirely by arithmetical processes, for the reason that elements which can not be reckoned in figures must be taken into account. The methods of construction, for example, have changed in ten years; working forces are better organized, the work is more scientifically planned and arranged for in advance, both by the contractor and the architect, and new materials have come forward, as, for instance, Portland cement, which has made a great difference. Less wood is used and wasted, and various substitutes have taken the place of more expensive materials to a large degree. If a building were erected in precisely the same way in 1906 as in 1896, with the same materials and the same methods, and all the materials in the same quantity and bearing the same proportion to the whole, then it might be possible to figure out from labor schedules and price lists of building materials how much more it costs to build in 1906 than it did ten or twenty years ago. But the fact is that the only way to ascertain with accuracy the difference in building costs is to have access to the accounts of owners and builders showing the total sums actually paid out for construction; and, strange as it may seem to the layman, after he has investigated and figured on the higher cost of labor and materials, it will be found that the cost of constructing a building of the first class, such as a Broadway office building, is not very much greater in 1906 than in 1896. In other words, taking two Broadway office buildings of the same cubical contents, one finished ten years ago and one finished this winter, it may be found that the total footings of their cost

sheets do not differ 10 per cent. This is what the cost books show as to office and hotel construction.

The architect has been an important factor in keeping down the total cost of construction. He is a man of better training than ten years ago, and architectural design as a general result is nearer the ideal. Or, putting it in another way, the architect does not try to do so many stunts. So, while it is a fact that both labor and materials have advanced in cost, the improvements in design and in engineering practice, with the aid of new materials and more skilful mechanical service and organization, have tended to keep down the actual total cost of construction in Manhattan. Had wages and material prices remained the same, the improvements in engineering and mechanics and the incoming of new materials would have actually lessened the cost per cubic foot for construction. Outside of Manhattan, however, a different set of circumstances prevail, and two things have combined to materially increase the cost of dwellings of moderate quality, one being the better sanitation required and the other the higher cost of lumber, of which they are principally composed; so that while in Manhattan the cost of construction may not have increased more than ten per cent., in Brooklyn, the Bronx and beyond there has been an advance after making due allowance for progress of the times, as affecting public taste and municipal requirements, as well as progress in mechanics—an advance in the cost of construction conservatively estimated as heretofore about 30 per cent.

### VIEWS OF MR. HILL.

Mr. George Hill, the consulting engineer, of 33 Union sq, when asked for his experience and opinions concerning the subject, gave the following answer:

"Whether a person be architect, builder or owner, the natural answer to the question as to the relative cost of buildings to-day as compared with ten years ago, would be that they were very materially higher; but a careful consideration of the subject leads inevitably to a modification of this view. If by reason of more stringent laws the accommodations of a certain class of buildings are made more expensive, it does not necessarily follow that the cost of the building has been increased through an increase in the price of materials or the cost of labor; if the man earning from three to five thousand dollars a year demands in his dwelling two good bathrooms and steam heat where he was formerly content with a hot air furnace, one toilet and a tin bathtub, that increase is not chargeable to the increased cost of labor or materials; if by reason of insufficient renting space in a given locality the rentals per square foot for offices increase 25 per cent., and owners lavish marble, cooled distilled drinking water, and other things to attract tenants to new buildings requiring an additional outlay, that is not chargeable to the increased cost of labor and materials.

"On the other hand, in both the architecture and engineering of buildings, the last ten years has seen a vast improvement—designs are very much simpler and better, architecture is more truly the science of ornamented construction; the economical use of the materials of construction has greatly advanced, and engineering knowledge of limiting economic conditions has been greatly extended. Building problems are receiving ten times the study that they received ten years ago at the very lowest estimate, and these influences have combined to decrease the amount of material and labor required to secure given accommodations.

### COMPARISON OF ACTUAL COSTS.

"I have made a comparison of costs of a number of buildings erected ten years or more ago with similar buildings erected recently, and find that by the application of intelligent, enlightened design the building of to-day to accommodate a given number of guests, if it be a hotel, or to give a certain number of square feet of rental floor space, if it be an office or loft building, COSTS PRACTICALLY BUT LITTLE MORE than the corresponding building of ten years ago. While it is true that the wages paid to labor have materially increased in amount, it is also true that labor when unhampered by union restrictions as to the amount to be accomplished, will do enough work to make the unit cost for labor no greater than it ever was.

"In making the comparison above spoken of, I find greater differences in cost between practically exactly similar buildings (by which is meant buildings renting the same utilities for the same gross amount) than existed between similar buildings erected ten years apart, but both intelligently designed, so that it is the incumbent on the owner more to-day than ever before to choose his designer, whether it be engineer or architect, wisely."

### Personal Mention.

Clayton S. Goss, the president of firm of C. S. Goss & Co., was married on March 7 to Mrs. Edith Otis Hedge, at the home of the bride's sister, Mrs. Darcy, at East Orange, N. J. The honeymoon will be spent at Washington, D. C., and Pinehurst, N. C. Wright D. Goss, president of the Empire Brick & Supply Co., and brother of the groom, was best man at the ceremony.

# THE REALM OF BUILDING

## Prospective Building.

The following is a list continued of building enterprises for Manhattan that may be expected within the year 1906. For some, plans are now under way; for others, no architects have yet been selected; and in some cases the sites have not been secured. The first name is the owner's; the second, that of the architect; the third, the contractor's; the date is the date of announcement in the Record and Guide.

### OFFICE, STORE AND LOFT BUILDINGS.

- 6th av, 32d and 33d sts—15-sty terminal station and office building; The Hudson and Manhattan R R Co, W G McAdoo, 113 Broadway, president; no contract let. See issue Mar 3, 1906.

### \$800,000 Building Loan.

The Metropolitan Life Insurance Company has loaned to the Lenox Realty Company, of which Julian T. Saxe is president, \$800,000 on the property situated on the northwest corner of Central Park West and 75th st, a plot 102.2x123.9, where a 12-sty fireproof apartment house is to be erected.

## Building Operations.

### School for the American Female Guardian Society.

103D ST.—The American Female Guardian Society will build at No. 243 East 103d st, on a plot 25x100, a 5-sty industrial school building, fireproof, of brick and stone construction. William B. Tuthill, 287 4th av, will make the plans and receive figures. No contract has yet been awarded.

### Row of Five Flats for First Avenue.

1ST AV.—Messrs. Hillman & Golding, northwest corner Grand st and Bowery, will begin in the near future the erection of a row of five 6-sty flat buildings, 42x87.5, at the northwest corner of 1st av and 57th st, to cost about \$300,000. The plans will be prepared by Bernstein & Bernstein, of 24 East 23d st. No sub-contracts for any of the work have yet been awarded.

### Big Apartment House for Madison Avenue Corner.

MADISON AV.—The Twenty-Eighth Street Co., of which C. F. Rogers, 200 West 57th st, is the head, and owners of the St. George Apartments, in this vicinity, will erect a 10-sty and pent house fireproof elevator apartment house, on a plot 100x100 ft., at the northeast corner of Madison av and 66th st, from plans now being designed by Messrs. Schwartz & Gross, of 35 West 21st st. Mr. Robert E. Moss, of No. 12 Elm st, is the steel engineer. Mr. Rogers is ready for figures on separate contracts.

### Brody, Adler & Koch to Build in 19th St.

19TH ST.—Messrs. Brody, Adler & Koch, of No. 132 Nassau st, owners of the plot Nos. 8 and 10 West 19th st, will soon begin the erection of an 11-sty loft and office building, 50x90 ft. in size. The structure will have an exterior of limestone and terra cotta and ornamental iron work. The interior will contain electric elevators, steam heat, electric lights, marble, tile and hardwood trim. Schwartz & Gross, of 35 West 21st st, are now preparing the plans, and R. E. Moss, of No. 12 Elm st, will be the steel engineer. No sub-contracts yet awarded.

### Latest Central Park West Improvement.

CENTRAL PARK WEST.—The Lenox Realty Co. (Messrs. Saxe & Coon), 150 Broadway, will erect at the northwest corner of Central Park West and 75th st a 12-sty high-class elevator apartment house, to cost about \$1,000,000. The new structure will be known as the Kenilworth. Messrs. Townsend, Steinel & Haskell, of Nos. 29-33 East 19th st, are now preparing plans. No contract has yet been awarded. There will be three apartments to a floor consisting of two eight and ten rooms each. The fronts will be of Indiana limestone and terra cotta. The building will measure 102.2 on the av and 123.9 on the st.

### Chas. T. Wills Will Build New Structure on Old Tabernacle Site.

6TH AV, 34TH ST.—It was learned this week that Charles T. Wills, of No. 156 5th av, has obtained the general contract to build the new store and office building which W. R. H. Martin, owner of the "Hotel Martinique," and of Rogers, Peet & Co., will erect on the old Tabernacle site at the northeast corner of 6th av and 34th st, on a plot fronting 98.9 ft. on 6th av, 150 ft. on 34th st and three abutting plots on the south side of 35th st of 53 ft. The structure will be 16 stories in height and measure 140x260 ft., with exteriors of limestone, brick and terra cotta. Messrs. Townsend, Steinel & Haskell, No. 29-33 East 19th st, are the architects. (See also issue Feb. 24, 1906.)

### High-Class Apartments for West End Avenue.

WEST END AV.—The Stanley Court Realty & Construction Co., Broadway and 106th st (Randolph Hurry, Edmund Dwight, Jr., and another, lawyers, of 76 William st), will erect a 12-sty high-class elevator apartment house, on a plot 75.11x100, on the northwest corner of West End av and 106th st. Charles E. Birge, 5 West 31st st, has plans in preparation, and Ronald H. Macdonald & Co., of the same address, will in all probability be the general contractors for the structure. Work is expected to begin at once. There will be two apartments on each floor, the suites to be of ten rooms each. The Title Guarantee & Trust Co. has loaned the company \$300,000 for the project. At the northwest corner of Broadway and 106th st a similar building is being run up by the same company.

### Office Building for Liberty St.

LIBERTY ST.—Mrs. Anne Walker, of Philadelphia, Pa., will erect at Nos. 25 and 27 Liberty st, running through to Maiden lane, on the property occupied for years by Powers & Weight-

#### A Model Stable.

What is undoubtedly the finest 25-ft. boarding stable in the city has recently been completed at 248 West 108th st, just east of Broadway, for Herman Masemann, Esq. This building demonstrates the fact that it is perfectly possible to build a satisfactory stable on a 25-ft. lot. Indeed, the compactness and ingenuity of the interior arrangement bear witness to the skill of the architects by affording most excellent service to the present tenant. The big window, shown in the adjoining plate,

248 WEST 108TH STREET.

Holt & Weidinger, Architects, with feed chutes running to the stall floors. The electric elevator—placed near the middle of the building, instead of being in the rear corner—has doors at front and rear, and thus permits the easy handling and storing of wagons without requiring large gangways. Ample carriage-washes on the first, third and fourth floors and horse-washes on the stall floors expedite cleaning. The problem of the storage and disposal of manure has been effectively solved, and a brick vent flue removes all odors. There is hot and cold water throughout the building, and none of the little conveniences which add to the comfort of either patrons, stablemen or horses have been neglected. The architects were Holt & Weidinger, of 3 East 28th st, New York City.

## BUILDING NOTES

Cramp & Co., of Philadelphia, building contractors, have opened a New York office in the Lord's Court Building, at 27 William st.

J. M. Robinson, who is chief engineer of the Mills Building at Broad and Wall sts, New York, is purchasing machinery for the new Mills Hotel, to be erected at Thirty-eighth st and 7th av.

W. R. Grace & Co., 1 Hanover square, New York, are constructing an electric railway at Lima, Peru, and the road is being equipped entirely with American electric apparatus and material.

The Board of Estimate, contemplating laying out a public place bounded by West 166th st, West 167th st, Broadway and St. Nicholas av, in the Borough of Manhattan, gave a hearing on the matter yesterday.

**T**HIS illustrates the Power House of the Metropolitan Railway Company, at 96th Street and East River, New York City. It is considered, both from architectural and mechanical standpoints, one of the best examples of its class of building in this country. Among the several highly commendable features of this structure, the Ar-

chitectural Iron Work, including window frames and sashes, stairs, railings, etc., all manufactured and installed by the Hecla Iron Works, stands out boldly as a master specimen of mechanical handiwork.

**The Hecla Iron Works are recognized as the first and foremost concern in the manufacture of Architectural Metal Work in the World. The plant is the largest and most complete, and the quality of its work is considered the standard, the world over.**

North 10th, 11th and 12th Sts., from Wythe Ave. to Berry St., Brooklyn, N. Y.

Perry & Balch, sales agents for the North Carolina Granite Corporation and the Massachusetts Pink Granite Co., have removed their office from room 8017 to room 7072 in the Metropolitan Life Building, 1 Madison av.

Ground was broken this week for the new parish church of the Madison Avenue Baptist Church, which is to cost \$150,000. The building will have a frontage of 48 ft., five stories, and include a gymnasium, reading rooms, club rooms and other features.

The Executive Board of the Architectural League of America is now constituted as follows: Executive Board—President, Ernest J. Russell; vice-president, Frederick M. Mann; corresponding secretary, Wm. B. Ittner; recording secretary, Ernest Helfensteller, Jr.; treasurer, John C. Stephens; Samuel L. Sherer and Jesse N. Watson. Chairman of Committees—Publicity and Promotion, John Molitor, Philadelphia; Current Club Work, J. P. Hynes, Toronto; Education, Newton A. Wells, Urbana, Ill.; Co-Operation with the Institute, Wm. B. Ittner, St. Louis; Civic Improvement, Frederick S. Lamb, New York; Foreign Scholarship, N. Max Dunning, Chicago.

Plans are being prepared by J. G. White & Co., 49 Exchange pl., for an extensive system of steam railroads to be built in the Philippine Islands. The Philippine Government some time ago advertised that bids would be received on concessionary contracts for the construction of several roads, and a joint bid submitted by Solomon & Co., Cornelius Vanderbilt, J. G. White & Co., and Charles M. Swift, of Detroit, with whom are associated the International Banking Corporation, H. R. Wilson and Heidelberg, Ickelheimer & Co. was accepted. The concessions include grants for the construction and operation of the railroads on the islands of Negros, Panay and Cebu.

Several prominent architects and hospital experts have written and referred in complimentary terms of the remarkable beauty and wearing quality of the flat enamel on the walls and ceilings of the Mount Sinai Private Hospital. A portion of the Sloane Maternity Hospital was painted with the same material (Ripolin) about a year ago, and we are advised that the hospital authorities have recently extended its use throughout the entire building. Although slightly higher in price, Ripolin seems to be steadily gaining, the Hotel Gotham alone having used twenty seven hundred gallons of flat and gloss. Ripolin is handled by J. A. & W. Bird & Co., 31 Union sq West, sole agents for the U. S. A.

The quarterly meeting of the American Portland Cement Manufacturers will be held at Philadelphia, March 12, 13 and 14, with headquarters at the Bellevue-Stratford Hotel. The following papers will be read at the second-day meeting, the 14th instant, to which anyone interested in the use of cement is invited: "Sand for Mortar and Concrete," by Sanford E. Thompson; "Random Thoughts upon the Artistic Treatment of Concrete," by H. C. Mercer; "The Possibilities of Concrete Construction from the Standpoint of Utility and Art," by W. L. Price; "The Making and Driving of Corrugated Concrete Piles," stereopticon talk by F. Gilbreth. The meeting will be held in the Foyer of the Ballroom, Bellevue-Stratford Hotel.

The renovation over sixteen years ago of the old Castle Garden marked the beginning of a concern that has now attained to the foremost rank in the renovating of all kinds of stonework and stucco. Under the presidency of Mr. Neptune B. Symth, the Fordham Stone Renovating Co. has renovated and practically reconstructed some of the most beautiful and well-known of New York's buildings, and a consideration of the

references and testimonials contained in an artistic and interesting booklet that is being sent out from the office should convince anyone of the Fordham company's capability and fine equipment. In the list are the Union League clubhouse, the Hoffman House, Seventh Regiment Armory, Murray Hill Hotel, Riding Club, Fort on Governor's Island, Citizens' Savings Bank, Christ Church (Brooklyn), besides references from many well-known architects, builders and business men. The Fordham Stone Renovating Co.'s offices are in Townsend Building, 1123 Broadway.

#### Elevator Air-Cushion Test.

An interesting test of the elevator air-cushions installed in the new Hall of Records, this city, by the Standard Safety Air-Cushion Co., took place in that building on Wednesday of this week. A car weighing 3,500 pounds and containing two dozen eggs placed on the floor of the car was dropped from the eighth story, and after falling 125 ft. with lightning speed, halted safely with only a few of the eggs cracked and none of them displaced enough to mar the pattern on the floor. The eggs, the shells of which were not broken, were eagerly picked up and carried away as souvenirs by those present. President John L. Baker, of the Standard Safety Air-Cushion Co., supervised the test, which was declared highly satisfactory. Mr. Murray, superintendent of the new building, was among the officials present

at the test and said that the result was more than gratifying. It is remarkable that not one of the eggs was broken completely, but several were slightly cracked. This company has installed the safety-cushions in the following buildings: Frick Building, Pittsburgh, Pa.; Union Station Pennsylvania R. R., Pittsburgh, Pa.; new Baltimore Court House, Baltimore, Md.; New Amsterdam Theatre, New York City; Philadelphia City Hall; Lit Brothers' Department Store, Philadelphia, Pa.; Masonic Temple, Philadelphia, Pa.; Reading Terminal, Philadelphia, Pa.; Stephen Girard Building, Philadelphia, Pa.; Provident Building, Philadelphia, Pa.; Drexel Building, Philadelphia, Pa.; Calvert Building, Baltimore, Md.; City Hall, Chicago, Ill.; Illinois State Capitol, Congressional Library, Washington, D. C.; Empire Building, New York City; Brooklyn Eagle Building, Brooklyn; Albany State Capitol and many others. The offices of the company are at Nos. 31 and 33 Broadway, Manhattan.

#### Mitchell Vance Company.

The showrooms of the above named, at 836-838 Broadway, having been destroyed by fire, necessitated their locating temporarily at 29-33 East 19th st, three doors east of Broadway. Their old premises are being rebuilt and they expect to re-occupy them in the early fall. They have now a full line of samples on exhibition, so that architects and builders can make their selections of chandeliers, electroliers, etc., as usual.

## DON'T GUESS

A Real Estate Information Service is as necessary in a Real Estate Broker's office as the ticker in the office of a Stock Broker.

A personally maintained Service is inefficient and inordinately Expensive compared with a Big Central Cooperative Service. The Biggest Service is the best, because the advantages of Cooperation are centered there on the biggest scale.

The "Record and Guide" to-day supplies thousands of Brokers and others with information—has been doing so for a generation. Its own records cover the history of ALL transactions of every kind in New York for forty years, and in addition to these it has a COMPLETE PLANT that includes the previous period.

Obviously the "Record and Guide" possesses FULL information covering ALL particulars concerning real estate. Other systems are necessarily either partial or mere second-hand abstracts of the records which the "Record and Guide" has been gathering and publishing in the course of its forty years' history.

If you need Real Estate Information, don't guess. Don't use personal systems. Don't use partial systems. Don't use temporary systems that must be fragmentary and second-hand. Don't use systems built for the use of a few, and that offer you scarcely any of the advantages of cooperation.

## USE

THE RECORD AND GUIDE BUREAU OF REAL ESTATE INFORMATION. The oldest, the largest, the most permanent, the best equipped—a Service that can serve you TO-DAY and TO-MORROW on a progressive plan.

On the site partly occupied by the new hotel formerly stood Columbia College. A tablet stating the fact will eventually be placed on the corner of the hotel. The General Building & Construction Co. is the builder of the hotel.

**REAL ESTATE NOTES**

Brill, Rosenberg & Peshkin have moved from 1761 Lexington av and taken a suite of offices at 150 Nassau st.

C. F. W. Johanning was the broker in the sale of the southeast corner of 5th av and 112th st for Mrs. Rosa Kahl to Mark Blumenthal.

William A. White & Sons were the brokers in the sale of the northwest corner of Madison av and 32d st for the City Real Estate Property Investing Co.

In the issue of February 24 it was reported that Wm. Henry Folsom had sold the northeast corner of Lexington av and 40th st. The report referred to the northwest corner instead.

L. J. Phillips & Co. have sold for Kalman Haas to H. P. Goldschmidt the plot, 330x350, at the southwest corner of Ocean and Phillips avs, Elberon, N. J. The property is restricted to residential purposes.

Recent transfers of real estate in the Washington Market district are taken to indicate that the McAdoo tunnel interests are still acquiring tracts in that section for their Manhattan terminal and tunnel connections.

The Walton Realty Co., at No. 7 Pine st, has been organized with a capital stock of \$25,000 by Albert Ottinger, Harry G. Hecht and Anton Gronich. They wish to have agents and brokers submit old tenements in Manhattan.

L. B. Sheldon and N. R. Becker have formed a partnership in the real estate business at 2231 Broadway, under the firm name of Sheldon & Becker. They expect making private houses a specialty. Mr. Sheldon was formerly with F. R. Wood & Co.

Referring to the section east of the Bronx, Albert E. Davis says the one most essential requirement, in a growing district like this, is that the street plan should be definitely fixed and settled, so that property owners may know upon what lines to build. While we have had several "final maps," these are continually subject to change and the whole territory is to-day in a chaotic state as to a final map.

One of the most valuable pieces of property in the Bronx, from a financial standpoint, changed hands on Thursday by a deed recorded in the Register's office, from Arin Clements to John P. Kerrigan. The property is a gore lot on the southeast corner of Arthur av and 179th st, 1.6 on av x 10.3 on st, and contains about 7 sq. ft. It sold for \$250, or an average of about \$35 a sq. ft., which would make a full lot worth about \$87,500.

The Acmy Real Estate Club will have its regular bi-monthly dinner at Reisenweber's, Columbus Circle, on Monday evening, 12th inst., at 7 o'clock. Mr. Chas. E. Schuyler and Mr. G. Richard Davis will address the club on the subject "The Desirability of a State Board of Examiners for Real Estate Brokers." Messrs. John M. Thompson, Robt. E. Simon, J. Clarence Davies and E. A. Treadwell have also been invited. The Hon. Chas. F. Murphy, of Brooklyn, author of the "Murphy Bill," has written to the president, Mr. M. J. Harson, saying that he will attend the dinner if legislative duties will permit. A large attendance of members is expected, and any readers of the Record and Guide who desire to attend, may arrange to do so by calling up Mr. Harson, 200 Broadway, by telephone. The Acmy Real Estate Club is an outgrowth of the West Side Real Estate Class organized a year ago last October. Its dinners have been very successful, and at each one addresses have been delivered by some of the best known real estate men in Greater New York.

**Cooper Iron Works.**

This is the firm name of the iron works of which John Cooper is the proprietor, he having succeeded to the business of the Cooper, Wigand, Cooke Co. Mr. Cooper is known throughout the architectural and building trades as one of the able men of the iron industry. He was for many years the managing director of the Jackson Architectural Iron Works, and enjoyed that distinction until he formed the corporation of Cooper, Wigand, Cooke Co., recently dissolved. The business of the new firm will consist of structural and ornamental iron and steel for buildings, bridges, etc. The shops and main offices are at Emmet st and Av D, Newark, N. J., but for the convenience of his many clients he will continue to maintain offices at No. 1 Madison av, this city.

## CONVEYANCES

Whenever the letters Q. C., C. a. G. and B. & S. occur, preceded by the name of the grantee, they mean as follows:

1st.—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed wherein all the right, title and interest of the grantor is conveyed, omitting all covenants and warranty.

2d.—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or encumbered.

3d.—B. & S. is an abbreviation for Bargain and Sale deed, wherein although the seller makes no expressed consideration, and thus impliedly claims to be the owner of it. The street or avenue numbers given in these lists are, in all cases, taken from the insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made of them by the Department of Public Works.

4th.—The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given.

March 2, 3, 5, 6, 7 and 8.

MORTGAGES

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given and the amount. The general dates used as headlines are the dates when the mortgage was handed into the Register's office to be recorded.  
Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.  
The first date is the date the mortgage was drawn, the second the date of filing; when both dates are the same, only one is given.  
Subscribers will find mortgages in this list with the wrong block number attached. The block number we given is taken from the instrument as filed.  
Mortgages against Bronx property will be found altogether at the foot of this list.

March 2, 3, 5, 6, 7 and 8.

JUDGMENTS

In these lists of Judgments the names alphabetically arranged and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (\*) means not summoned. (†) signifies that the first name is fictitious, real name being unknown. Judgments entered during the week and satisfied before day of publication, do not appear in this column, but in list of Satisfied Judgments. The Judgments filed against corporations, etc., will be found at the end of the list.

### Building Prospects Elsewhere.

JOHNSTOWN, Pa.—The Stag Hotel of John Knuff will be remodeled at a cost of \$10,000. The contract has been let to Contractor Dietz, of Roxbury, Johnstown. Wild & Rogers are the architects.

WASHINGTON, Pa.—At the State convention of the Y. M. C. A. it was stated that plans would be prepared for a new building for the Y. M. C. A. at Wilmerding, Pa., to cost \$60,000.

LANSDOWNE, Pa.—Hon. Frederick Taylor Pusey has bought a plot 170x375 at Greenwood and Highland avs. Two handsome dwellings will be erected on the site.

BALTIMORE, Md.—A New York business man in the city recently with a view to purchase property as an investment. He inspected several suburban tracts and decided to purchase a large unimproved tract north of the city limits. He has selected a local architect to prepare plans for a novel class of 2-sty brick dwellings, wholly detached, that will extend half a mile along a main avenue. The investment will mean an outlay of about \$75,000, and details will be announced as soon as the property has been obtained.

PHILADELPHIA, Pa.—Jonathan P. Nyce has a permit to erect 50 2-sty brick and stone dwellings, each 16x52, 5601-5649 and 5600 to 5648 Cedar av, at a cost of \$160,000. David Wolpper is the architect.

PHILADELPHIA, Pa.—Bowman S. Sterling has been granted a permit to build 18 3-sty stone and brick dwellings, each 16x58, on the southwest and southeast corners of 48th st and Larchwood av, and the east and west sides of 48th st, south of Larchwood av, to cost \$74,400.

WILKES-BARRE, Pa.—Plans have been accepted for a 12-room school building on Franklin av, Wilkesburg. Cost, \$60,000.

PITTSBURG, Pa.—The Pittsburg Piping & Equipment Co. will erect a new plant in Pittsburg, for which plans are now being made. The company will manufacture gas and steam fitting supplies.

WATERLOO, Ind.—The Waterloo Electric Light & Water-Works Co. has been incorporated at Waterloo, Ind., with \$25,000 capital stock. The directors are Charles A. Wilding, John Driebelbiss and William J. Vesey.

SOUTH BEND, Ind.—A. J. Hammond, city engineer of South Bend, is asking for bids for three turbine water wheels of 200 horse power.—The South Bend Power Co., South Bend, Ind., has ordered plans and surveys for a dam in the St. Joseph River and for the construction of a power house; estimated cost, \$500,000.

ASBURY PARK, N. J.—it is reported that the members of the Baptist Church intend erecting an edifice to cost \$60,000.

WASHINGTON, D. C.—A building designed to be the finest and perhaps the largest apartment house in Washington will be erected on the old Taylor property in Vermont av, near Thomas Circle. Those most closely interested in the venture are William H., Harry C. and Arthur C. Moses and Francis H. Duehay. Estimated cost, \$600,000.

**Q** Your record of real estate information may be of indifferent value or it may be one of the chief assets in your business.

It depends wholly on how the record is kept—the character and amount of information condensed on each card, ease of maintenance, ease of reference, simplicity.

The right kind of record is so simple to keep up that it *will* be kept up. Do you keep yours up?

We manufacture cards and cabinets for every record in a real estate office, but our service is much more than that.

It will cost you nothing to get our suggestions. We believe they will be worth many hundred dollars a year to you.

THE MONEY market, which has been for a long time a bugaboo, has distinctly improved in tone during the week. March is always a tremulous period with money, even in easy years. In the great West the real estate and other settlements take place on March 1, while April 1 is settlement day throughout New England. In addition money is drawn out of banks all over the country in connection with the planting season. The farmers and planters' deposits in banks are drawn down, and the actual money, the base of bank credit, finds its way for a time in the pockets of labor. This extraordinary demand for money ends early, and is nearly always followed by comparatively easy money rates until the autumn, hence the invariable and well acknowledged spring rise in stocks, which is really caused by the easier means of financing in April and thereafter.

WALL STREET this week has been marking time without initiative or a leader of the market on either side of the account. Fundamental conditions all favor the bulls. Railroad earnings continue to be phenomenal. Those of New York Central for January and February have increased about 20 per cent. over last year. It is doubtful whether so large a percentage of increase has ever been known on that great system, while increases of a million dollars each or more per month continue to be common with systems like Atchison, Northern Pacific, North Western, and Great Northern. To realize what such increases mean, let it be recalled that it is only eight or nine years ago that these roads averaged gross earnings about thirty million dollars each, or two and a half millions per month, so that the increases of the present year often run as high as fifty per cent. of the former gross earnings. Nor are these increases to be wondered at in the light of interior bank clearings at representative cities, showing an increase of thirty-five or forty per cent. over last year. The question therefore is, how long Wall Street can remain depressed and prices sag in the face of the veritable boom west of the Hudson River, no weak spot being discovered anywhere. Wall Street itself, the optimists maintain, has not only a monopoly of pessimism, but an over supply. The market appears, whenever encouraged in the slightest degree, to display unmistakable powers of rebound. It may be fairly said that it goes up as easily as it goes down, and while the bears charge that buyers are scarce on the decline, the bulls retort that stocks are scarce on every advance. The swing of the market at the moment is very narrow, and it seems to be sold out and reach an impasse on a decline, on an average, of say two points. When it reaches that condition, it rallies easily, but soon stops. Wall Street may be said to be asking itself in which direction will it break loose, and from what quarter will the wind come to take the market out of the doldrums into the "roaring forties." The daily speeches in Congress on the rate bill, which we will have from now to May 1st, will not be without their market influence. It is now conceded that the conservative element in both political parties in the Senate will dominate in the final legislation, and it is doubtful whether any new disquieting bills likely to affect values of railroad stocks will be introduced this session.

THE Saxe bill signed by Mayor McClellan, ordering the New York Central and Hudson River Railroad to remove its tracks from Eleventh avenue, naturally calls attention to the immense value in the aggregate of railroad real estate on the West Side of the city near the North River. This property is rapidly increasing in value, and it is now estimated at not less than twenty-five million dollars. The extreme westerly avenues and the foot of the streets on the North River frontage from 22d to 46th street are largely occupied by railroad yards. Indeed, this strip of territory is fast becoming the railroad center of Manhattan Island. Besides the enormous acquisitions of the Pennsylvania Company for its new terminal between 31st and 32d streets, and Seventh and Ninth avenues, other railroad companies possess large areas. The New York Central, the New York and New Jersey Company, Erie and the West Shore, are the roads chiefly represented. The City assesses the value of the holdings of the New York Central, including its station and yards at Twenty-ninth and Thirtieth streets and Ninth and Tenth avenues, at nearly three million dollars. This assessment comprises property on Thirtieth, Thirty-first, Thirty-second and Thirty-third streets, and on Eleventh and Twelfth avenues. The West Shore, controlled by the New York Central, with property on Twelfth avenue and Thirty-fifth, Thirty-sixth, Thirty-eighth and Forty-sixth streets, is assessed by the City at nearly three-quarters of a million dollars. The New York and New Jersey Company has to pay taxes on the city's million dollar valuation of the company's Twelfth avenue property, on Thirty-third, Thirty-fourth and Thirty-fifth streets. The general terminal warehouse for railroads on Thirteenth avenue and extending from Twenty-seventh to Twenty-eighth street, is also assessed at a large amount.

THERE are those who consider that real estate in the section from Thirty-fourth street to Forty-second street, between Broadway and Fifth avenue, and especially between Fifth and Sixth avenues, has about reached high-water mark. Large purchases of property in these streets were made some time since by well-known and shrewd operators, who are said to have disposed of the greater part of their holdings at handsome profits. It is now asserted that certain properties bought as an investment will not at present and perhaps not for some time to come bring anything like the return anticipated; in short, that the income derived is inadequate for the price paid. It is contended that there must be a considerable increase in the return to justify present prices, and the figures that sanguine holders confidently expect in the near future. Basement and parlor stores in what were formerly private houses close to Fifth avenue command a fair rental, but those farther down the blocks, especially close to Sixth avenue, are not nearly so much in demand, as is exhibited by the number to rent in Thirty-eighth and Thirty-ninth streets. For example, the basement store of one house in those blocks is rented for \$1,200 a year, while \$85,000 is demanded for the building itself. It is not probable, therefore, that stores or floors in houses so situated can for a long time yield a rental commensurate with the prevailing purchase figures for the house itself. The real value of such lots or plots is their suitability as sites for elevator office buildings, which will necessarily have properly constructed stores on the ground floors and contain a large number of offices. What at present affects renting of offices in these houses turned into stores is that the upper floors are not much in demand on account of the better accommodation afforded in the new buildings especially constructed for business purposes. The erecting of the Engineers' Club in West Thirty-ninth street will undoubtedly have its effect on property in that vicinity, but whether buyers have been paying too much for realty there, and so many have to wait to realize a profit, is of course a moot point. The future of the section, however, cannot be regarded even for a moment as doubtful. There is nothing much better in the city.

WE are pleased to learn that our statement made in these columns last week to the effect that "No action, nor any action looking to action in the future, has been taken by the Architectural Profession, Builders, and others in regard to the proposed revision of the Building Laws," is in a measure incorrect. Shortly after the resolution to revise the Code passed the Board of Aldermen, Mr. Charles H. Israels called the attention of the New York Chapter A. I. A. to the matter through its President, and Mr. George B. Post acted promptly. He called a meeting of the presidents of the four architectural societies in this city and organized a provisional committee, which committee has already had several interviews with the Chairman of the Committee on Buildings of the Board of Alder-

men, and finally addressed a communication to him stating "that, while it is highly necessary and of the first importance that the present Code be revised, the opinion of the architectural societies is that any revision, in order to be effective, should be thorough and scientific, and undertaken by a commission of broad-minded, highly trained experts. The composition of the committee, as composed in the resolution that has lately been before your honorable body, is not such as we think would tend to successfully accomplish the ends we have in view, and we would respectfully submit to you a request that the commission be remodeled, and that it be composed as follows, of three architects, two engineers—one civil and one mechanical—two members of the Master Builders' Employers' Association, one representative from the Bureau of Buildings, one lawyer (preferably a representative of the Corporation Counsel's office, who has to do with the interpretation of the Building Law). Unless a thorough revision of the Code undertaken by such a commission as we propose can be provided for, we are of the opinion that the Code, as it is in its present state, had best be permitted to stand." This is sound common sense. It offers the only means of obtaining a thorough revision of the Code, and in strict conformity with the real state of the building art. At the same time, such a committee would preclude the use of the Building Code as a means of foisting upon the community the use of proprietary materials.

### Building Loan and Mutual Benefit Association Mortgages.

**A**LL borrowers of money on bond and mortgage have their troubles, but none more than those who have borrowed from the various now insolvent building loan and mutual benefit companies and associations. The expenses incidental to obtaining an ordinary so-called "straight" mortgage loan, represented by brokers' commissions, counsel (?) fees, title company policies, searches, renewed surveys, and last, but not least, "something," from one-half of to one per cent. more, either in the rate of interest on the loan, or as a disbursement incident to the expense of its procurement, "to cover the mortgage tax extra," have been altogether a heavy enough burden to bear, but are as nothing to the troubles of the small borrower who has gone to the building loan and benefit companies and associations. Such loans have usually been small in amount, and their totals so inconspicuous, that the proportionate amount of the expense has usually failed to attract notice. Then, too, like the bucket shops which make semblance of the actual purchase and sale of the stocks dealt in by their customers, while actually doing nothing of the kind, but charging a commission each way to swell the total profit, or to reduce the loss from taking the customer's "bet," the building benefit associations and companies have made show of making loans of amounts sufficient to take up prior mortgages and liens on the property, and charging in that proportion, while in fact not paying these off at all, but only carrying the interest due upon them, out of the bonuses, dues, fines, and the like, imposed upon the borrower through the machinery of the subscription for shares to the amount of the loan obtained.

It is not our purpose to criticise the operations of the many well meant and properly operated building loan associations throughout the country whose members take shares in them and pay in their dues, interest and other charges, to be lumped and lent out from time to time to other associates, as any mutual savings bank would be carried on, if such existed; but it is the abuse of their methods, and the failure of the Legislature to properly safeguard them, as once was sought to be done, by wise and safe laws regulating savings banks proper, to which we would draw attention. A mutual savings and loan association is one thing, and quite another thing is a benefit building and loan company or association device (or whatever it may be termed) such as we have in mind, of which the would-be borrowers are practically the only members; who never become such till becoming debtors to the institution for a hopelessly large subscription and a hopelessly large mortgage loan; who never see a share thus subscribed for, or even receive from the company or association more than perhaps a ten or fifteen per cent. advance of the total of the amount borrowed.

It is, as we have said, only occasionally that the figures, mounting to large enough amounts, show the disproportion of expense to benefit; and the exposing of the transaction in court makes the whole scheme apparent and glaring. Such an instance is before us, where a borrower desired to pay off an existing mortgage of \$83,000 upon her property, and to obtain \$8,000 additional upon it. She was a subscriber to no building loan association or its shares, nor was she seeking to start any savings bank account, or any form of investing money whatsoever

—simply to get a new and larger loan upon mortgage on her property than that already existing. It was solely with this end in view that she was introduced to and sought to borrow the necessary \$91,000 from one of these institutions. The proper mortgage papers were drawn and executed in that amount? Did the company loan it? No, nor ten per cent. of it: it simply "coppered" the transaction, as the saying goes among Wall Street financiers and brokers, and then turned to the profits to be made. A bond and mortgage was made out and executed by the borrower in the amount of \$112,840, on which she was to pay through the medium of stock, shares, premiums, fines, interest, subscription dues and the like, and further interest on them all again combined, to the amount of \$705.25 per month, until the whole amount of \$112,840 should be repaid.

And what did the company advance, and what did the borrower receive, of this total new loan of \$112,840 so made? Just \$8,000. The existing mortgage of \$83,000 was not paid off, and the balance \$21,840, which she was ultimately to meet and pay was only "wind." On an actual advance of \$8,000, practically a second mortgage loan of that amount, the company or association was to receive, and did receive within the first year, the whole \$8,000 back, and was thenceforth "on velvet" for whatever it should be able to collect from the borrower on the balance of \$104,840 due, less such amounts as it might be called on to pay of interest on the existing first mortgage; and ultimately, if the association should ever be solvent enough to do it, the \$83,000 principal thereof; leaving of deferred dividends, or whatever Mr. Hyde might have termed them, enough to create a surplus fund for "present profits" for which no one should be accountable, and sufficient for a good time for everybody. But even this favorite of "frenzied finance" failed; the association went to the dogs, the \$83,000 first mortgage was never paid off, and the borrower was left to face foreclosures, after paying in some \$8,650 on account, amounting in the aggregate to \$101,000, which the courts finally modified on appeal to a judgment against her of about \$98,500 total for her to meet. She, too, might be tempted to contribute to "Everybody's Magazine."

### A Politician's Philosophy of Success

By TIMOTHY D. SULLIVAN

**W**ERE the following expressed by President Eliot or President Butler, of course in language a trifle more classic in tone, it would be widely quoted as an example of the wisdom of ripe experience and much learning. Is it any less weighty, however, because it actually came from the lips (or the pen) of one Timothy D. Sullivan, a Tammany Hall district leader? Coming from the latter, it is certainly of greater significance:

"Anyone may be a leader of men.

"There is no secret to the job and no trick of nature's doing. It only needs work, and lots of it.

"No fellow who is leading people by any trick will get very far with the crowd behind him. If he isn't on the level he'll soon be a water-carrier or chopping fodder for the lame horses, because anybody knows that leaders never stop half way when they get the 'Ha! Ha!' sign to back. History, I believe, records some cases where leaders have come up for a return engagement and won out, but they were on the level with enough people to create a sentiment, and that's all any man needs who has the proper amount of 'sabe' to take advantage of it.

"When you ask me to what particular thing I owe any of the friends I've got, I'll say it's work. All this talk about psychological power and personal magnetism over man is fine business for pretty writing, but when you get down to brass tacks it's the work that does the business. What would Croker's personal magnetism have amounted to if he hadn't worked early and late? I know faro dealers that have more magnetism than all the leaders you ever knew, and they go on hustling for a living at \$6 a shift—and not always working steady at that—mostly because they don't know how, or won't work except at the thing that comes easiest to them. If a man sets out to do something or get somewhere he can bet that the only way to get there is to do it himself, and no one else can do it for him.

"A man who wants to be a leader in the political world has to forego any idea of liberty to do anything except that that the people around him want. I'll take any man from the Bowery or the prairies and set him down anywhere, and if he will follow my instructions he'll be a leader sooner or later, according to how much aptitude he's got on the go-in. Most men are lazy

and do only what they have to do for their immediate comfort; lots of men are unfortunately born without the ability to think for themselves, and other men for no known reason in the world have to have someone to look to as a leader for them. Now, then, you start out with the idea that you'd like to be of some use in the world and begin by helping the fellow beside you who is in trouble. That fellow may not be grateful to you, because he don't know how; but he'll remember you and when he's got to confide in someone he'll probably turn to you. There you have some knowledge that you wouldn't have had. Then you repeat the operation several times a day, and before you know it you are getting the habit of being concerned about people's troubles. Most people are grateful, and when you have shown a lot of people that it's no trouble to help them they'll be pretty sure to want to help you.

"Then you see that a lot of people have a complaint against something; maybe it's something you can fix. Well, if you're not too lazy, go and fix it. Somebody's going to say that it was a smart thing to do. It wasn't smart. It was only because you were willing to do the work and other people weren't. If your friend Jones is in trouble with some litigation, you may be able to save him a lot of trouble by volunteering to see the other fellow and get it straightened out. That's a friendly stunt, and there's lots of men who do that sometimes; but the man who wants to be a leader has to do that and things like it many times a day. After a man has been talked about by his friends a while, his importance grows in proportion to the amount of people that do the talking. That is the time he wants to stop talking himself and hustle harder than ever. When a man comes to you for advice, as a rule, he really don't want your advice, but wants you to verify his own decision. If you can't do that, don't argue with him, but ask him how you can help him, and he'll go away saying you're a wise man, and that don't hurt you any.

"If you learn how to help people get work, you can soon make a respect for yourself that no man can blot out, no matter what he says against you. After a man has interested himself in other people's troubles for a while, he learns to be patient, just as he learns to be polite to the minister. If you have a temper and are going into politics, you want to go to the nearest dentist and have it pulled.

"If a man asks you to do something and you can't do it, don't lie to him, but laugh him out of it if you can, and if you can't do that tell him why you can't and then take the trouble to prove it to him. He will think you've taken him into your confidence and he'll be just as good a friend as ever, unless he's a natural born kicker. It's the natural born kicker, by the way, who keeps any one man from getting too big a head.

"Some of the men in my district who never asked me for a thing in their lives have told me they would never desert me as long as I was willing to listen to a 'kick,' and it's that way I find out what the most people want. The man who doesn't ask you for personal favors can afford to tell you the truth, and he usually does. The people who give me their support don't do it because I have any wonderful magnetism; they do it because I am willing to try to do the things they want—not for one campaign or one administration, but every day of every year, with the holidays included.

"And so, after all, there isn't much to it to be a leader. It's just plenty of work, keep your temper or throw it away, be on the level and don't put on airs, because God and the people hate a chesty man."

### Garage Regulations.

As an automobile carrying a volatile inflammable liquid may not be placed in a building that has not been licensed by the Fire Commissioner, the qualifications necessary for a license constitute an important subject of consideration at a time when garages are being multiplied rapidly; for the price of machines is certain to be very materially reduced in a few years, and so numerous will they become it will be a problem where to house them all. The Record and Guide is indebted to the Manhattan Building Department for a copy of the latest rules (bearing date Jan. 1, 1906) issued by the Bureau of Combustibles—of which George E. Murray is inspector—governing the erection of buildings for the storage of automobiles.

Licenses will not be issued for a building occupied in any part as a dwelling, hospital, theatre, church, school or tenement house, and the only exception to this provision is that a license may be granted for a private garage in a building occupied in part as a dwelling by the family of an owner, a lessee or an employee. No more than ten gallons of volatile inflammable liquid can be left in approved safety cans, and not more than twenty-five barrels in underground safety tanks. Licenses will be issued for an annual fee of \$10, and may authorize the keeping of (1) automobiles carrying volatile inflammable liquid, (2) volatile inflammable liquid and (3) calcium carbide; and also the sale of (1) liquid for filling the tanks of automobiles, and (2) calcium carbide. Provided that a garage is for private use and the machines contained therein are used only for the licensee's individual use, and are neither rented nor used to carry passengers for hire, a license will be issued for \$2 per annum.

Approved safety cans for storing volatile inflammable liquid

in a garage shall be of a capacity of five gallons or less, and when not in use shall sit in drip cans, either in the pump house or in an approved closet. Closets for storing garage safety cans shall (1) not be larger than required for the purpose, (2) be lined inside and covered outside with sheet tin applied with lock joints and blind nailed, (3) be ventilated to the outer air, and (4) be in an unexposed location.

The delivery of volatile inflammable liquid to a garage shall be made in daylight only and shall be made (1) in barrels or safety cans, or (2) from a barrel-wagon. The barrels or safety cans in which volatile inflammable liquid is delivered to a garage shall immediately be (1) placed alongside intake of filling pipe, (2) emptied into tank by means of a pump or siphon, and (3) removed from the premises forthwith.

Barrel-wagons delivering volatile inflammable liquid to a garage (1) shall be provided with a metallic hose and an automatic shut off valve at hose coupling to barrels on wagon; (2) shall not enter the building; (3) shall couple hose to filling pipe connection outside of building.

Storage tanks shall (1) not be installed until application with plans and specifications showing full details of location and construction of tank and all connections, have been approved by the Fire Commissioner; and (2) not be placed (a) under a sidewalk or in a sidewalk area unless it shall be shown to the satisfaction of the Fire Commissioner that there are physical conditions that make it impractical to install it elsewhere; nor (b) inside any building that is more than one story high, or that has a cellar or basement; (3) it shall not have a capacity in excess of 275 gallons; it must be made of iron or steel three-eighths of an inch in thickness; be coated on the outside with tar or other rust resisting material; have all joints tightly caulked.

Storage tanks must be buried at least two feet under ground, and in addition to being two feet under ground, tanks that are to be filled by a pipe from the street shall be buried at least two feet lower than the grade of the street. Tanks that are within ten feet of any building shall—if practicable—be buried two feet lower than the level of the lowest cellar floor in any such building; be embedded in twelve inches of Portland cement concrete well tamped in place, and should there be more than one tank, they shall be separated by at least twelve inches of such concrete; and should a tank be within ten feet of the building and not be buried at least two feet lower than the level of the lowest cellar floor of such building, it shall be embedded and surrounded by Portland cement concrete twelve inches in thickness to top of tank.

Tanks must be provided with a filling pipe, a vent pipe, and (if not more than thirty feet from all buildings) a drawing off pipe; be provided with an approved pump or with an approved pressure apparatus for drawing off contents; and not to be placed so that the top of tank shall be below the drawing off point.

These several parts are all minutely described in the regulations, which are not here printed in full.

The pump house shall have a cement floor at least six inches lower than the door sill, and not more than twelve inches below the grade of the ground where located. It must have heavy galvanized drip pans, one to cover the whole floor, one to be kept under the nozzle of the pump. If within thirty feet of a building, the pump house must have walls twelve inches thick, a brick roof eight inches thick covered with Portland cement mortar and either a brick ventilating flue or an approved galvanized iron ventilating pipe.

Filling stations shall be located at least twenty feet distant from the entrance to the garage, shall have a cement or other approved fireproof floor, graded to a centre, which shall be kept free from volatile inflammable liquid. The room shall be kept free of inflammable vapors, either by natural or by forced ventilation.

Movable incandescent electric lights in a garage shall be protected by approved metal cages, and shall be fitted with keyless sockets; all electric switches and plugs shall be permanently located at least four feet above the floor. All fire and lights on an automobile, or under the boiler of an automobile shall be extinguished before bringing the same into a garage, and shall not be lit while the same is in the garage.

### Real Estate Commission Rates.

To Editor of the Record and Guide:

Please inform one of your subscribers with the legal rates of brokers' commission on sales of property, both improved and unimproved, in all boroughs of Greater New York. J. K. Co.

Answer.—See Record and Guide of Feb. 17, 1906.

—A report, with plans, on the "Improvement of Columbia, S. C.," have been prepared for the Civic Improvement League of that city by Kelsey & Guild, landscape architects, of Boston, Mass., and is the first report of the kind for a Southern city. It will be of value to cities in the North as well as in the South, and will contain 88 pages and be beautifully illustrated with half-tone engravings and colored maps showing the proposed improvements. Copies can be obtained from the president of the Civic Improvement League, Miss Belle Williams, Columbia, S. C., for the cost price, 50 cts. each.

## Following a Talk to Young Men on the Principles of Real Estate Brokerage Business\*

**T**HE FIRST PRINCIPLE of the business is to make commissions, and in order to make commissions one must have a thorough knowledge of what he is dealing in; in other words, he must know the fundamental principles on which real estate values are established. In a final analysis all value is based on real estate, for all real wealth must come either in one form or another from land: farm land, mines, railroads, cities and grazing land. Every civilized person must have a place to live and therefore must use land or pay for the use of land either in one way or another. What land can be used for and what income it can be made to pay is the true basis of land value, and when one departs from this principle the actual values are lost sight of.

The market value of real estate is based on what it will sell for under ordinary circumstances. In giving expert testimony the market value is what is asked for, and this value is based on sales in the vicinity and on one thousand and one details that go to make up expert judgment and experience, as many things affect the value of real estate. A thorough knowledge of the value of real estate is the best asset a broker can have to enable him to make commissions. Specialized knowledge of values in the section the broker proposes to work in aids largely in doing a successful business. Specializing is the tendency of the times, and it leads to a surer and quicker success in all lines as well as in real estate.

There are four means of making commissions: (1) By the sale of property either at auction or at private sale and exchanging same; (2) by the collection of rents and care of property; (3) by the obtaining of mortgages on property; (4) by appraising real estate and giving expert testimony as to its value in legal proceedings. In selling property at private sale certain principles must not be departed from in order to make a success. A thorough knowledge of the property which you are trying to sell. One should know thoroughly, in the first place, the value of the land, the value of the building, the sales of property in the vicinity to use for comparison of values, who purchased them, when it is possible to find out, the rental values and future rentals. Leases and how long they run. Terms of leases. What tenants are willing to take future leases. What they are willing to pay for future leases. Future value of the land, both immediate and far future. Improvements made or about to be made in the neighborhood. Transit facilities, both present and prospective. Expenses of property—insurance, water rent, taxes, heating, amount of coal used, cost of janitor service, light, amount of repairs; building well or poorly built; by whom built; layout of building—if same can be altered advantageously to bring larger rents, or can be developed to different class property to afford larger interest on investment. What mortgage can be obtained; when due? at what rate of interest; whether it can remain or be paid off.

Every detail of property should be known in order to be in a position to accomplish the sale, for in the course of negotiations hardly one of these details will not come up for discussion, and a broker's knowledge of these details will assist materially, or the lack of it retard him in his efforts to make a commission. The broker must take care to see that these details are the facts. The broker must tell the customer the cold, hard truth. Both the good side and the bad side of any piece of property, and in order to be successful he must let the party to whom he is endeavoring to sell have the full facts without exaggeration or mental reservation; and to my mind the difference between being a good and being a bad broker, successful or unsuccessful hinges on this very statement.

The broker who tells both sides gains the confidence of the purchaser, and the broker who does not tell the full facts, and they are found out afterward by the principals, at once loses the confidence of both sides.

### THE INVESTOR.

In cities the real estate broker must look to three classes of buyers. (1) The investor, who is one that buys real estate to obtain a certain income or rate of interest on the amount invested. (2) The consumer, one who buys property to live in, or to carry on his business in. (3) The speculator or operator, who buys to resell either at once or to the builder, or for development, and then sell to the public.

If you have an investor who desires to invest a certain amount in a piece of property, first get his ideas of the amount he wants to invest; second, the kind of property he prefers, and third, the section of the city he knows and likes best. Then go to that section and pick up pieces you would like to own

yourself and think would make a good investment. Get all the facts and place them before him. Take him to see the property; let him express his opinions, whether good or bad, but be able to refute his arguments if they are not just. Show him in a practical, sound, common-sense way the amount of interest he will obtain on his investment; the future of the property, and the amount of risk he takes in purchasing. With the consumer a different line is necessary. Here it is a matter of personal taste, and one must endeavor to suit the needs of the consumer, the requirements of his family, of his business, his personality and social sphere. The speculators constitute the largest class of purchasers. A resale at a profit is the object to be attained. Judgment of the market and its tendencies must be considered. Can the property be improved and sold at a profit? Can it be improved and made a good investment? Can property be cut up into lots and sold at auction or at private sale to small purchasers? Can it be purchased and held one, two or three years and money made? Will it increase in value in proportion more than the ratio of cost? There are speculators, in lots, in lots with buildings loans, in tenements, where rents can be raised; in business property, in corners and future business centres; small speculators buying one or two lots with the idea of reselling or saving money, and speculators in land for condemnation proceedings.

The amount of commissions a broker will make is in exact proportion to three or four things: The length of time he will work, the energy and perseverance he will use, the tact and judgment he displays and the closeness to which he will stick to facts and the truth. Have discrimination in picking out real buyers from shoppers, the man that talks from the man that means business; property worth working on and giving time and attention to from property that is not worth while. First, last and all the time success depends also on energy and perseverance, and the number of pairs of shoes you wear out in a year.

### THE RISE OF THE BRONX.

The original Bronx section was purchased from the tribe of Indians known as the "Weekquaesgeeks," between the years 1640 and 1655, but in spite of these purchases there were a number of Indian massacres and the destruction of farms by the Indians. The first settler in the section was Jonas Bronck, who, in 1639, erected his house on the Harlem Kills, near the outlet of Mill Brook, or about the present terminus of Brook av, and in about 1642 purchased the land and made a treaty with the Indians. From this treaty, supplemented by patents and grants from the Dutch and English, the majority of our titles begin. The next settler was Adrain Vanderdonck, who settled in 1653 about where the Van Courtlandt mansion now stands, in Van Courtlandt Park. His purchase included all the upper west side of the Bronx, and well into and beyond Yonkers. This was called "Vanderdoncks" land.

Between the Jonas Bronck purchase and the Vanderdonck purchase was the Archer patent, purchased between 1660 and 1670 by Jan Archer, which later became the Manor of Fordham; and the strip of land between Cromwell's Creek and the Harlem River, where High Bridge now stands, was purchased by Daniel Turner, about 1671, while the easterly part of the Bronx known as the West Farms patent, which we know to-day as Hunt's and Barretto's Points was purchased in 1663 by Jessup and Richardson. From these five purchases the section now known as "the Bronx" is made up. A large number of these properties came into the hands of the Morris family, by purchase later, and was known as the Manor of Morrisania. These tracts were divided up among the different branches of the Morris family and were gradually sold off, portions of which, as settlements were made, grew into little villages. You yourself are familiar with the names of these villages to-day—West Farms, High Bridge, Fordham, Morrisania, Melrose and Tremont.

Like the history of New York itself, which originally consisted of villages such as Greenwich, Yorkville, Harlem, Manhattanville, Carmansville, etc., the development of the district has been the gradual growing together of these settlements, a process which is still going on in the outlying districts. The Bronx proper is that portion of the Bronx country west of the Bronx River annexed to the City of New York in 1873, and is comprised in the district bounded by the Harlem River on the west and the south, the East River and the Bronx River on the east and the Harlem River and the Mt. Vernon line on the north. This district has distinct physical features which have had and will have in the future a large effect on its development. Those features are as follows: South of 149th st, from

\*Notes of lecture delivered before the Real Estate Class of the West Side Young Men's Christian Association Feb. 28, 1906, by Mr. J. Clarence Davies.

the Harlem to the East River, the land is, comparatively speaking, flat and undulating. North of that it can be divided into four distinct ridges of high ground with valleys in between. The most westerly ridge is that high ground lying on the easterly bank of the Harlem River, which extends to Van Courtlandt Park. Then comes Jerome av and what is known as "the Jerome Avenue Valley." East of that is the high ground along the summit of which the Concourse is being built, and what might be known as the "Concourse Ridge." East of that again is what might be known as the Brook Avenue Valley, and along this valley the old Brook ran. To the east of this is the ridge on which Woodstock, Crotona Park and the high ground along Boston av, Fairmount and Belmont are situated. This gradually undulates. To the east is the Southern Boulevard, with high ground to the east, which slopes down to the Bronx River.

Practically speaking, the modern development of the Bronx dates from about 1880 to 1885, when a downtown merchant who owned large tracts of land which he had purchased from the Browns, who had in turn purchased from the Morris estate, decided to improve these tracts, and with that idea built up the section then known as North New York, which consisted of the southeasterly part of the Bronx running from the land of the Motts, known as Mott Haven, eastwardly to the East River. This section was laid out into streets, and three or four hundred 2 and 3-sty private brick houses were built on the blocks running from 138th st to 143d st. These are known as the O'Gorman houses, and were really the first fine improvement undertaken in the Bronx, and proved a great success. The jurisdiction of the Bronx at that time was under the Park Department, and it was extremely difficult to obtain any improvement, such as sewers, grading, curbing, etc., and only in 1890, the population then having grown to about 75,000, we obtained a local board of street improvements, elected our own commissioner of streets, and from that time to the present the physical improvement has been going steadily ahead.

From 1885 to 1896 most of the real estate speculation consisted of the purchase of tracts of land from the original owners, cutting them into lots and selling them at auction. The land thus sold went into the hands of the public, and building operations were started. The larger portions of Tremont, Fordham, Bedford Park and Kingsbridge were originally sold at auction by James L. Wells, and have been developed since 1890. It was about this period, 1889, that the building-loan operators commenced to make building loans in this section, and row after row of flats along Willis av, 138th st and other side streets were built in this section at this time. They proved to be such a success that other builders rapidly followed, and the growth was very steady up to about 1897. Morrisania, which consisted of that portion north of Mott Haven, west of 3d av, as far as 169th st, has built up spasmodically by a thrifty class of Germans from downtown, who bought most of their land from the Morris family by the acre and gradually sold it off by the lot. This portion, settled mostly by frame houses, with from two to eight lots of ground around them, had the aspect of a semi-suburban residence district. These streets are now rapidly developing into flat sections.

The village of Woodstock, north of 156th st and west from 3d av, was built up from 1890 on by a builder by the name of Decker, who built hundreds of frame houses in rows. In fact the district became known as "Deckerstown." North of this the development was more or less sporadic, as most of the property was held in large plots and estates, such as the W. H. Morris, Fleetwood Park, Zbrowski tract, the Bathgate farm along 3d av, the Bathgate-Beck farm on Boston road and Southern Boulevard, and the only development was in the villages of West Farms and Tremont. The parks have aided largely, as they have brought millions of visitors, who have been attracted as settlers to the section. These parks were acquired to the city by condemnation from 1884 to 1890, and practically assure the future of the Bronx, as no part of the city has such magnificent tracts, and, in fact, the public have lately commenced to recognize this and have begun to call the Bronx "the Borough of Parks."

### On the Registration of Brokers.

THE ADDRESS of Mr. G. Richard Davis, of A. L. Mordecai & Son (Inc.), at the dinner of the Acmy Real Estate Club, at Reisenweber's, on Monday evening, the 12th inst., was a timely and thoughtful consideration of the pending proposition to license real estate brokers. More particularly his subject was "The Desirability of a State Board of Examiners for Real Estate Brokers." Mr. Davis said:

"There is a bill pending before the Legislature which provides that in cities of the first and second class real estate brokers and agents should be licensed. Upon payment of a fee of \$250, and on giving a bond in the sum of \$5,000, they may obtain this license, which will permit them to do business for two years and thereafter, by extending the bond and on payment of a like fee, \$250, every two years. The bill makes it necessary for any employee of a concern, whether he is salaried or not, to have a license himself, if he receives any part of a commission, and it further provides that licenses are revokable under

adequate and substantial proof of the broker's incompetency or wrongdoing.

"It is hardly necessary for me to say that I cannot but condemn in the strongest terms the provisions of this bill. The question of licensing brokers is not what I oppose, but to make the qualification of the license, the ability of a broker to give a bond of \$5,000, and to further tax him \$125 per year, is absolutely unjustifiable and, I believe, unconstitutional. The only qualification necessary should be a man's character and ability.

"It has been argued, and truly, that the real estate broker is a professional man; that, like other professional men, including physicians, lawyers and architects, he should be licensed. I see no reason why brokers, if they want, should not be licensed, though for the word "license" should be substituted "registered." A law that, it seems to me, might be of great service to real estate brokers in the upholding of their profession and uplifting its character and tone, would be one compelling every man who desires to do a brokerage or agency business in the cities of the first or second class to register his name with a State Board of R. E. Examiners, who should have power to license, and the fee should be nominal, \$5 or \$10 per year. From a theoretical standpoint, the essential qualifications should be: First, the recommendations of two or three responsible men as to the moral character of the applicant; second, those who can pass an examination in general real estate knowledge; those who can pass a special examination in their specialty in real estate; those who have been engaged in the real estate business for from three to five years or more; those who hold a diploma from any recognized school of real estate instruction, such as the Y. M. C. A. or the University of New York.

"As I said before, in theory this sounds very easy and very nice, and any measure or legislation that would exclude from the profession all men who are not by character fairly fitted to prosecute the profession of a real estate broker, and thus to put a stop to one of the most objectionable features arising in our business, raising the tone of our profession and making the public recognize that it is really a profession and not a business for broken-down business men and sharpers, is something we real estate men all want and unanimously support. But, practically, gentlemen, let me say that it is very difficult and almost impossible to frame any legislation that will accomplish this. There is no board of examiners who could possibly make up examination papers that would be of any value in New York without consulting with experts here. There are men who have been in the business twenty-five years who could not pass an examination in the rudimentary things which a real estate broker should know, but who are nevertheless desirable and successful real estate brokers.

"The chief difficulty must arise from the fact that in this city, particularly, all business is done along special lines. We have mortgage brokers, building loan brokers, sales brokers, rental agents and appraisers, brokers in every section, etc., of this city, experts therein and ignorant of conditions elsewhere. It is therefore obvious that there would have to be a special examination for almost every applicant for examination.

"This would cause endless confusion, complication and unfairness. If a proper form of examination could be determined on and a board of examiners selected who would be non-partisan and non-political, it would result in great benefit, but can it be done? I doubt it. I must repeat that this discussion is theoretical, and before anything can be accomplished it will require a great deal of thought, argument and discussion among you gentlemen and all real estate brokers. There is this, however, about the matter which can be done with good practical results: A license upon registration which would be issued to men of good character, without qualifications as to knowledge, but revokable upon proof of gross incompetency and wrongdoing would be of some service to the real estate community and would make it possible to put out of the business men who violate the ethics of the profession, but who cannot be held criminally or legally responsible. Such a system of registration in licensing as I have outlined would be feasible for this purpose.

"There is one thing I would specially call your attention to, and that is that we do not want the Legislature to consider that any bill the real estate brokers would favor should be in the nature of a tax upon us. That is why the present bill is very objectionable. If our friends in Albany think that \$125 at present is a fair fee, they may later think five times this amount would be a good thing, and a good way to raise money. But if we call it 'a registration' only, with a nominal charge per annum, such as notaries pay, the results to us would be of course better and the principle would be entirely different."

The second annual banquet of the real estate classes of the West Side Y. M. C. A. will be held Tuesday evening, April 17, at Reisenweber's, 58th st and Broadway. Francis E. Ward will preside. The invited guests are Messrs. Henry H. Neill, E. A. Tredwell, J. Clarence Davies, David Rumsey, Robert E. Simon, J. M. Thompson, McDougal Hawkes and R. O. Haubold.

# THE REALM OF BUILDING

## Building Operations.

### Insurance Co. to Build in Maiden Lane.

MAIDEN LANE.—The German-American Insurance Co., 35 Nassau st., will erect in Maiden lane, No. 68, a 12-sty fireproof office building, to cost in the neighborhood of \$500,000. The Record and Guide is informed that no architect has yet been appointed, or any contracts made for the work.

### Fifth Avenue Office Building.

5TH AV.—Irving E. Raymond, care Webster B. Mable, No. 1 West 34th st., will build at a period of one year at Nos. 286, 288 and 290 5th av., west side, between 30th and 31st sts., a 12-sty office and loft building, on a plot 60x125 ft. Mr. Mable informs the Record and Guide that no architect has yet been appointed, or any contracts made for the work.

### Manhattan Storage Warehouse to be Enlarged.

LEXINGTON AV.—The Record and Guide is informed that the Manhattan Storage and Warehouse Co. will erect a large addition, 50x100 ft., to a height of its present building, on the north side of 41st st., west of Lexington av. Marc Eidlitz & Son, 489 5th av., will be the general contractors. Messrs York & Sawyer, 156 5th av., have been architects for the company in previous operations.

### More High-Class Elevator Apartments.

BROADWAY.—The Central Realty Co., 7 East 42d st., will erect at the northeast corner of Broadway and 101st st a high-class elevator apartment house, to cost in the neighborhood of \$350,000. The building will be 100x120 ft. in size, 10 stories, and contain an exterior of limestone and terra cotta. The interior will have electric elevators, steam heat, electric lighting plant, marble, tile and hardwood trim. No figures have yet been taken or any contracts let. Messrs. Mulliken & Moeller, 7 West 38th st., are now preparing plans.

### Big Apartment House for West 86th Street.

86TH ST.—The West Eighty-Sixth Street Studios, 27 William st., will erect a 12 and 14-sty elevator apartment house on a plot 75x100 on the north side of 86th st., 150 ft. east of West End av., from plans now being prepared by Messrs. Pollard & Steinman, 234 5th av. There will be apartments for 36 families, of four apartments on a floor. The fronts will be of Indiana limestone and terra cotta. The interior will contain electric elevators, steam heat, electric lights, marble, tile and hardwood trim. No sub-contracts for any of the work has yet been awarded.

### Architects to Compete for Central Park Theatre.

CENTRAL PARK WEST.—At a meeting held on Tuesday between the Building Committee of the Board of Founders of the new theatre project, consisting of Charles T. Barney, Henry R. Winthrop, Harry P. Whitney, Elliot Gregory and Otto H. Kahn, who will build on Central Park West, on the whole block front between 62d and 63d sts and Broadway, nine architectural firms were named to submit plans in competition, as follows: Carrere & Hastings, Barney & Chapman, Trowbridge & Livingston, Warren & Wetmore, Delano & Aldrich, George B. Post & Sons, Robertson & Potter, J. H. Freedlander and Hoppen, Koen & Huntington.

A jury, which will pass upon the plans, will consist of three outside architects, appointed by the competing architects; three members of the Board of Founders, and one theatrical expert. Other well-known New Yorkers interested are J. Pierpont Morgan, William K. Vanderbilt, H. McKay Twombly, Henry Waters, W. De Lancey Kountze, James Henry Smith, John Jacob Astor, Edmund L. Baylies, August Belmont, Paul D. Cravath, William Osgood Field, George J. Gould, James H. Hyde, James Stillman, Robert B. Van Cortlandt and Cornelius Vanderbilt.

### Power Plant for Westchester Railroad.

Specifications are out for a large power house to be erected by the New York, Westchester & Boston Railway Co., whose main offices are at 30 Broad st., New York. It is stated in a communication sent out by the City & County Contract Co., which also has offices at 30 Broad st and which will receive the bids, that the power house is to be built on Long Island Sound somewhere between Rye and Mamaroneck on a site not yet selected. The bids are to be submitted on March 24 either to the City & County Contract Co., of which T. D. Rhodes is president, or to William A. Pratt, who is chief engineer of the company. L. B. Stillwell, of 100 Broadway, is the consulting electrical engineer of the plant, and Sargent & Lundy, who have

offices in the Railway Exchange Building, Chicago, are the consulting mechanical engineers. A machine shop will be built later on. The City & County Contract Co. has the contract for building the road and is subletting contracts for building steel bridges, the power house and the machinery equipment. The specifications for the equipment designate three steam turbo alternators with dependent auxiliaries, 24 water tube boilers, superheaters and parts, three open exhaust feed water heaters, six horizontal outside packed plunger boiler feed pumps, three surface condensers, 24 mechanical stokers and one 60-ton electric traveling crane.

### McAdoo Terminal Plans.

Syndicate papers, privately circulated among banking houses this week, relate that the financial interests which are supporting the two McAdoo tunnel enterprises contemplate forming the Hudson & Manhattan Railway Company, with a stock issue of

THE CHURCH STREET TERMINAL FROM THE RIVER.

Clinton & Russell, Architects.

\$50,000,000 and a bond issue of \$100,000,000, which will take over the property and contracts of the "Hudson Companies," this being the name of the organization under which the tunnels are being built. Additional stock will be issued later. Besides equipping the two tunnels, the company will build two immense terminals, one a \$3,000,000 22-sty building in Church st., between Cortlandt and Fulton sts., and another at Herald sq., between 32d and 33d sts., backing up against the Pennsylvania Railroad terminal. In addition, an electrically equipped \$6,000,000 road will be constructed between Jersey City and Newark on the Pennsylvania lines, besides a line connecting Jersey City and Hoboken, tapping the great terminals of the Pennsylvania, Erie and Lackawanna railroads, with which properties contracts have been made for the transportation to Manhattan of the suburban and through passengers of those roads. Plans for the terminal building are quite incomplete, and for the one in Church st., permission to close Dye st not having been obtained, it is uncertain what the dimensions of the structure will be, though the expectation is that the city will consent to closing the street west of Church st and permit the erection of one solid building covering two blocks.

### Apartments, Flats and Tenements.

6TH ST.—Louis Reiner, 436 Grand st., will erect at the northeast corner of 6th st and Av. B a 6-sty 15-family flat, 93x83.8, to cost \$30,000. B. W. Levitan, 20 West 31st st., is architect.

## BUILDING NOTES

"God and the people hate a chesty man."—Timothy D. Sullivan.

Hotel Belmont is receiving its "finishing touches," but a structure so immense needs a great many. Those who have been permitted to see the interior pronounce it very handsome and substantial in its constructive parts. Red marbles and mahogany are the predominant keynotes of color.

Twenty-two cargoes of common brick arrived from Hudson River points south of Rondout last week and were immediately taken up. Almost continual shipping during the open winter has used up nearly all the material at Haverstraw. Quotations are unchanged from last week—\$10.75 to \$11 being the rate to dealers in the wholesale market.

The quarterly convention of the American Portland Cement Manufacturers, at the Bellevue-Stratford Hotel, in Philadelphia, was largely attended, especially the second day's session, when many ran over from New York. It was an open meeting, and the most important discussion regarded a uniform schedule of prices for the various grades of cement.

Cramp & Co., of Philadelphia, building constructors and also famous throughout the world as shipbuilders, have opened an office in the Lord's Court Building, in this city, and are going into the business of building construction. This firm is composed of Norman W. Cramp, president and treasurer; William M. Cramp, vice-president; Michael J. O'Mera, secretary and general manager; James W. Davie, engineer and superintendent, and Edward Earle, comptroller.

The Whale Creek Iron Works, contractors for ornamental iron for buildings, with offices and plant at Calyer and Moultrie sts, Greenpoint, have completed and are now working on considerable ornamental iron. Their recent contracts include the Lackawanna Terminal Station, Hoboken, N. J., Kenneth M. Murchison, architect; Automobile Club of America, West 54th st, Ernest Flagg, architect; and the Fort Greene Comfort Station, McKim, Mead & White, architects.

The Department of Water Supply, Gas and Electricity has

made the following appointments of engineers: Alfred D. Finn and Robert Ridgeway, of New York, as department engineers, at \$6,000 a year each; Thomas H. Wiggins, of Pittsburg, Pa., as designing engineer, at \$4,000 a year; Carleton E. Davis, of Brown Station, N. Y., as department engineer, at \$6,000 a year; John D. Groves, of Syracuse, N. Y.; Ralph W. Greenlaw, Frederick Ward, Leonard P. Wood and Arthur V. Ruggles, of New York, to be assistant engineers, at salaries ranging from \$1,650 to \$2,000 a year.

The Thomas Krekeler Company, of Brooklyn, dealers in second-hand building materials, have purchased eighteen brick and brownstone dwellings on Schermerhorn, Hoyt and Livingston streets, that were condemned for street widening purposes, and they offer the materials in these buildings for sale on the premises, in condition for immediate use, and at prices that should command ready sale. The company has large yards at 2280 Fulton street, filled with masons' materials, steel beams, iron columns, cut stone, heavy girders, etc., and with a large equipment, which guarantees quick deliveries.

The annual meeting of the Association of Dealers in Masons' Building Materials, held at the association rooms, 18 Broadway, March 15, was preceded by a luncheon served by Delmonico. Reports were received and the regular ticket was unanimously elected, as follows: President, Francis N. Howland; vice-president, John A. Philbrick; treasurer, Nathan Peck. Directors—Francis N. Howland, John A. Philbrick, Nathan Peck, John H. Mahnken, Wm. H. Schmohl, Nathaniel Wise, Wm. K. Hammond, John B. Rose, Audley Clarke, A. E. Aldridge, Wm. H. Barnes, Ernst Braun, Chas. E. Murtagh, John C. McNamara and Jas. E. Clonin.

Representatives of 13 large wholesale metal houses in this city, composing the New York Metal Jobbers' Association, attended an informal dinner at the Hotel Astor on Tuesday night and discussed trade questions. Frank C. Jennings, of Bruce & Cook, presided. Trade affairs were reported to be in a satisfactory condition. Present were representatives of Bruce & Cook, H. R. De Milt & Co., Merchant & Evans, Dickerson, Van Dusen & Co., the Wheeling Corrugating Co., the Public Metal Ware Co., Hoffman & Scofield, the Dimock & Fink Co., G. A. Feld & Co., Letcher & Norton, James A. Coe & Co., the Jersey City Galvanizing Co., and the Lefferts Galvanizing Co.

Mr. Pugh surely cannot complain of the quality and workmanship of the wall which Mrs. Rutherford is having laid betwixt her brownstone mansion and his 10-sty apartment house on Riverside Drive, since the material of which it is being made is No. 1 yellow speckled pressed brick, and the wall has buttresses like a Gothic church. For a height of 36 ft. the handsome yellow Rutherford bricks will hide Pugh's common reds, and, incidentally, close up the windows of three stories of his giant tenement, and so prevent further ocular trespassing on the part of the tenants of that area. With this modification, the "vista" from the southern windows of the "Bonavista" over and across Mrs. Rutherford's property will be as "beautiful" as heretofore.

### Revising Building Code.

GEORGE B. POST TO BE ASKED TO AID—BUILDING TRADES EMPLOYERS' ASSOCIATION TO BE REPRESENTED—A SUGGESTION REGARDING MUNICIPAL ART.

Mr. Grifenhagen, chairman of the Committee on Buildings of the Board of Aldermen, expects to call his committee together next week to take up the task of revising the Building Code. It is the hope of the chairman that a code will be formulated that will meet with the approval of the building trades and the other interests concerned. Mr. Grifenhagen believes that a small auxiliary committee of experts can be more effective than the larger one which it is possible to employ under the terms of the resolution of the Board. Therefore, he will rely, in all probability, with the consent of his colleagues, upon a few skillful specialists, such as one architect, one engineer and one builder who will be representative of the Building Trades Employers' Association. It is understood that Mr. George B. Post will be asked to serve as one of the experts that are to be employed to assist the Committee on Buildings.

In a letter which Chairman Grifenhagen has received from the Municipal Art Society a suggestion is made in regard to the proposed revision, as follows:

"While it is, of course, of the first importance that such revision should be based upon thoroughly scientific grounds, taking advantage of the latest developments in municipal architecture, in sanitation and in civil engineering, it should not be forgotten that, at the same time, the artistic considerations should be always kept in view. Changes can be made in the Building Code which if properly considered would go far to improve the artistic character of New York. We have many restrictions in our Code for the purely material side of affairs, but few which are based upon the principles of beauty. In every great foreign metropolis such restrictions are recognized and made part of the Code—in some instances even being given first consideration.

"Why, if we are to have a revision, should not the example of these foreign cities be made a precedent, as the refining in-

THIS illustrates the Power House of the Metropolitan Railway Company, at 96th Street and East River, New York City. It is considered, both from architectural and mechanical standpoints, one of the best examples of its class of building in this country. Among the several highly commendable features of this structure, the Ar-

chitectural Iron Work, including window frames and sashes, stairs, railings, etc., all manufactured and installed by the Hecla Iron Works, stands out boldly as a master specimen of mechanical handiwork.

**The Hecla Iron Works are recognized as the first and foremost concern in the manufacture of Architectural Metal Work in the World. The plant is the largest and most complete, and the quality of its work is considered the standard, the world over.**

North 10th, 11th and 12th Sts., from Wythe Ave. to Berry St., Brooklyn, N. Y.

fluence of noble and beautiful constructions is entirely compatible with the most practicable solutions of the problems of municipal building.

"The Municipal Art Society would therefore respectfully suggest that in the composition of the new commission that has been proposed there be added to the experts in architecture and practical building, in engineering and corporation law, at least two members who, by training and ability, are competent to give advice upon the questions of form and color which would inevitably arise, and which should be carefully considered in the proposed changes in the Building Code."

#### Gilsey Estate to the Auction Mart.

The real estate holdings of the estate of Peter Gilsey are to be sold at auction in order to settle up the affairs of the estate. Proctor's Fifth Avenue Theatre building, at the north-west corner of 28th st and Broadway, will be the first parcel of the estate to be placed under the auctioneer's hammer, and will be sold by Bryan L. Kennelly, the auctioneer and real estate broker, at 12 o'clock noon on Wednesday, April 11, at the Exchange Salesrooms, 14 and 16 Vesey st, by order of Henry and John Gilsey, executors of the estate. The building occupies a plot fronting 105.9 ft. in Broadway and 189 ft. in 28th st. The length of the north line of the plot is 151.2 ft. and the west line 98.9 ft. The plot comprises about 17,000 sq. ft. The lease of the property held by F. F. Proctor not being for a long term, whoever buys the property will be able in a short time to raze the building and erect on the site a tall office and

store structure. The Princess Theatre, just north of Proctor's Fifth Avenue Theatre, is also on a plot owned by the Gilsey estate.

#### Notice to Material Men.

New York, March 16, 1906.

To the Editor of the Record and Guide:

Dear Sir: Our attention has been called to the fact that some individual is canvassing the trade in this city, soliciting accounts for collection and presenting a card reading as follows: "Bradley & Hatch, Attorneys and Counsellors for Material Men's Association, 21 Park Row, New York. R. D. Martin, Mgr." We have caused inquiry at said address to be made but cannot find the firm of Bradley & Hatch. No such firm appears in the Lawyers' Diary, nor any attorney by the name of Bradley or Hatch at said address; neither can such firm be found in the City Directory, nor is R. D. Martin known at 21 Park Row, nor does his name appear in the City Directory. The name "Material Men's Association" printed on said card is very close to ours and the address, 21 Park Row, might easily be mistaken for 41 Park Row, the address of the undersigned. In order that the trade may not be misled, we call attention to the fact that the person presenting such card as above in no way represents the undersigned, nor are Bradley & Hatch in any way connected with us. Yours very truly,

# The New Harmonie Club-house

The new home of the Harmonie Club, at 4 East 60th st, stands as one of the most complete and beautiful club houses in this city. Every modern improvement, such as automatic regulation of temperature and ventilation and vacuum system of sweeping and cleaning, has been installed, leaving nothing to be desired in the

for dividing them into two pairs, each in a separate room. A large billiard room is provided on the fourth floor, while two stories are almost exclusively devoted to card rooms. A very complete kitchen serves a number of private dining rooms as well as the main dining room, and liquid refreshment is obtainable in a grill

way of comfort and efficiency. In addition to the mere equipment, the clubhouse is noteworthy from an artistic point of view as an excellent example of the work of Messrs. McKim, Mead & White. The interior decorations and furnishings are particularly well studied and executed, the lounging room being considered by many to be the masterpiece of rooms of this character. This room occupying most of the first floor, is finished in Circassian walnut, the wall hangings and the predominating color in the furnishing being a dark green. The ceiling is treated in ornamental plaster work, very richly carved and gilded.

There are four bowling alleys in the basement, with provision

room just off the office on the main floor. The building also contains a ladies' parlor, a gymnasium, and a roof garden will eventually be added, space having been reserved for it over the front portion of the building.

The contract for the erection of this handsome building was entrusted to the Tide-Water Building Co., whose offices are at 25 West 26th st, New York City, of which Mr. A. Milton Napier is the President. As a proof of the responsibility and ability of this firm to carry out in the best manner building construction work in its entirety, the Harmonie Club is most convincing.

## REAL ESTATE NOTES

Nathan H. Weil, real estate and insurance broker, of 255 East 86th st, will remove his office on April 2 to the Yorkville Bank Building, 3d av, corner of 85th st, suite 305 to 307.

The Appellate Division of the Supreme Court this week handed down a decision denying an application to change the place of judicial sales of real property for the Borough of The Bronx from 14-16 Vesey st. The opinion of the Court is rendered "per curiam." It says: "We do not think that at the present time this application should be granted. When the question of providing some place for making judicial sales was presented to this Court most of the real estate brokers, through a committee, submitted a proposition whereby certain premises were to be hired by, or for, them upon this Court designating the place as selected in the salesroom. This was done, and under that arrangement a lease of the premises was executed. Under this lease, liability for the rent was necessarily imposed upon the lessees, and it appears that the receipts from fees, if they equalled, did not exceed the necessary disbursements of maintaining the exchange. To divert the business to any serious extent which would be the result of granting this application would be to increase the burden of those obligated on the present lease. This, we think, would be unjust and would serve no useful purpose."

CONVEYANCES

Whenever the letters Q. C., C. a. G. and B. & S. occur, preceded by the name of the grantee, they mean as follows;

1st.—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed wherein all the right, title and interest of the grantor is conveyed, omitting all covenants and warranty.

2d.—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or encumbered.

3d.—B. & S. is an abbreviation for Bargain and Sale deed, wherein although the seller makes no expressed consideration, and thus impliedly claims to be the owner of it. The street or avenue numbers given in these lists are, in all cases, taken from the insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made of them by the Department of Public Works.

4th.—The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given.

5th.—The figures in each conveyance, thus, 2;482—10, denote that the property mentioned is in section 2, block 482, lot 10.

6th.—It should also be noted in section and block numbers that the instrument as filed is strictly followed.

7th.—A \$20,000—\$30,000 indicates the assessed value of the property, the first figures being for the lot only, and the second figures representing both lot and building. Letter P before second figure indicates that the property is assessed as in course of construction.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given and the amount. The general dates used as headlines are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

The first date is the date the mortgage was drawn, the second the date of filing; when both dates are the same, only one is given.

Subscribers will find mortgages in this list with the wrong block number attached. The block number we given is taken from the instrument as filed.

Mortgages against Bronx property will be found altogether at the foot of this list.

March 9, 10, 12, 13, 14 and 15.

JUDGMENTS

In these lists of Judgments the names alphabetically arranged and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (\*) means not summoned. (†) signifies that the first name is fictitious, real name being unknown. Judgments entered during the week and satisfied before day of publication, do not appear in this column, but in list of Satisfied Judgments. The Judgments filed against corporations, etc., will be found at the end of the list.

Record and Guide Quarterly

The annual number of the Record and Guide Quarterly contains all the legal records for the past year concerning real estate and projected buildings, arranged alphabetically and numerically, with invaluable annotations. These are supplemented by tables of important transactions, with typical prices, covering the past quarter of a century or more, accompanied by expert comments; also by a list of realty corporations created during the past two years, with officers and the enterprises in which they are engaged. The whole makes a volume of reference which no real estate man can afford to be without. It should be on every desk and in every library. Its cost is as nothing compared to its value as a time-saver. This important work can be obtained, with three quarterly numbers, for the comparatively small sum of \$20. It is published by the Record and Guide, at Nos. 14 and 16 Vesey St., where interested parties may see it and have its uses explained to them. If you cannot call, drop a postal card to the Publisher, or call him up on telephone 3157 Cortlandt

With this issue the Record and Guide begins its Thirty-ninth year of service for the real estate and building interests of this city.

THE PEACEABLE outcome of the Moroccan conference is in sight, and money is undoubtedly tending towards ease. The indications are that the April settlements and heavy interest and dividend disbursements will be made without strain. Easy money with its resultant stock exchange activity naturally causes general business improvement which must be necessarily advantageous to real estate interests. Foreign exchange is weak, making it a certainty that high money rates here would promptly attract gold from Europe. The stock market during the week has been dull and narrow, with unimportant fluctuations. The basic conditions are, however, unquestionably sound. In January last the highest prices of the great advance in stocks were reached, and at the same time there was extraordinary activity, the record on the ticker being seven or eight minutes behind. Numbers of transactions were never reported because of haste. Floor brokers were often forced to resent any criticism of execution of orders, because it was a common thing in active stocks for different prices to prevail at the same moment, varying with the portion of the crowd in which the broker found himself in at the time of the execution of an order. The Stock Exchange, it may fairly be said, was overtaxed and had the market gone higher the machinery of the organization might have broken down. In other words so high did the market go in this great game of speculation that a point was reached where no more players could be accommodated. This has invariably been the case. The public will only come in on a market that has risen. The higher the prices the more public it attracts—the attraction seeming to be the stories told of the profits already made, making it easy to credit every prediction and promise of profits still awaiting purchases.

IF ATTENTION had been called to the intrinsic value of Reading at 15 when the market was dull in the Summer of 1900 the remark would probably have been made that the stock was moribund. The same shares representing less property a little over five years afterwards at 164—eleven times the price—were tipped for 300, only the more conservative venturing the cautious prediction of 200. This week Reading sold at 125, forty points under the price of two months ago, and in a market so dull that commission house or public buying had ceased, thus showing, as has been stated, that the higher the price the greater the activity, the lower the price the fewer the buyers. It is an axiom in Wall Street never to sell on a dull market. When prices get so low that the public will not buy, professional Wall Street reasons that the decline is at an end. On the other hand, when figures advance to such an extent that brokers' clerks have to remain at work at night because of the public participation, professional Wall Street again reasons that stocks are a sale. The question that now presents itself is this: Does the current dullness mean the end

of the decline in prices, reaching as it does on the average from 20 to 40 points, and will the new and inevitable activity carry quotations to a higher level than formerly before the indispensable public is attracted again? Some of the shrewdest persons in Wall Street believe that the decline of the last two months is merely an interlude and that on the next advance greater momentum will be attained and much higher prices reached for all the standard securities. The United States Steel Corporation shows an increase of net earnings last year over the previous year of nearly \$55,000,000. Our merchandise exports are averaging each of the last eight months fifty millions in excess of the imports monthly. Railroad earnings are from 22 to 30 per cent. over last year, while bank clearings during January and February are six thousand two hundred and eighty-five millions, or nearly 28 per cent. over last year's figures. These and similar stupendous items, combined with the end of corporation baiting, will form the substructure of the next bull movement said to be at hand.

THERE is an abundance of reasons why property values in Manhattan should be steadily increasing and why such values should be growing most rapidly at important points of travel or traffic intersection. But one reason which supplements the others is the palpable fact that Manhattan is topographically incapable of enlargement, while as business grows and the population increases, its available area is curtailed. Before the adoption of the legislation of 1887 for the establishment of small parks in Manhattan, there were 960 acres of park land, of which 840 were those included in Central Park. Since then, almost continuously, the project of new parks has been steadily going forward with the result at the beginning of this year the park area of Manhattan was 1,416 acres, while the whole acreage of Manhattan is 14,038; or more than 10 per cent. of the area of Manhattan devoted to parks and thus withdrawn from speculation of real estate development. Further, other causes have been operating to reduce the available territory of Manhattan. There are half a dozen armories, each including a city block, or the best part of a city block. There are new and large terminals for railways, particularly the Pennsylvania and the Central stations and approaches. Public buildings have encroached on or have been extended over much territory previously available, and on the East Side the approach to the Delancey Street bridge has made a broad cut in buildings, as likewise the New York Central approaches on the upper East Side have cut off many buildings there. So long as Manhattan had a residue of unused land such changes made less difference than is the case now, when practically the whole territory on Manhattan Island has been developed and is in demand for use.

WE ARE pleased to notice that the Board of Health is not only "sitting up" a little of late, but is also stiffening its backbone in regard to the smoke nuisance. There is a great deal of drastic work to be done if this city is to preserve henceforth the purity of its atmosphere. Violations have grown apace, and manufacturers, steamship companies and others have exhibited a very determined impudence in the use of soft coal. There is no doubt a considerable profit to be reaped by the disregard of the law, and this profit works as a sleepless incentive to befoul the air. The evil can be coped with only by an equally persistent vigilance on the part of the Board of Health supported as the Board must be, if anything is to be obtained, by a pronounced public opinion. If manufacturers and others have a good reason in dollars and cents for using soft coal, our citizens have a much greater pecuniary reason for its prohibition. One of the greatest attractions of New York City in the past has been its clear, unfogged atmosphere, but if New York should become as Pittsburg is, or like unto Chicago, the fact would undoubtedly be registered in the value of real estate. Our apartment houses, hotels, stores and theatres would all suffer, for New York City is now run on so big a scale that a very small adverse percentage amounts to a large sum of money, none the less real because it cannot be distributed upon individuals by a definite calculation. Residents of the city are already complaining that their furniture and decorations are suffering in an unusual degree from smoke, and it is becoming much more difficult to keep places clean. These are apparently small matters, but comfort is made up of an accumulation of small matters, and the migration of a residential population is directed here or there, as the case may be, by what we may call the little details of living. New York City is surrounded by suburban competitors, of which it was the mother. Every year these competitors are installing improvements and bidding thereby with greater effect for our population. Any one who

will take the time to watch our ferry houses, bridges and other outlets at nightfall will get some idea of how enormous is the crowd that, for one reason or another, prefers a residence elsewhere than within the city. Undoubtedly, many thousands have sought the suburbs on account of the discomforts of Rapid Transit in New York City. The smoke nuisance can well become another propelling force ejecting from our midst people who otherwise would be members of the community. It has become the plain duty of every one who notices any building where the smoke nuisance is committed to refer the case promptly to the Board of Health. To-day there are hundreds of smoking chimneys to be observed from the upper stories of any of our tall buildings where formerly none was visible.

### The Newest Thing in "Skyscrapers."

It is apparent that the year 1906 will witness the planning of and the starting of as many skyscrapers as any year during the previous history of the city. The list of new undertakings is already large, and it is increasing daily. Among the edifices the construction of which has been already decided we may mention the new office building which the City Investing Company will build upon Cortlandt street; the new building of the Singer Manufacturing Co., on Broadway; the proposed buildings to be erected by the Schermerhorn Estate, the American Express Co., and the Mercantile Trust Co., of St. Louis, on lower Broadway; the tower which the Metropolitan Life Insurance Co. will build on Madison square, and the new Rogers-Peet building on Greeley square. This list is by no means complete. It includes only some of the most important projects; but it gives an idea of the number and importance of these proposed new buildings. It must be remarked also that the majority of these new buildings are to be erected in or near the financial district, and that they will probably average a larger number of stories than any group of skyscrapers which have been built in any one previous year.

The fact that these buildings will tend, on the whole, to be taller than ever is worth some attention. When, a few years ago, some of the banks began to build low buildings on expensive property for their own exclusive occupancy, it was freely predicted that the day of the skyscraper was over. We recollect an article in the *Atlantic Monthly*, in which the writer claimed that skyscrapers in the financial district had become economically undesirable, because of the extent to which they must necessarily interfere with each other's light. It was all very well to build them when they were few in number, and were not surrounded with giants of their own size; but as soon as several of them began to be erected on the same block their owners were obliged to take expensive precautions in order to secure for their tenants a little sunlight. In many cases the owners of existing buildings were obliged to purchase adjoining property, so as to prevent the erection of skyscraping neighbors; and the consequence was that, inasmuch as a twenty-story structure needed the protection of a three-story building on adjoining property, it began to look as if the whole property might better have been covered with a lower edifice. It is undoubtedly true that this reasoning had some cogency; but when the writer deduced from it the inference that skyscrapers had become on the whole economically undesirable, he was going altogether too far. As a matter of fact, the only owners of expensive property who erected low fireproof buildings on the plots they owned were banks, who could afford the luxury of such an extravagance; and the true inference to be drawn from the facts and conditions, roughly indicated above, was entirely different. The true inference was that hereafter a man or a corporation which proposed to erect a skyscraper must take care in advance to secure as much light as his tenants would need by purchasing a large and well located plot of ground.

When a corporation has secured a site which is large enough and sufficiently well located, the tendency is to build not lower than formerly, but higher. None of the new office buildings will be less than eighteen stories high, and many of them will be more. The structure now under construction on lower West street will rise as high as twenty-eight stories, because its owners have been able to secure for the offices situated therein an unusual quantity of good light. The newer Singer Building will have a tower, which is higher still, and the same is true of the extension to the building of the Metropolitan Life Insurance Company. These two instances are peculiarly significant. In each of these instances the holding corporations own very large plots, only a fraction of which will be covered by the tall tower, and by adopting this plan they secure many advantages. They can obtain the additional income which can be derived from a structure from twenty-five to thirty stories

high, while at the same time guaranteeing to the offices in the tower a perpetual supply of good light. Such a plan has the additional merit of permitting an economical disposition of the elevator space. It is extremely probable that hereafter variations of this plan will be used whenever a plot can be purchased large enough to make its execution feasible. A corporation such as the Equitable Life Assurance Society, which owns a whole block, could erect a building which would be at once spectacular and profitable, by covering the outer rim of the block with a twenty-story structure, the intermediate section with a twenty-five-story structure, and the center of the block with a tower as high as good elevator service would permit.

The spectacle which a skyscraper of this kind presents to the mind's eye suggests another interesting aspect of this matter. Such a building could be made, from the architectural point of view, most interesting and striking. The tower, merely because of its height, would, of course, be an impressive architectural feature, and it would lend itself to much more effective architectural treatment than would the ordinary skyscraper. The ordinary skyscraper is generally designed somewhat as a tower, and it frequently is a tower as compared to low contiguous buildings; but it is not architecturally a complete tower. Inasmuch as the rear and the sides of such a building may some day be hidden by adjoining buildings, the "architecture" of the structure is confined to the street front and the rear and side walls become plain brick facades. But, under the new plan, the tower must be designed to be seen from every point of view. It must be a complete instead of a mutilated thing, with four good honest facades, and with a design which necessarily emphasizes its height. Furthermore, the architectural effect of this tower will necessarily be harmonized with the effect of the immediate contiguous buildings. The lower part of the structure erected by the same owner must be architecturally congruous with the upper, just as the effect of an Italian church had to be congruous with the effect of its campanile. In fact, it looks as if a new era was beginning in the design of skyscrapers, and it is very much to be hoped that the American architect will make more of the new opportunity than he did of the old.

### Legislative Digest.

In the hope of doing away with the abuses that have grown up under the present system of officially acquiring land for opening streets in this city, there are now seven bills before the Legislature for the purpose of amending the present laws. Four of these were drawn by the representatives of more than fifty improvement and property owners' organizations. The others, more radical than the property owners' measures, were introduced by members of the Legislature who believe that the present methods are so radically wrong that they should be entirely wiped out instead of being tinkered. Two of the bills, one introduced by Senator Saxe, of Manhattan, and the other by Senator Gardner, of Brooklyn, provide for permanent salaried commissioners in place of the present system of naming independent commissions for each street opening proceeding.

A bill introduced by Senator Hawkins and Assemblyman Bernstein would permit exemption from local taxation of buildings and other real estate improvements to an amount not exceeding \$3,000. This bill has been urged by a number of taxpayers' associations in the Bronx and Brooklyn, on the ground that it would encourage the building of private homes, and has also been condemned very generally in Manhattan real estate circles. This is the measure which has been particularly favored by the "Evening Telegram," but there is no probability of its becoming a law.

The Elsberg rapid transit bill, as reported from the Cities Committee of the Senate, makes the clause concerning the manner of letting contracts for the construction, operation and maintenance of new subway routes permissive instead of mandatory, or practically what the City Club has contended for and what has been incorporated in the Page bill; but the bill now leaves it to the R. T. Board to say in the first instance whether it be expedient and in the public interest for the contracts to be let singly or together and in effect will interfere in no way with the routes at present mapped out. These routes are the ones desired by the merger company. Another feature of the measure terminates the self-perpetuating character of the Rapid Transit Commission, in requiring all vacancies on the board to be filled by the Mayor.

Assemblyman DeGroot, who represents the Flushing district in the Assembly, has introduced a bill providing for the payment of assessments for improvements in Queens Borough in installments. The provisions of the bill are that any assessment for the opening of streets, the laying of sidewalks and gutters, the construction of sewers or any other public improvements which is less than \$20, shall become payable within a year after the assessment is laid. Any assessment for a greater sum than \$20 shall be divided into five parts, one part becoming

payable each year after it is laid. This bill has the support of all those in Queens Borough who are interested in public improvements. It will encourage such improvements, as heretofore considerable hardship has been worked when the assessments were due the first year after they were laid.

#### AMENDING CITY TAX SYSTEM.

The Senate has passed three bills by Assemblyman Tompkins, designed to correct evils in the tax system in New York City. One provides that the Board of Estimate may issue corporate stock to cover the arrears in uncollectible taxes. Another permits the Tax Department to add names and assessments, if it be discovered that they were omitted from the rolls through error. Still another provides that the deficiency in taxes already levied may be included in the next tax levy.

The Page-Dowling bill, substituting a recording tax of one-half of 1% for the present mortgage tax, which it repeals, has been reported favorably by the Assembly Committee on Taxation and Retrenchment. This is the measure introduced by Senator Page after conferences of the New York Republican members who are pledged to its support. It has behind it the Allied Real Estate Interests, representing all parts of the state, and the various other organizations which have united in the demand for the repeal of the mortgage tax. Its advocates say that about thirty-five Senators and ninety Assemblymen will vote for the bill, and that the Governor will not make strong objections to its passage.

The Senate Committee on Taxation and Retrenchment has voted to report favorably Senator Page's bill to repeal the tax on savings banks after much debate. Senator Brackett's bill, providing that no saloon can exist within 200 feet of a public library, has also been reported.

Assemblyman Hartman, who has introduced a measure providing for half fares for school children going to and returning from school, amended the measure in the Assembly so to make it apply to all railway lines in New York City. As originally drawn the measure embraced only Manhattan and The Bronx. The bill provides for the sale of half fare tickets on the certificate of the principals of the schools the children attend.

Senator Coggeshall has introduced a bill to amend the tenement house law relating to the maintenance of bakeries in tenements. His bill amends the act so that dumbwaiter shafts may be constructed to the first or store floor in such buildings.

The Court of Appeals has affirmed the decision of the Appellate Division of the Supreme Court, in declaring unconstitutional the Ambler Special Excise law of the Legislature of 1905. This law provided that in New York City hotel liquor tax certificates issued for the year 1905 might be revoked, if the buildings did not comply with the building laws governing hotels. The life of the law expired on January 1 last, and the decision is only important in deciding what the power of the Legislature is in enacting a law of this character.

## Bay Windows.

### UNCONSTITUTIONALITY OF LEGISLATIVE ACTS OR MUNICIPAL ORDINANCES PERMITTING PERMANENT ENCROACHMENTS ON STREETS.

In the Appellate Division of the Supreme Court, First Department, the interdiction of the fundamental law has again been laid against encroachments upon the public streets. It emphasizes anew the fact that neither the State Legislature nor the City Board of Aldermen possesses authority to authorize such encroachments, and is timely in view of the bill now in the Legislature, introduced by Mr. Elsberg, and which has passed the Senate, whose manifest purpose is to give a sort of "locus standi" to property which trespasses upon public thoroughfares. The court case in which this principle of fundamental law has just been reiterated was an appeal from an order granting an injunction "pendente lite," and was entitled: John T. Williams, respondent, v. Robert M. Silverman Construction Co., appellant. Plaintiff and defendant are adjoining owners of real estate on Morningside Avenue West, subject to the restrictive covenants of a set-back agreement by which a line parallel to and ten feet back of the building line was to take the place of the building line established by the city and beyond which nothing was to be erected other than such as was permitted by law to be built between the exterior building or house line and the exterior area or stoop line. The defendant filed plans for and commenced the erection of a six-story high class elevator apartment house having a frontage of one hundred feet eleven inches, from the main front line of which project two "bay windows" having a total frontage of thirty-seven feet eleven inches, and extending three feet into the restricted space. These projections rest upon and are supported by the ground, extend from the foundation to the roof and are a part of the front walls of the building and of the same stone and masonry construction.

It was held that the projecting structures were not such as were permitted by law to be erected between the exterior building line and exterior area or stoop line; that the board of aldermen has

no power to authorize them and that a permit under Section 4 of the General Ordinance 1303 of the Board of Aldermen (Bay Window Ordinance), in force on May 1, 1904, was ineffectual to legalize them. It was further held, that a preliminary injunction to restrain the completion of the "bay windows" was proper, but that the removal of the portion of the structure already in place ought not to be ordered "pendente lite" but should await final judgment.

The plaintiff owns from 118th st, running south 100 ft 11 ins, and the defendant owns from that point south 100 ft 11 ins. to 117th st. The plots are both located within 350 ft of Morningside Park, and hence, for certain purposes, are within the jurisdiction of the Park Department. The defendant's premises are 120 feet deep, and the plaintiff's premises are 125 ft. deep. The plaintiff's premises are vacant. The defendant's premises now have thereon in course of construction a building covering in width 100 ft 11 ins. on the west side of Morningside av West, with a depth of 100 ft. On the 3d day of June, 1890, certain owners of property in that locality, for valuable consideration, for themselves, their heirs, successors and assigns, executed and delivered an instrument under seal, called a "set-back agreement." Among those who executed said agreement were former grantors of both the plaintiff and the defendant.

#### THE McMILLAN CASE.

In the opinion, written by Mr. Justice Clarke, the Ackerman and McMillan cases are quoted, and it is further said: In *McMillan v. Klaw & Erlanger* (107 App. Div., 407) the action was brought by a property owner to restrain the defendants, as owner of the adjacent lot, from erecting as a part of its building thereon a structure about 45 ft. in height and extending into the street 4 ft beyond the building line. The defendant set up as a defense an ordinance passed by the Board of Aldermen of the City of New York, which it was claimed, sanctioned and legalized the structure complained of. This court held: "No municipal or legislative enactment can justify or sanction such an invasion of the rights of private property guaranteed to the citizen by the State and Federal constitutions, and, therefore, the ordinance set up in answer is no defense to the plaintiff's cause of action." There is nothing to be added to Mr. Justice O'Brien's careful examination of the subject in that case. Whatever cases may be in the books which tend to support a different rule must be held to be overruled by the Ackerman and the McMillan cases until, at least, the Court of Appeals has again passed upon the question.

"It may, perhaps, be relevant to point out that Presiding Justice Van Brunt, in a dissenting memorandum in *Broadbelt v. Loew* (15 App. Div., 343), accurately, foretold the event. He said: 'Such a rule would enable the common council to authorize the extension of all buildings into the street.' By the ordinance of May 21, 1895, it was provided that show or bow windows not starting from the ground and not extending above the first story, and not projecting more than twelve inches from the front wall might be erected. By the general ordinance of June 25, 1903, it was provided that property owners could be licensed to erect bay windows with a projection of not more than three feet beyond the building line, but required the consent in writing of adjacent owners. By the ordinance of June 25, 1903, however, they provided that a permit for the continuance of an existing bay window might be obtained without consent of adjoining property owners. We have seen the kind of special ordinance the board passed in the McMillan case. In the case at bar the solid structure, from the foundation to the roof, is claimed to be a bay window permissible under a revocable license. If the board has the power to authorize such a structure projecting three feet into the street, why not six or ten? There is no such power. But the injunction goes too far. The mandatory portions thereof requiring the taking down of that portion of the structure already in place ought not to be in an injunction 'pendente lite.' That is the final remedy sought in the suit, and should await final judgment. The order should be modified by striking out the provisions requiring the removal of so much of the projections as have been constructed, and as so modified affirmed."

In view of this decision, it would seem that the bill referred to above will be ineffectual to accomplish its purpose. In the opinion of lawyers familiar with the scope of the proposed law, its effect would be to validate the illegal occupation of streets, both in the case of the Knickerbocker Trust Company and the New Amsterdam Theatre, as well as a score of other buildings, whose encroachment has provoked public comment, and validate this occupation until the city should take affirmative action to get rid of them. As the law stands at present, trespassers on public highways, are not able to get their titles insured by a trust company, to mortgage their property, or even to sell it. In behalf of the bill Senator Elsberg insists, however, that his measure is intended simply to provide that so long as certain properties are held under these conditions their holders shall have the valid title, and that the whole thing shall not be more or less up in the air.

Comptroller Metz is sorry 'tis so, but says the city cannot very well have a Central Park on every block. This was a little sarcasm at the expense of Chinatown.

## Building Code Revision.

### REPORT FROM BUILDING COMMITTEE RECOMMENDS RESCINDING PREVIOUS RESOLUTIONS.

**T**HE STATUS of proceedings preliminary to organizing a body of experts in building to assist the Committee on Buildings of the Board of Aldermen in revising the building code is concisely stated in a report from the committee to the board this week and which is here given in full:

"The Committee on Buildings, which was directed by resolution of the Board of Aldermen, adopted January 23, 1906 (Minutes, page 417), respectively reports that the committee has given much consideration to the resolution of authority to undertake a revision of the Building Code, and, through the chairman, has obtained the views of technical men and others familiar with the building industry. The committee feels that the resolution adopted by the board fixed an unscientific classification of experts. The committee recommends the rescinding of the resolution and the adoption of the annexed substitute. It is the intention of the committee to ask the proper authorities of the technical and trades associations to submit names for its consideration. It is the intention of the committee to employ a lawyer whose practice has been such as to make him familiar with the Building Code and the laws affecting the subject. They therefore recommend that the resolution (Introductory, No. 88) adopted by the Board of Aldermen January 23, 1906, instructing the Committee on Buildings to prepare a Building Code, be rescinded and repealed, and that the annexed resolution be adopted in lieu thereof.

Resolved, That, in pursuance of section 407 of the Greater New York Charter, the Building Committee of this Board be

being a member of that board, has been named in this connection as exceedingly well qualified to represent real estate owners; and the name of Mr. Fryer, the chairman of the Board of Examiners, eminent as an architect and engineer, and the principal author of the last published code of laws, is also being mentioned. Probably one or more of the associations will formally recommend these gentlemen, but it is being said that the mistake of not having men really qualified by experience to frame a code of building laws should not be made. The desirability of having a representative of the fire department named is also being spoken of; also that it should not be forgotten that the inspiring cause for the revision was the general desire to have such radical and unnecessary requirements as the "fire-proof wood" requirement stricken from the code; and that perhaps no outside lawyer is really necessary, as all the legal help that would be required by a revision committee should be and would be provided by the Corporation Counsel.

### New Works of the Winslow Brothers, Company at Chicago.

The Windsor Bros. Company, whose ornamental iron and bronze work on many of the best buildings in New York, has made them as well known here as elsewhere, have recently moved their manufacturing plant at Chicago into new and larger quarters. The main office and works now occupy the whole block on West Harrison st. between 46th and 47th avs. and comprise a group of buildings in keeping with the high artistic standard of the product manufactured in them. To signalize their going into these new quarters the members of the firm gave a delightful housewarming on Saturday, Feb. 3, inviting members of the leading architectural and contracting firms, members of the

NEW WORKS OF THE WINSLOW BROTHERS' COMPANY AT CHICAGO.

and hereby is directed to prepare and report to this board a Building Code, in amended and revised form, providing therein for all matters concerning, affecting or relating to the construction, alteration and removal of buildings or structures erected or to be erected in the City of New York; and it is further.

Resolved, That for the purpose of properly preparing said Building Code the said committee be and it is hereby authorized to engage the services of the following experts, each of whom shall be a resident of the City of New York, and shall have been engaged not less than five years in his respective calling, to wit:

Two (2) architects, one (1) structural engineer, one (1) sanitary engineer, one (1) engineer recommended by the Board of Fire Underwriters, two (2) master builders, two (2) mechanics skilled in building trades and one (1) lawyer and such other clerical assistants as may be necessary.

Max S. Grifenhagen, John J. Farrell, Jacob Bartscherer, J. Hann, Charles Kuntze, Wm. P. Kenneally, Committee on Buildings."

This report went over under the rules. The resolution previously adopted specified, for experts, 1 builder, 1 ironworker, 1 mason, 1 carpenter, 1 plasterer, 1 architect, 1 civil engineer, 1 sanitary engineer, 1 physician and 1 lawyer—a total of 10. The new resolution leaves out the doctor, the plumber, the ironworker, the carpenter and the mason, as such, and doubles up on architects, builders and engineers, and altogether is a more scientific and comprehensive selection, but in the opinion of many authorities is still open to criticism, inasmuch as no representative has been provided for the real estate owners' interests, and none for the building department of the city, or for a man familiar with drafting and interpreting the building laws. More particularly, it is being asked, why has there been no representative of the Board of Examiners named, seeing that the nature of its duties and the expert and representative character of its members so eminently qualify it for recognition when matters relating to the building laws are under consideration? Mr. Charles Buck, for example, owner, architect and builder, he

technical press and other friends of the company. A tour inspection was made throughout the premises followed by an elaborate luncheon. Everybody present thoroughly enjoyed the generous hospitality extended to them. We take pleasure in printing herewith a view of the new buildings.

### Report of the N. Y. Mortgage and Security Co.

The statement made by the directors of the New York Mortgage and Security Co. to the stockholders for the year ending February 28, 1906, shows: Assets, State deposit fund, \$1,093.75; cash on deposit, \$89,510.04; stock in other companies, \$20,600; bonds and mortgages, \$1,368,915.89; accounts receivable, \$7,605.40; loans on demand, \$438,300; accrued interest receivable, \$202,351.29; total, \$2,128,376.37; (and liabilities), capital, \$1,000,000; surplus, \$400,000; undivided profits, \$42,542.13; loans, \$550,000; accounts payable, \$5,894.99; accrued interest payable, \$129,939.25; total, \$2,128,376.37. The following exhibits the result of the operations of the company for the year ending February 28, 1906: Surplus and undivided profits March 1, 1905, \$381,178.93; gross earnings, \$160,526.59; taxes and all other expenses, \$23,980.89; net profit for the year, \$136,545.70; dividends, \$75,182.50; added to undivided profit, \$61,363.20; surplus and undivided profit, March 1, 1906, \$442,542.13. Since organization the company has sustained no losses and owns no property acquired by foreclosure.

At the annual meeting held March 12, 1906, the following directors were elected for the ensuing years: Charles T. Barney, William Jay, Ashbel H. Barney, Edgar J. Levey, Edward M. Burghard, Peter McDonnell, William H. Chesebrough, Theodore F. Miller, John D. Crimmins, Andrew Mills, James A. Deering, Charles W. Morse, Charles V. Fornes, Francis K. Pendleton, William E. Harmon, Walter T. Rosen, William F. Havemeyer, Oakleigh Thorne, Clinton R. James, Warner Van Norden, George Zabriskie. Officers: Edgar J. Levey, President; Charles T. Barney, John D. Crimmins, and Clinton R. James, Vice-Presidents; Cyril H. Burdett, Secretary; William N. Harte, Treasurer.

## Exhibition of the Municipal Art Society.

The exhibitions of the Municipal Art Society are intended to further the work of the society in encouraging a higher standard of artistic fitness in all municipal work, public buildings, parks, avenues, street fixtures, statues, mural paintings, etc.—not only in this city but in all others throughout the country. In this laudable object it has received the support of the municipal authorities very generally, and of kindred associations in other towns and cities. In the present exhibition, several of the City Departments are represented by important exhibits; the Board of Education sends large colored drawings, elevations and bird's-eye views, of the Parental School at Jamaica, Borough of Queens, the most important group of buildings being erected this year; and perspective drawings of the Mount Morris High School, for the decoration of the walls of which with historical paintings the society has just opened a competition, free to all artists. The Aqueduct Commission sends an important series of large photographs of the Croton dam, recently completed; the Street Cleaning Department, large drawings of the contemplated new stables, covered dumps and incinerator, which is to be used for lighting the Manhattan approaches of the Williamsburgh Bridge and the bridge itself, etc.

From the Art Commission of the city comes a series of views of the Hotel de Ville of Antwerp, the interior showing the important mural paintings, such as our own city hall may some day hope to possess. The proposed fine building which is to serve as a terminal of the Long Island City Ferry is represented also by drawings of the architect, Mr. Murchison. The President of the society (Mr. Charles R. Lamb) whose fertility in devising practical schemes for beautifying the city is well known, is represented by a whole series of large drawings showing, as seen from an elevator, a number of proposed improvements in the arrangement of buildings and thoroughfares. Among these may be cited: A view of Nassau st, provided with arcades and an upper promenade for pedestrians; scheme for a pedestrian street running diagonally northeast or northwest through the interior of a block between avenues; a rearrangement of the car tracks at Herald Square, designed to avoid some of the switches and crossings of tracks; an arrangement of the passenger exits of the Manhattan entrance to the Brooklyn Bridge, which would relieve much of the "jam"; a Co-operative Kitchen, situated in the centre of a city block, which would largely solve the servant girl problem; an elevated street serving the ferries on West st, etc.

In the important department of interior decorations, are shown a large number of studies made by Chas. Y. Turner for his mural paintings in the Waldorf-Astoria, the Manhattan Hotel, and Hotel Martinique, and the De Witt Clinton High School, just completed. The Municipal Art Society of Baltimore furnishes some handsome photographs of Mr. Turner's and Mr. Blashfield's decorations of the city hall. Mr. Blashfield's decorations in the dome of the Congressional Library, Washington, in the State House at Minneapolis, the Citizens' Bank, Cleveland, and other studies by him; large studies for similar mural paintings by Leftwich Dodge, Robert V. V. Sewell, J. M. Lichtenhauer, and others, make a fine display on the walls. For the new stained glass window in St. Paul's Chapel, Columbia University, Maitland Armstrong exhibits his colored sketch in color. A number of works of sculpture, monumental and decorative, represent that art; the competitive design by Messrs. Israels & Harder for a Soldiers' and Sailors' Monument; the McDonough Monument in New Orleans, by the same architects and the sculptor, Piccirilli; and Herbert Adams' model for the monument erected in New Haven to Ericson and Bushnell.

At the annual dinner held on the evening preceding the opening of the exhibition, the theme treated by the speakers, "Our City," was discussed from various points of views. Among the speakers were: Hon. Jerome Coombs, Dr. Josiah Strong, President of the American Inst. of Social Service, Rev. James Eells, Mr. N. Taylor Phillips, Deputy Comptroller, and Mr. J. Q. Adams, Art Commission.

### The Lumber Question Officially Viewed.

In his annual message to the National Wholesale Lumber Dealers' Convention at Washington the president (Lewis Dill of Baltimore) said:

"Read in the light of to-day, the literature of the annual meetings for many years gone by would be accepted as supplication and prayer that we might be delivered from a profitless trading and a worse than mad competition. Now, everybody is happy. None of the members of this association, and perhaps no one in the trade, has to-day a cause for serious complaint.

"We are all in favor of high prices and fixed high prices. Struggle with the problem as we may, we cannot get away from the fact that the increased and increasing value of stumpage and the cost of production justify the figures of to-day, and will compel them for the future. It was predicted during the early part of the year that the marked increase in prices would decrease the consumption, but those prophecies, up to the present time, have proven false. While we are going ahead at this splendid pace, and while we are keeping in mind the homely proverb which says: "A shower of mush is worth nothing to

him whose bowl is bottom upward," there is another adage which says, "What always has been probably always will be," and we should not forget that over-production, the arch-enemy from whose antics we have suffered so much in the past, is often the result of prosperous times, and during the coming year, perhaps even now, we may be on the crest of the wave of prosperity. At least one need not be a pessimist to utter a single word of caution.

"We should fix the status of the poacher and keep it fixed, and his place should be with the scalper and illegitimate dealer wherever he may be found. The narrowness of such a view as this will be pointed out and the most vehement and acrimonious cry against it will come from the operator who is selling wherever he can and to whomever he pleases, seemingly without reason and always without care as to custom or channel for distribution. When called to account, his arguments are specious and the blame he seeks always to put on others. He is a maverick, roaming at will over our lands, drinking at the clearest streams and feeding in the best of pastures. He must be caught and branded. No association should permit him membership, and no individual should, under any conditions or at any time, permit trading with him—neither buying or selling—and simple as the process may seem, you may depend upon it, if applied, his will be a short shrift."

—Of two completed sets of plans for Manhattan Bridge No. 3, now before the Bridge Department, one is estimated to cost about \$10,000,000, the other about \$7,000,000. The latter has been approved as to its constructive features by professional authorities. Its estimated cost is approximately \$3,000,000 less than that of the former, and it can be constructed in less time. Since the beginning of 1904 this plan has been excluded from consideration by the Bridge Department on the ostensible ground that the material necessary for its construction could not be manufactured. The Merchants' Association has addressed several bridge manufacturing concerns in relation to it, and is assured that if bids are asked these will be forthcoming and that the material can not only be manufactured, but the bridge can be built in much less time on this plan than on the much more costly wire cable plan. The Comptroller has also made independent inquiries as to the ability of bridge manufacturing concerns to build the bridge on the eye-bar plan, and the information received by him corroborates the statement made by the merchants who have brought the essential facts in this case to the attention of the Mayor, the Comptroller and the Bridge Commissioner with a view to selecting that which is best, cheapest and most readily constructed.

## Great Cathedral to be Erected at St. Louis.

The first prize in the architectural competition contest for the building of the new St. Louis Cathedral at St. Louis, Mo., was recently awarded to Messrs. Barnett, Haynes & Barnett, of the Columbia Building, St. Louis. The following is a brief description of the structure: Cost of construction, \$1,000,000; cost of decorations and furnishings, \$1,000,000; total cost, \$2,000,000; style of architecture, Romanesque exterior, interior Byzantine; entire floor and aisles to be laid with marble mosaic; entire exterior to be built of gray granite; length of building, 400 ft.; width, 212 ft.; height of dome, 200 ft. (taller than Jefferson Hotel); to be built at Lindell and Newstead avs, with

frontage on Lindell and extending to Maryland av; cornerstone to be laid within about ten months from date of excavating; cathedral to be finished within three years.

Barnett, Haynes & Barnett recently won distinction by getting the first prize for the new Cook County Courthouse being erected in Chicago. They were also the architects for the new Jefferson Hotel, completed during the World's Fair. They are now preparing plans for an 18-sty tower office building to be built on a plot of 29.6x40 ft. at Broadway, the southeast corner of Wall st, New York.

The Barnett brothers are graduates of the Christian Brothers' College, and of the St. Louis University.

Some of the architects who entered the competition were A. Von Herbulis, of Washington, D. C.; McGinnis, Walsh & Sullivan, of Boston; J. De Mentarnal, Paris, and Ruedek & Odenthal, Cologne.

## Building Operations.

### Loft Building for West 25th St.

25TH ST.—Frederick C. Zobel, 114-116 East 28th st, is preparing plans for a new 11-sty fireproof store and loft building to be erected at Nos. 41-43 West 25th st, 50x98.9, building to contain two elevators, steam heat, plumbing, tiling, fireproof windows and doors, and hard wood trim. No contract has yet been awarded.

### Chas. Broadway Rouss to Build in Mercer St.

MERCER ST.—Charles Broadway Rouss, 549 Broadway, informs the Record and Guide that he will build at Nos. 123 to 125 Mercer st, the west side, on a plot 50x100 ft, a fireproof, 11 or 12-sty business building, for his own occupancy. Elevators, steam heat, galvanized iron skylights, etc. Plans are now being prepared by William J. Dilthey, No. 1 Union sq. No contracts yet issued for the work.

### Row of Five Flats for Amsterdam Av.

AMSTERDAM AV.—Abraham Silversen, 2534 7th av, will begin in the near future the erection of a row of five flat buildings, 6-stys, 40x90, and 39.10x87, on Amsterdam av, the block front, west side, between 133d and 134th sts, to cost in the neighborhood of \$300,000. The plans are being drawn by Geo. Fred. Pelham, 503 5th av. No subcontracts for any of the work have yet been awarded.

### William Crawford to Build the Altman Stable.

36TH AND 37TH STS.—The general contract for the erection of the large 5-sty stable building, 100x100 ft, which the dry goods firm of B. Altman & Co., 6th av and 19th st, will build

at Nos. 207 to 213 East 36th st, running through to 37th st (Nos 206 and 208), has just been awarded to William Crawford, of No. 5 East 42d st. The building will be fireproof, of the very latest and improved stable equipment. No sub-contracts have yet been given out. The architects are the Messrs. Trowbridge & Livingston, of 425 5th av.

## Latest Riverside Drive Improvement.

**RIVERSIDE DRIVE.**—The Nathan Loewy Realty and Construction Co., 128 Broadway, will build on a plot, 100x100 ft on the southeast corner of Riverside Drive, and 119th st, a 9-sty high class elevator apartment house. There will be apartments for 37 families, of four families each on a floor. The fronts will be of Indiana limestone, and terra cotta. The interior will contain electric elevators, steam heat, electric lights, marble, tile, hard wood trim, and best open nickel plumbing. No sub-contract has yet been given out. Geo. F. Pelham, 503 5th av, is making the plans.

## Architects to Judge New Theatre Plans.

**CENTRAL PARK WEST.**—The architects consisting of three outside architects, appointed by the nine competing architects, who will pass upon the plans for the new theatre to be built in Central Park West, between 62d and 63d sts, have been appointed as follows: Donn Barber, of No. 24 East 23d st; Stanford White, of the architectural firm of McKim, Mead & White, No. 160 5th av, and Edgar V. Seeler, of 1510 Trust Building, Philadelphia, Pa. Heinrich Conried will act as theatrical expert. For complete list of names of those competing, see issue of March 17, 1906.

## Geo. A. Fuller Co. to Build 24-Sty. Building for Trust Company of America.

**WALL ST.**—The Trust Company of America, Liberty st, and Broadway, will erect in Wall st, Nos. 37, 39 and 41, occupying a frontage of 61 ft. 6 ins., a 24-sty skyscraper bank and office building, with a basement and sub-basement, to cost about \$1,500,000. The George A. Fuller Company, Broadway and 23d st, will be the general contractors, and Francis H. Kimball, of No. 71 Broadway, will be the architect. The exterior will be of handsome design in limestone, and the interior trim throughout will be in mahogany. The site is now covered by three 8-sty stone bank and office buildings, which will be demolished. No sub-contracts have yet been made.

## The Staats-Zeitung May and May Not Build.

**LAFAYETTE ST.**—The Staats-Zeitung, the German newspaper in Park row, informs the Record and Guide that the project under which a new printing building will be erected hinges upon the city's action in acquiring its present building site for the proposed enlarged bridge terminal. "To protect ourselves we have purchased property in the west side of Lafayette st., between Duane and Pearl sts, 160 ft. in Elm st, and 60 ft in Duane st, an irregular plot, with a rear depth of 140 ft, as a suitable location for a new structure," said a representative of the paper. No architect has yet been appointed or any definite plans decided upon. Thus the project awaits the city's action.
